## Contents

### Section 1  GYNECOLOGICAL ENDOSCOPY

1. **Philosophy of Endoscopy in Infertility**  
   *Vivek Salunke, Rajesh V Darade*  
   - Ancient Indian Perspective  
   - History of Endoscopy in Infertility  
   - Endometriosis  
   - Endoscopy in Infertility  
   - Endoscopic Tubal Surgery  
   - Laparoscopic Myomectomy  
   - Endoscopy in Endometriosis

2. **Hysteroscopic Markers of Genital Tuberculosis**  
   *Sunita Tandulwadkar, Bhavana Agarwal Mittal*  
   - The Problem of Tuberculosis  
   - Genital Tuberculosis  
   - Pathogenesis  
   - Endometrial Tuberculosis  
   - Clinical Presentation  
   - Diagnosis  
   - Findings  
   - Recent Advances

3. **Hysteroscopic Intratubal Sterilization**  
   *Hervé Fernandez, Anne-Claire Donnadieu, Claire Basille, Xavier Deffieux, Estelle Feyereisen, Amelie Gervaise*  
   - Instrumentation and Technique  
   - Premedication  
   - Problem Solving and Troubleshooting  
   - Efficacy of Sterilization  
   - X-ray Abdomen

4. **Ovarian Drilling by Transvaginal Fertiloscopy for the Treatment of Polycystic Ovary Syndrome**  
   *Hervé Fernandez, Amélie Gervaise, René Frydman*  
   - Patients  
   - The Procedure

5. **Laparoscopic Ovarian Cauterization: How Many Punctures are Optimal?**  
   *Sandeep Talwar*  
   - Endocrine Changes following LEOS  
   - Ovarian Stromal Blood Flow Changes after LEOS in Women with PCOS  
   - Laparoscopic Ovarian Drilling  
   - Complications of LEOS  
   - Results after Surgery  
   - LEOS versus Gonadotropins  
   - Cost of LEOS versus Gonadotropins  
   - Recent Advances  
   - LASER versus Ovarian Surgery

6. **Laparoscopic Recanalization after Tubal Sterilization**  
   *Alain Audebert*  
   - Reasons for Reversal Demand  
   - Method of Tubal Sterilization  
   - Classical Therapeutic Tools
Laparoscopic Tubal Recanalization 35
Practical Management 36

7. Does Surgery for Endometriosis Improve the ART Outcomes? 38
   Lakshmi Ravikanti, Ved Prakash Singh
   How much do We Know about Endometriosis? 38
   Is the IVF Outcome affected in Endometriosis? 38
   How does Endometriosis affect the Outcome of IVF? 38
   Management Options in Endometriosis-related Infertility 39
   Does Endometrioma affect IVF? 41
   Endometrioma: Excision or Ablation 41
   Prolonged GnRH Agonist Therapy Prior to an IVF Cycle in Endometriosis Patients 41
   Fertility Outcome after Surgery for Grade III / IV Endometriosis in our Practice 41
   Additional Procedures Required and Complications 41
   Keys to a Successful Endometriosis Unit 41

8. Radical Excision of Endometriosis Improves the Fertility Outcome 43
   Nutan Jain, Shweta Goel, Anjali Gupta
   Radical Excision of Grade I Endometriosis 43
   Deep Rectovaginal Endometriosis 45
   Treatment Options 47

   Yuval Kaufman, Arie Lissak

10. Laparoscopic Hysterectomy in the Frozen Pelvis 63
    Paul PG, Tony Thomas, Satyen Kasabwala
    Causes for Frozen Pelvis 63
    Patient Evaluation 63
    Preparation for Surgery 64
    Surgical Technique 64

11. Complications of Laparoscopic Hysterectomy 69
    Edi Vaisbuch, Zion Hagay
    Options of Laparoscopic Hysterectomy 69
    Complications of Laparoscopic Hysterectomy 70
    The Evolution of Laparoscopic Hysterectomy at Kaplan Medical Center 72
    Robot-assisted Laparoscopic Hysterectomy 73

12. Making Hysteroscopic Surgery Safer 75
    Abraham Golan, Shimon Ginath
    History 75
    Hysteroscopic Technique 75
    Clinical Use and Recent Advances 79
    Complications of Hysteroscopy 85

13. Resection of the Uterine Septum or In Vitro Fertilization: What Comes First? 89
    Murat Berkkanoglu, Kemal Ozgur
    Clinical Discussion 89
    Treatment 90
    Indications 90

