Reviews of Jaypee’s PGMEE Books

Thank you for your wonderful Sure Success MAGIC. It helped me in revision during the critical phase of exam preparation.
(Dr. Arun B Gowda, Rank 614-NEET PG 2017)

I just completed my MS General Surgery final year. The "Surgery Essence" is not only meant for PG entrance preparation, but also a revision tool for postgraduation student too. After studying Sabiston, Schwartz extensively for theory exams, at the 12th hour if one wants to study the concept based on each topic, one should have "Surgery Essence" a compile of Bailey and Love, Sabiston, Schwartz, Smith and Campbell’s urology and Devita!!! It really helped me a lot in my exam preparation and made me catch the concept and crux of each topic in last minute revision. Great Compilation!
(Sridhar P Junior Resident, Department of Surgical Disciplines, All India Institutes of Medical Sciences, New Delhi)

There was not a single moment when I thought of reading extra from other sources. Thank you so much for writing such a helpful book
(Dr. Ashwin Godbole)

I am Kanav Parikh AIR 21 in NEET PG 2020. I read Review of Pediatrics and Neonatology by Taruna Mam and Apurv Sir for my pediatrics preparation. The lucid format of the book appealed me at the onset. The content is highly authentic and updated with recent guidelines. The book is a beautiful blend of theoretical and practical high yield points with ample of images and image-based questions. The segregated high yield points are very handy for quick revision. The content has been arranged in a very palatable manner pointwise, without unnecessary text and boring sentence format. In a nutshell, it is a concise as well as precise source for pediatrics which any PG aspirant would be in search of.
(Kanav Parikh AIR 21 in NEET PG 2020)

Hi Dear Rebecca Madam, I was one among the many medical students who fear the subject biochemistry. The only book I read is yours with your class notes. It is high yield, comprehensive and condensed which cover all potential questions of PGMEE. I solved the MCQs in the book as well which boosted my confidence. I recommend this book to all PG aspirants.
(Dr. Monica G, NEET PG 2019-rank 8, AIIM Nov 2018 Rank 123, PGI Nov 2019 Rank 42)

Respected sir, with your valuable guidance through the book, FB page and group I got selected in MPH at AIIMS, Rishikesh. My hearty gratitude and appreciation to you sir. I bought your book in April and was able to clear the exam in June. It is because of the clarity of the topic which helped me to cover everything within a shorter span, cannot express enough gratitude to you. Hope your work will help innumerable students to achieve the goal. Thank you, sir!
(Runalika Roy)

Review of Radiology by Dr. Rajat Jain and Dr. Virendra Jain contains more than enough content not just for entrance examinations but it also helped me a lot in understanding radiology as a subject in my Undergraduate period also.
(Dr. Ashraf Kesaran, Rank 1 NEET PG 2019)

Review of Pharmacology is one of the few books that deliver facts and concepts in an easy to remember way. This book helped me a lot in getting through professional exams as well as NEET PG 3 years later. Especially in a subject such as pharmacology where a lot of alien sounding names, sir you have used your art of delivering golden mnemonics.
(Rohan Luthra)

I got 794 marks which gave me Rank 1 in Armed forces sir. I am grateful to your book which made things so simple and help correlate a lot of Anatomy related topics from various subjects. Thanks a lot.
(Dr. Rahul Dhudhal)
