Contents

Section 1: IVF Simplified

1. Ovum Pick-up 3
   S Shamila
   • Egg retrieval process 3
   • What happens in the Lab After the Eggs are Aspirated? 8

2. Embryo Transfer 12
   Gautam N Allahbadia, Rubina Merchant, Goral Gandhi
   • Clinical Discussion 14
   • Recent Advances 30

3. Media and Quality Control in IVF Laboratory 36
   Jayant G Mehta
   • Quality Control 37
   • Quality Assurance 39
   • Quality Improvement (Quality Audit) 40
   • Internal Quality Control 40
   • Quality Management System 40
   • ART Laboratory 40

4. Sperm Preparation for In Vitro Fertilization and Intracytoplasmic Sperm Injection 65
   Kuldeep Jain
   • Method 66

5. Sperm Retrieval Techniques (PESA, TESA, MESA, MICRO-TESE, TESE) 72
   RK Sharma
   • Etiopathogenesis of Azoospermia 72
   • Diagnosis 73
   • Management 74

6. Surgically Retrieved Sperm Samples for ICSI 81
   Ethiraj Balaji Prasath
   • Background 81
7. **Intracytoplasmic Morphologically Selected Sperm Injection** 90
   
   *Rajvi H Mehta*
   
   - Selection of Sperms—Natural Conception and Art 91
   - Sperm Morphology and Pregnancy Outcome 91
   - Vacuoles—DNA Fragmentation and Abnormal Chromatin Packaging 92
   - Abnormal DNA Packaging and its Impact on Fertilization, Embryonic Development and Pregnancy 93
   - Selection of sperms for ICSI 94
   - Steps for IMSI 95
   - Preparation of IMSI Dish 95

8. **Vitrification** 103
   
   *Gaurav Majumdar*
   
   - Principle of Vitrification 104
   - Various Factors Determine Ultimate Survival 105
   - Cryoprotectants 106
   - Vitrification Carrier Devices 107
   - Vitrification—Closed Systems 110
   - Elements of a Typical Vitrification Procedure 111

9. **Ovarian Cortex Freezing** 114
   
   *Pankaj Talwar*
   
   - Introduction 114
   - Indications for Ovarian Cryopreservation 117
   - Assessment of Ovarian Reserve 119
   - Current Techniques of Fertility Preservation 120
   - Ovarian cortex Cryopreservation 121
   - Limitations for Ovarian Tissue Cryopreservation 122
   - Collection of Ovarian Tissue 123
   - Cryoprotectant Preparation 123
   - Tissue Preparation 126
• Histological Analysis  130
• Steps of Ovarian Cortex Freezing  130
• Peculiarities of Ovarian Tissue Freezing  137
• Methods of Thawing  137
• Transplant  139
• Ethical Concerns in Ovarian Tissue Cryopreservation  139

10. **Preimplantation Genetic Diagnosis: An Emergent Technology**  143

  *Shailaja Gada Saxena, Prabhat Ranjan*

  • Indications for Preimplantation Genetic Diagnosis  144
  • Preimplantation Genetic Diagnosis—Historical Perspective  144
  • Steps Involved in Preimplantation Genetic Diagnosis  145
  • Evolution of PGD for Aneuploidies, Structural Chromosomal Rearrangements and Preimplantation Genetic Screening  150
  • Evolution of Preimplantation Genetic Diagnosis for Monogenic Disorders  152
  • Preimplantation Genetic Diagnosis for Human Leukocyte Antigen Matching: Saviour Sibling  153
  • Preimplantation Genetic Diagnosis for Cancer Predisposition  154
  • Preimplantation Genetic Diagnosis—Current Global Status  154
  • Preimplantation Genetic Diagnosis—An Indian Perspective  156
  • Challenges Faced with Preimplantation Genetic Diagnosis  157
  • Ethical Legal and Social Issues  158
  • Conclusion  159

11. **Assisted Hatching**  166

  *Natachandra Chimote, Nishad Chimote*

  • Background  166
  • General Principles for AH  168
  • Excessive Fragmentation  169
  • Poor Embryo Growth Rate/Morphology  172
  • Assisted Hatching using Acidic Tyrode's Solution  174
12. Overview of Cryobiology in Assisted Reproductive Technology  182

Pankaj Talwar

- Basic Definitions  183
- Thermodynamics  184
- Physics  184
- Concept of Latent Heat  185
- Biology of Cryofreezing  186
- Cryoprotectants  187
- Principles of Cryobiology  188
- Steps of Cryopreservation  189
- Events During Freezing  193
- Freeze Injuries  193
- Events During Thawing  194
- Thaw Injuries  194

13. Simplifying IVF Program: Satellite Module  197

Kuldeep Jain

14. Fertility Preservation in Female Cancer Patients  199

Pankaj Talwar

- Indications of Offering Fertility Preservation  200
- Vulnerability of the Reproductive System to Cancer Treatment  201
- Mode of Action of Gonadotoxic Agents  201
- Assessment of Ovarian Reserve  203
- Fertility Preservation Options  203
- Ethical Concerns in Ovarian Tissue Cryopreservation  213
- Novel Options of Fertility Preservation  213

15. ICSI—an Introduction  218

Ethiraj Balaji Prasath

- Instrumentation for ICSI  219
- Microtools  222
- Preparation of Culture Dishes  223
- Set-up of Dishes  224
- Sperm Preparation  225
- Denuding of Oocytes for ICSI  226
- Setting-up Microscope  228
- Narishige  228

- Research Instruments 229
- Eppendorf 229
- Sperm Injection 230
- Special Circumstances of Applying ICSI 231
- Rescue ICSI 233
- Fertilization in ICSI 233
- Personal Care of ICSI Practitioner 234

16. Guidelines and Legislation on Assisted Reproduction Technology in India 236
RS Sharma

Section 2: Essential Protocols in ART

1. Sperm Freezing 255
   Pankaj Talwar, Kuldeep Jain

2. Embryo Transfer 259
   Sonia Malik
   - Disposables and Equipment Required 259
   - Reagents 259
   - Embryo Transfer—Procedure 259

3. Intracytoplasmic Sperm Injection Protocols 263
   Rishma D Pai, Nandita P Palshetkar, Hrishikesh D Pai
   - Intracytoplasmic Sperm Injection Media and Pipettes 263
   - Preparation of Intracytoplasmic Sperm Injection Dishes 264
   - Denudation 265
   - Manipulation of Spermatozoa 266
   - Manipulation of Oocytes 267
   - Microinjection of Oocytes with Mature Spermatozoa 269

4. Oocyte Cryopreservation 271
   Jaideep Malhotra, Narendra Malhotra
   - Oocyte Cryopreservation—Slow Cooling 271
   - Oocyte Cryopreservation—Vitrification 274
   - Oocyte warming protocol 277
5. Testicular Biopsy Banking 278
   Jaideep Malhotra, Narendra Malhotra, Pankaj Talwar
   • Technique for Cryopreservation of Testicular Sperm 278

6. Ovum Pick-up 281
   Sohani Verma
   • Equipment Required 281
   • Reagents Required 281
   • Procedure: OPU Step-by-Step 281

7. Follicular Trekking and Use of Color Doppler in ART Cycles 284
   Bharti Jain
   Equipment Required 284

Index 289
