22. Oxygen Therapy

— MM Puri

Physiology and pathophysiology of oxygen 645, Hypoxemia and hypoxia 646, Physiology of oxygen therapy 647, Oxygen delivery system 648

23. Pulmonary Embolism

— Prasanta Mohapatra, Suman K Das, Ashok K Janmeja

Epidemiology 658, Pathophysiology 659, Clinical features 660, Laboratory findings 661, Risk stratification 663, Differential diagnosis 664, Treatment 664, Prevention 669, Special situations 669, Chronic thromboembolism 669, Nonthrombotic pulmonary embolism 670

24. Acute Respiratory Distress Syndrome

— Dhruv Chaudhry, Girish Agrawal

Definition and description 675, Epidemiology 675, Pathogenesis and physiology 676, Management of ALI/ARDS 678, Treatment of ALI/ARDS 680, Adjuncts to mechanical ventilation and salvage therapy 682, Experimental adjuncts to lung protective ventilation 684, Long-term sequel in ARDS 684

25. Lung Cancer

— D Behera

Epidemiology 688

Clinical Features

— JK Saini

Asymptomatic presentation 699, Symptomatic presentation 699, Paraneoplastic syndrome 701

Diagnosis

— Anand Jaiswal, JK Saini, D Behera

Sputum cytology 705, Pleural effusion 705, Fiberoptic bronchoscopy 705, Endobronchial ultrasound (EBUS) 707, Transthoracic needle aspiration (TTNA)/biopsy (TTNB) 708, Thoracotomy-thoracoscopy 708, Positron emission tomography (PET) scan 708, Cytological diagnosis – accuracy 709

Management

— Navneet Singh, D Behera

Chemotherapy

— MM Puri

Radiotherapy

— D Behera

Surgery

— BK Dewan

The staging system 728

26. Pulmonary Neoplasms other than Bronchogenic Carcinoma

— D Behera

Epithelial tumors 735, Carcinoid tumor 735, Lymphomas 738, Pulmonary blastoma 738, Carcinosarcoma 738, Cylindroma (adenoid cystic carcinoma) 739, Mucoepidermoid tumor 740, Sarcomas 740, Eosinophilic granuloma 741, Lymphangioleiomyomatosis (LAM) 742, Metastatic tumors in the lung 742, Pseudotumors 742

27. Smoking and Lung Diseases

— Raj Kumar

Smoking and upper respiratory illness 747
28. Air Pollution and Respiratory Diseases 752
   
   **Raj Kumar**
   Air pollutants: Sources and health hazards 752

29. Essentials of Polysomnography and Recommendations in Adults 756
   
   **Rajnish Gupta, D Behera**
   History of polysomnography 756, Indications of PSG 756, Essentials of PSG 756, Comparison of the past and present PSG recommendations in adults 757

30. Sarcoidosis 766
   
   **PR Mohapatra**
   Epidemiology 766, Etiology 766, Immunopathogenesis 767, Clinical features 768, Diagnosis 770, Pathology 772, Differential diagnosis 774, Treatment 775, Lung transplantation 776, Prognosis 776

31. Lungs in Collagen Vascular Diseases (Connective Tissue Disorders) and Other Systemic Diseases 781
   
   **D Behera**
   Systemic lupus erythematosus 781, Rheumatoid arthritis 788, Progressive systemic sclerosis (PSS)/Systemic sclerosis (SSc) 793, Ankylosing spondylitis 797, Mixed connective tissue disease 798, Sjögren's syndrome (SS) 799, Polymyositis-dermatomyositis (PM-DM) 801, Behçet's syndrome 801, Other diseases 802

32. Vasculitis and the Lungs 803
   
   **D Behera**
   Wegener's granulomatosis (WG) 804, Antineutrophil cytoplasmic antibodies (ANCAS) 806, Churg-Strauss syndrome (CSS) or allergic granulomatosis and angiitis 809, Polycystic kidney disease (PKD) 811, Microscopic polyangiitis (MPA) 814

33. Interstitial Lung Diseases 820
   
   **C Ravindran**
   Classification 820, Genetics of DPLDs 821, Epidemiology 821, Pathogenesis 822, Pathology 822, Clinical features 824

34. Occupational Lung Diseases 834
   
   **Rajesh Solanki**
   Basic principles of occupational and environmental lung disease 834, Clinical approach to the patient 835, Prevention 835, Important occupational lung diseases 836, Diagnostic modalities 837, Complications 838, Prevention 838, Management 838, Asbestos exposure 839, Malignant mesothelioma 840, Lung cancer 841, Efforts at asbestos control 841, Chronic beryllium disease 842, Coal workers' lung diseases 843

35. Hypersensitive Pneumonitis 845
   
   **SN Gaur**
   Radiology 845, Pathogenesis and immunology 846, Farmer's lung disease 848

36. Disorders of the Diaphragm and Chest Wall 853
   
   **Johnson Samuel, Balamugesh T**
   The diaphragm 853, The chest wall 856

37. Congenital Anomalies of the Respiratory System 861
   
   **Manohar Lal Gupta, Shiv Raj Sharma, Sheetu Singh**
   Tracheobronchial anomalies 861, Combined abnormalities of lung parenchyma and pulmonary vasculature 871

38. HIV and the Respiratory Diseases 880
   
   **Upasana Agrawal, Amitab Kuma**
   Pulmonary tuberculosis 881, Other pneumonias 883, Neoplastic complications of HIV disease 884, Antiretroviral therapy as a cause of respiratory disease 885

39. Lung Transplantation 887
   
   **Javaid Ahmed Malik**
   Historical background 887, Types of lung transplantations 887, Recipient selection 888, Donor selection 888, Postoperative management 889, Immunosuppression 890, Rejection 890, Infectious complications 890, Neoplastic complications 891, Summary and future issues of lung transplantation 891

40. Noninvasive Ventilation in Acute Respiratory Failure 894
   
   **Rajesh Chawla**
   Mechanisms of action 894, Hypercapnic respiratory failure 894, Acute hypoxemic respiratory failure 896, Contraindications 898, Predictors of success with noninvasive ventilation 898, Application of noninvasive ventilation 898, Equipment to be used for NIPPV and its maintenance 899, Patient ventilator interface 899, Practical application 899, Monitoring 900, Problems and complications 901, Location of NIPPV 901, Areas where we need research 902

41. Pleural Diseases 906
   
   **Kandala Venu**
   Pleural effusion 906, Tuberculous pleural effusion 917, Parapneumonic effusions and empyema 919, Fungal pleural effusion 923, Pleural effusions in malignancy 926, Primary pleural tumors 935, Hemotherax 941, Pleural effusions secondary to parasitic infections 944, Pleural effusion due to cardiac disease 947, Pleural disease secondary to obstetrics and gynecology 950, Pleural effusion due to collagen vascular disease 954, Drug-induced pleural effusions 960, Thoracoscopy and video-assisted thoracoscopy 962, Intercostal drainage tube or thoracostomy tubes or chest tubes 965

Index 969