Section 2 OVARiAN STiMul ATiON PROTOColS

14. Gonadotropin Preparations in Infertility Treatment 95
    Mybodi Karimzadeh, Robab Taheripanah, Sedighe Ghandi, M Eftekhar
    Pituitary Gonadotropins 96
    Human Menopausal Gonadotropin (hMG) 98
    Recombinant Human FSH (rhFSH) Preparation 99
    Is There a Difference in Safety? 100
    Ovarian Induction without IVF 101
    Ovarian Stimulation for IVF 101
    Corifollitropin-alfa 101
    Efficacy 101
    Recombinant Human LH (rhLH) 102
    Human Chorionic Gonadotropin (hCG) 102
    Future Directions 103
15. The Choice of Starting Dose in In Vitro Fertilization 107
   Aygul Demirol, Suleyman Guven
   Follicle Stimulating Hormone and Folliculogenesis 107
   Choice of Gonadotropins for Superovulation 108
   Starting Dose of FSH for COH 108

16. Evaluation and Treatment of the Female Partner before ART 114
   Manisha Takhtani, Akanksha Allahbadia, Gautam N Allahbadia
   Evaluation of the Female Partner 114
   Cervical Factors 116
   Peritoneal Factors 116

17. Aromatase Inhibitors for Ovulation Induction 119
   Mandakini Parihar, Meenakshi Bharath
   Rationale for the Use of Aromatase Inhibitors in Anovulatory Women 119

18. Intrafollicular Consequences of the Use of Aromatase Inhibitors in ART 123
   Maruthini D, Manisha Palep Singh
   Human Aromatase Activity 123
   Aromatase Activity in the Ovaries 123
   Clinical Applications of Aromatase Inhibitors 125
   Aromatase Inhibitors in Ovulatory Infertility/Superovulation 125

19. Addition of Luteinizing Hormone in Controlled Ovarian Stimulation Protocols using Recombinant FSH 128
   Maruthini D, Manisha Palep Singh
   Physiological Role of LH in Folliculogenesis 128
   Gonadotropin Preparations 128
   Use of Gonadotropins in Ovarian Stimulation 129
   LH Threshold and Ceiling Activity 129
   Controlled Ovarian Stimulation Protocols 129
   Addition of LH to rFSH 130
   COH in Polycystic Ovary Syndrome 130

    Kalyani Patel, Gautam N Allahbadia, Akanksha Allahbadia
    Mode of Action 133
    GnRH Antagonists for In Vitro Fertilization 134
    GnRH Antagonists and Pregnancy Outcomes 134
    Need for LH Supplementation 134
    GnRH Antagonists in Poor Responders 135
    Benefits of the Use of GnRH Antagonists for IVF 135

21. Rationale for the Use of Insulin Sensitizing Drugs in Polycystic Ovary Syndrome 138
    Meena Chimote, Natachandra Chimote
    Insulin Sensitizers 138
    Metformin 139
    Thiazolidinediones 139
    α-Glucosidase Inhibitors (Acarbose) 140
    D-Chiro Inositol (DCI) 140
    Herbal Medicine (Hyponidd) Containing Acarbose and DCI 141

22. Does Natural Cycle IVF or Minimal Stimulation have a Role in Clinical Practice Today? 145
    Daniel Humberto Méndez Lozano, René Frydman
    Proposed Approaches 146
    Natural Cycle IVF with Controlled LH Surge Ovulation 147

    Padma Rekha Jirge
    Aims of Monitoring 149
    Monofollicular Ovulation 150
    Ovarian Stimulation for Intrauterine Insemination 150
    Controlled Ovarian Hyperstimulation for IVF/ICSI 150
    Proposed Monitoring of Ovarian Stimulation 150
Section 3  CONTEMPORARY CLINICAL MANAGEMENT

24. Do We Need HSG in the Era of 3D/4D Ultrasonography? 155
   Madhusree Ghosh, Shelly Tse, Kamal Ojha
   Hysterosalpingography (HSG)  156
   Three-dimensional Ultrasonography (3D USG)  156
   Hysterosalpingo-contrast-sonography (HyCoSy)  156
   Three-dimensional Coded Contrast Imaging (3D CCI) During HyCoSy  158
   Laparoscopy  159
   Fertiloscopy  159

25. How to Approach Submucous Myomas in Infertile Women? 161
   Sunita Tandulwadkar, Anil Chittake, Vineeta Kharb
   Impact of Fibroids on Assisted Conception  162
   Preoperative Diagnostic Assessment  162
   Surgical Technique  164
   Postoperative Care and Follow-up  167
   Gynecare Versapoint  167

