# Contents

## Section 1: General Aspects

1. **Transvaginal Probe: Technical Aspect**  
   Kazunori Baba  
   - Convex Probes 3  
   - Mechanical Sector Probes 3  
   - Three-dimensional Transvaginal Probes 4  
   - Accessories of a Transvaginal Probe 5

2. **Basis of Transvaginal Scanning**  
   Kazunori Baba  
   - Preparing the Patient and the Probe 7  
   - Probe Insertion and Rotation 7  
   - Basic Techniques in Transvaginal Scanning 8

3. **Ultrasound Safety in Transvaginal Scan**  
   Kazuo Maeda  
   - Ultrasonic Bioeffect 13  
   - Ultrasonic Safety in B-Mode 14  
   - Safety of Doppler Ultrasound (WFUMB Safety Statement on Doppler Ultrasound in Pregnancy) 15  
   - Safety of 3D Transvaginal Ultrasound 15  
   - Safety of 4D Transvaginal Ultrasound 15  
   - Nonmedical Use of Diagnostic Ultrasound 15

4. **Ultrasonic Tissue Characterization with Gray Level Histogram Width**  
   Kazuo Maeda, Masaji Utsu, Nobuhiro Yamamoto, Mariko Serizawa, Takashi Ito  
   - Methods 17  
   - Technical Results 18  
   - Clinical Results 18

5. **Transrectal Sonography**  
   Maher G Sarraf, Muna T Al-Abdulla, Omar A Al-Omari  
   - Probes, Planes, and Orientation 21  
   - Indications of Transrectal Sonography 22  
   - Safety and Contraindications 26  
   - Technique and Preparation 26

## Section 2: Obstetrics

6. **Fetal Anatomy on the First Trimester of Pregnancy**  
   Aris Antsaklis, A Souka  
   - Normal First Trimester Fetus 31  
   - Fetal Anatomy at 11–14 Weeks 33  
   - Studies Screening for Structural Defects by First Trimester Ultrasound 36  
   - Structural Defects at 11–14 Weeks 37

7. **Ultrasound Imaging of Early Extraembryonic Structures**  
   Tibor Fekete, Zoltan Papp  
   - Gestational Sac 46  
   - Blighted Ovum 46  
   - Chorionic Plate 47  
   - Yolk Sac 48
