## Manual of Pediatric Allergy

*Editor in Chief:* Major k Nagaraju

9789389587449 | Full Color | 2/e, 2021 | Softcover  
6.75" x 9.5" | Pages: 493 | Rs: 1695

### ABOUT THE BOOK

A ready reckoner, concise yet comprehensive, for reference and management is a necessity for the busy practitioners. This manual with national and international contributions fulfils this need with practical management guidelines. It has been our endeavour to present allergies in children in a simplified and practical manner to provide adequate knowledge to the paediatricians, so that they can diagnose early and provide optimal treatment. The entire contents of this book were formulated to provide appropriate clinical information relevant to our country.

### KEY FEATURES

- This book represents a substantial revision of all topics in the field of allergy and clinical immunology.
- Edited by experts of national and international reputation.
- Chapters are increased from original 28 to 33., included few new chapters, especially important from the practitioners' point of view, e.g. "Standardization of Allergens", which is the need of the hour in this country.
- Also included the upcoming topics like "Probiotics in Allergic Diseases" and "Rheumatology in Allergic Diseases".
- The topic of In Vitro Testing has been expanded to a complete chapter, inclusive of the need for component resolved diagnosis.
- Oscillometry and FENO have been included in the chapter "Devices in Allergy and Asthma".