26. Alternatives to Myomectomy 171
   Roy Mashiach
   Medical Therapy  172
   Myolysis  175

27. Diagnosis of Genital Tuberculosis: Newer Techniques for an Old Disease 181
   Lakhbir Dhaliwal, Shalini Gainder
   Endometrial Biopsy  181
   Laboratory Evaluation  182
   Direct Approach  182
   Serological Diagnosis of Tuberculosis  184
   Indirect Approach  186

28. Management of Polycystic Ovary Syndrome 188
   Kamala Selvaraj, Priya Selvaraj, Deepu Rajkamal Selvaraj
   Menstrual Disturbances/Disorders  188
   Polycystic Ovary Syndrome in Adolescents  188
   Obesity  189
   Hirsutism  189
   Infertility  189
   The Impact of PCOS on ART  190
   Surgical Management  190
   New Trends in PCOS: In vitro Maturation  191

29. Recurrent Endometriosis: Physiopathology, Epidemiology, Prevention and Treatment 192
   Céline Lefebvre Lacoeuille, Catala Laurent, Boussion F, Philippe Descamps
   Physiopathology of Recurrent Endometriosis  192
   Epidemiology of Recurrent Endometriosis  193
   Prevention of Recurrent Endometriosis  198
   Treatment of Recurrent Endometriosis  201

30. Treatment of Deep Rectovaginal Endometriosis 207
   Elizabeth Ball, Charles Koh
   Definition and Topography of Rectovaginal Endometriosis  208
   Clinical Management  212

   Alain Audebert
   Epidemiology of Ovarian Endometriomas  220
   Ovarian Endometriomas and Infertility  220
   Therapeutic Tools  220
   In Vitro Fertilization  223
   Role of Surgery, IVF and Ultrasound-guided Aspiration  224
   Role of Abstention  224

32. Management of Mild to Moderate Endometriosis in the Infertile Patient 227
   Surveen Ghumman
   Assessment of the Disease  227
   Prognostic Factors  227
   Expectant Management  228
   Surgical Treatment of Early Stage Endometriosis  228
   Conservative Surgery  228

Section 5  ASSISTED REPRODUCTIVE TECHNIQUES

39. Luteal Phase Support in Ovarian Stimulation Cycles
   Robab Taheripanah, Mybodi Karimzadeh
   Definition 283
   Physiology 284
   Luteal Support Regimens 285
   Progesterone 285
   Human Chorionic Gonadotropin 286
   Estrogen 287
   GnRH Agonist (GnRH-a) 289
   GnRH Antagonist Stimulated Cycles and the Luteal Phase 289
   Duration of Luteal Phase Support 290

40. Should We Encourage Patients to Try Complementary Therapies as a Means of Improving Well-being and Fertility Success?
   Sandra de la Garza, Carmen Martinez Jover
   The Stress of Infertility: Lack of Control 294
   Addressing Stress and Infertility 294
   Accompanying Program 295

41. Age and ART Success: Where do We Draw the Line?
   Neri Laufer, Avi Tsafrir
   ART Success in Patients Aged 40 and Older 298
   Predictive Factors for ART Success in AMA Patients 299
   How Many Cycles? 299
   When is there no Chance at All? 299
   Where do we Draw the Line? 299

42. Is There an Ideal Luteal Phase Support Protocol in ART?
   Shevach Friedler
   Methods of Luteal Phase Support 301
   hCG Supplementation 302
   Progesterone Supplementation 302
   Mid-luteal Addition of Estradiol 304
   Mid-luteal Addition of hCG in Cycles with Progesterone Supplementation 305
   GnRH Agonist as Luteal Phase Support 305

43. Intracytoplasmic Sperm Injection for All?
   Timur Gurgan, Suleyman Guven, Aygul Demirol
   ICSI versus IVF for Unexplained Total Fertilization Failure after Conventional IVF 311
   ICSI versus IVF for Unexplained Infertility after Failed Insemination 311
   ICSI versus IVF for Male Factor Infertility 312
   ICSI versus IVF for Tubal Factor Infertility 312
   ICSI versus IVF for Poor Responders 313
   ICSI versus IVF in Patients with PCOS 313
   ICSI versus IVF for Patients with Increased Oocyte Immaturity 313
   ICSI for Other Indications 313
   The Effect ICSI versus IVF on Embryo Quality 313
   The Effect ICSI versus IVF on the Obstetric Outcome 314

44. Selection Criteria for Oocyte and Sperm Donors in IVF Programs
   Geetha Haripriya
   Oocyte Donation 316
   Sourcing Oocyte Donors 316
   Counseling 317
   Ideal Oocyte Donors 317
   Screening of Donors 317

Preimplantation Studies: The Techniques 411
Analyzing Methodologies 411
Preimplantation Genetic Diagnosis (PGD) 412
Main Indications for PGD 412
Preimplantation Genetic Screening (PGS) 413
Indications for PGS 413
Technical Problems and Limitations 413

59. Preimplantation Genetic Diagnosis: The Current State of the Art 415

Sulochana Gunasheela
Preimplantation Genetic Diagnosis (PGD) 415
PGD for Group 1 Diseases (Aneuploidy) 416
PGD for Group 2 Diseases 417
The Technique of PCR in PGD 417
Amplification Failure 417
Allele Drop-out 417
Contamination 417
Common Diseases Referred for PCR (Group 2) 418
Results of PGD Conducted by ESHRE Consortium Steering Committee 418
Multiplex PCR 418
Fluorescent PCR 419
PCR for Embryo Selection in IVF 419

Section 8 ART OUTCOME AND BEYOND

60. Can We Improve the IVF Outcome? 423
Mohinder Kochhar
Factors Responsible for Success 423
Improving Embryo Quality 423
Assisted Hatching 424
The Role of the Endometrium 424

61. Does Seasonal Variability Affect ART Outcome? 425
Lata Kamble, Anil Gudi, Amit Shah
Seasonality in Human Reproduction 425
Mediators of the Seasonal Effect on Reproduction 426
Seasonality in Assisted Reproduction 427

62. Natural Killer Cells as Predictors of Successful Implantation 432
Stefan Kostadinov, Surendra Sharma
Peri-implantation Events and Placentation 432
Immune Cells of Decidua 433

63. Medical Treatment with Misoprostol for Early Failure of Pregnancies Conceived Following ART 438
Daniel S Seidman, Micha Baum, David Stockheim, Ronit Machtinger
Medical Treatment 438

64. Management of Recurrent Miscarriages 443
Yadava Bapurao Jeve
Etiology 443
Recurrent Miscarriages and Infertility 446
Investigations 446
Special Investigations for Assisted Reproductive Techniques (ART) 447
Management 448
Tender Loving Care 448
Management of Specific Disorders 449
ART as a Treatment for Recurrent Miscarriages 450

65. Current Concepts in Multifetal Pregnancy Reduction and Selective Termination 453
Alon Shrim, Rivka Peltz, Shlomo Lipitz
Technique 453
Timing 454
Results 454
Special Cases 454
Selective Termination 455
Selective Termination in Dichorionic Diamniotic Twins 455
Selective Termination in Monochorionic Diamniotic Twins 455

66. The Association Between Congenital Malformations and Infertility, Infertility Treatment and ART 457
Jacob Farhi, Benjamin Fisch
The Association Between Congenital Malformations and IVF Treatment 457
The Association Between Various Elements of IVF Treatment and the Risk of Congenital Malformations 458
Intracytoplasmic Sperm Injection (ICSI) and Congenital Malformations 458
Imprinting Disorders and IVF 459
The Association Between Diagnosis of Infertility and the Risk of Congenital Malformations in Non-IVF Conceptions 459
67. Preservation of Ovarian Tissue: Pioneers Close to a New Border? 462
   René Frydman, Antoine Torre
   Iatrogenic Female Infertility and the Failure of Conventional Treatments 462
   Young Women and Anticancer Treatment: Surviving but Sterile 462
   Other Situations and their Fertility Risk 464
   Conventional Solutions for Safeguarding Female Fertility 464
   Newer Methods 464
   Cryopreservation of Ovarian Tissues 464
   The Autograft of Ovarian Strips 464
   Autograft of Whole Ovary 465
   The Cryopreservation of Primordial Follicles 466
   Control of the Metastasis Risk 466

68. Is Aspirin Useful in ART Protocols? 469
   Kaberi Banerjee
   Antithrombotic Effect 469
   Aspirin and IVF 469
   Meta-analysis of the Role of Aspirin in Patients Undergoing IVF-ICSI 470

69. Cytokines and Embryo Implantation 472
   Gérard Chaouat, Fabrice Petit, Mona Rahmati, Marie Petitbarat, Sylvie Dubanchet, Nathalie Ledée
   Implantation Steps 473
   Embryo Signals 473
   Inflammation and Implantation 474
   The Th1/Th2 Cytokine Balance 475
   A Cardinal Role for Uterine Natural Killer (NK) Cells 475
   Angiogenic Cytokines 476
   Other Regulations of Importance 476
   Complement 476
   Microarrays 477

70. Endometrial Cancer and Wish of Pregnancy: Is Conservative Treatment Possible? 482
   Priya Selvaraj, Kamala Selvaraj
   Risk Factors 482
   Other Risk Factors 483
   Symptomatology 483
   Nutrition and Cancer Risk 483
   Screening Procedures 483
   Staging 484
   Prognostic Factors 484
   Fertility Options 485
   Conservative Management 485
   Unresolved Issues 487
   Recent Research 487

Section 9 CURRENT CONCEPTS IN THE TREATMENT OF MALE INFERTILITY

71. Managing Azoospermia 493
   Rajeev Kumar
   Etiologic Causes 494
   Delivery Abnormalities 494
   Evaluation 496
   Therapy 499

72. The Effect of Smoking on Semen Quality in Infertile Men 503
   Mete Isikoglu, Murat Seleker, Kemal Ongen
   Case Studies 504

73. Is there an Ideal Sperm Retrieval Technique? 508
   Rupin Shah, Hemant Bhanudas Nemade, Devendra Patil
   Indications for Sperm Retrieval 508
   Requirements of an Ideal Technique 508
   Sperm Retrieval Techniques 509
   Epididymal Sperm Retrieval—Percutaneous Methods 509
   Ideal Technique 511
74. Why are We Still Ligating Varicoceles?  
Kishore Nadkarni, Dharmesh Kapadia, Purnima Nadkarni

- History  513
- Pathophysiology  513
- Diagnosis  513
- Why do We Need to Ligate a Varicocele in the Era of Assisted Reproduction?  514
- Indications for Surgical Treatment of Varicocele  515
- Surgical Procedures  515
- Technique of Microsurgical Varicocelectomy  516
- Complications of Varicocele Surgery  517
- Results and Cost-effectiveness  517
- Controversial and Debatable Areas  518

75. Is Cryopreserved Retrieved Sperm the Gold Standard for ART?  
Luís Arturo Ruvalcaba Castellón, Martha Isolina García Amador, Jorge Eduardo Montoya Sarmiento, Humberto Aguirre Famanía, Henry Mateo Sanez, Marco Antonio Flores Miranda, Sandra Cubillos Gracia, Silvio Cuneo Pareto

- Case Studies  522
- Methodology of Sperm Cryopreservation  523
- Cryodamage  524

Section 10  ULTRASONOGRAPHY IN INFERTILITY

76. 3D Ultrasound and Infertility: Evaluating the Uterus of the Infertile Patient  
L Gindes, Yaron Zalel

- Ultrasound Acquisition of Data  530
- 3DUS in Gynecologic Pelvic Examination  530
- Intrauterine Device  536
- Endometrial Receptivity  537
- Adenomyosis  538
- Intrauterine Adhesions  539

77. Color Doppler and Prediction of Success in ART  
Anoop Kumar Gupta

- What is Color Doppler Ultrasound?  541
- Ovarian Follicular Dynamics: From Basic Science to Clinical Practice  542
- Ultrasonography as a Predictor of Embryo Implantation after In Vitro Fertilization  542
- Relationship Between Uterine Blood Flow and Endometrial and Subendometrial Blood Flows During Stimulated and Natural Cycles  542
- Endometrial and Subendometrial Perfusion are Impaired in Women with Unexplained Subfertility  542
- The Role of Endometrial and Subendometrial Blood Flows, Measured by Three-Dimensional Power Doppler Ultrasound, in the Prediction of Pregnancy during IVF Treatment  542
- The Role of Ultrasonography in the Evaluation of Endometrial Receptivity Following Assisted Reproductive Treatments: A Critical Review  543
- Endometrial Evaluation in Superovulation Programs: Relationship with Successful Outcome  543
- Doppler Evaluation of the Uterine and Spiral Arteries from Different Sampling Sites and Phases of the Menstrual Cycle during Controlled Ovarian Hyperstimulation  543
- Transvaginal Color Flow Doppler in the Assessment of Ovarian and Uterine Blood Flow in Infertile Women  543
- Endometrial Receptivity in the Light of Modern Assisted Reproductive Techniques  543
- Endometrial Thickness, Morphology, Vascular Penetration and Velocimetry in Predicting Implantation in an In Vitro Fertilization Program  543

78. Uterine Contractility and Ultrasound  
Jude Jose, Anil Gudi, Amit Shah

- Physiology of Uterine Contractions in the Non-pregnant Uterus  545
- Uterine Contractility and Conception  546
- Uterine Contractions and Sperm Transport  546
Uterine Contractility on the Day of Blastocyst Transfer 546
Role of Hormones in Uterine Contractility 547
Assessment of Uterine Contractility 547

Section 11  BATCH IVF

79. Does Batch IVF Compromise the IVF Laboratory? 555
   Jayant G Mehta
   Infection Control and Protective Measures 556
   Consumables 556
   Records and Protocols 557
   Maintenance Calibration and Equipments Monitoring 558
   Staffing Requirements 560
   Air Conditioning System 561

Section 12  MARKETING AND ADVERTISING IN IVF

80. Web Marketing for IVF Clinics 567
   Aniruddha Malpani
   Why You Need a Website? 567
   How Your Website Helps You? 567
   Promoting Your Website—An Ongoing Effort 568

81. Role of Mass Media in Marketing Your IVF Center 570
   Jayant G Mehta
   Types and Functions of Mass Media 570
   Types of Media that can be Employed in Marketing your IVF Clinic 571
   Composing Effective Messages for Specific Channels 573
   Understanding How to Interact with Media 574
   The Relationship of Mass Media to Other Forms of Communication 574

82. Cross-border Reproductive Care: A Worldwide Phenomenon 576
   Daniel S Seidman, Guy Israel Seidman
   The Increase in Reproductive Tourism 577
   Reasons for International Travel for IVF Treatment 577
   Is IVF Tourism a Good or a Bad Phenomenon? 580

Section 13  ART REGULATION

83. Is there a Worldwide Need for ART Regulatory Guidelines? 585
   Jyothi Pillai, Kamini A Rao
   Ethical Issues 585
   Legal Status of Embryo 586
   Presence of National Guidelines 586
   Absence of Guidelines 586

84. Ethical Issues in Gamete Donation and Surrogacy 587
   RS Sharma
   Surrogacy 589
   Possible Misuse of ART—Sale of Embryos and Stem Cells 590
   Rights of a Child Born Through Various ART Techniques 590

85. Accreditation and Supervision of ART Clinics: Worldwide Trends 592
   Kulvinder Kochhar Kaur, Gautam N Allahbadia
   Initial History of IVF 592
   Accreditation 593
   Accreditation in India and the Subcontinent 593
   In USA 594
   Professional Accomplishments that have Enhanced Oversight of ART 594
   Professional Society Guidelines and Practice 594
   Professional Society Ethical Guidelines 594
   In Canada 596
   Monitoring Reproductive Health in Europe 596
   Role of ESHRE 596
   In UK 597
   In Sweden 597
   In Australia 598
   Egg Sharing (PROS and CONS) 598
86. The Uterus in Third Party Reproduction: Medicolegal Status and Ethical Concerns 601

Nikhil D Datar

What is Surrogacy? 601
Is Surrogacy Recognized in India? 601
Is Commercial Surrogacy Unethical? 602
Does the Surrogacy Contract Infringe upon the Right to Life and Liberty? 602
Right to Abort 602
Does the Child have the Right to Find his/her Genetic Parents? 603
Custody of the Child 603
Unresolved Issues 603
Complicating Issues Further 604

Section 14 THE FUTURE OF ART

87. Anti-Müllerian Hormone: Insights into a Novel Biomarker of the Ovarian Follicular Status 607

Michael Grynberg, Estelle Feyereisen, C Ferretti, René Frydman, Renato Fanchin

Serum Amh Concentration is a Marker of the Ovarian Follicular Status 608

Serum AMH: A Reproductive Intercycle Measurement 608
Dynamics of Serum AMH Concentrations During the Menstrual Cycle and the Final Follicle Maturation and Luteinization 609

88. In Vitro Maturation of Oocyte: Will it Ever Replace the Traditional IVF Program? 613

Sulochana Gunasheela

What are the Strategies Available to Prevent OHSS Today? 615

89. Stem Cell Therapeutic Potential: Miles to go Before We Sleep 619

Jayant G Mehta

Cell Therapy and Regenerative Medicine 619
Screening of Donor Sources 620
Setting Standards for Cultured Human Stem Cell Lines 620
Culturing without a Feeder Layer of Animal Cells Improve Safety 621
Importance of Detailed Characterization of Human Stem Cell Populations 621
Assessment of Human Stem Cell Safety in Animal Models of Human Diseases 622

Index 625
