1. Introduction

2. Pathophysiology of Adverse Drug Reactions

3. List of Drugs and Adverse Reactions

   - Drugs causing abdominal distension
   - Drugs causing abdominal pain
   - Drugs causing abnormal dreams
   - Drugs causing abnormal gait
   - Drugs causing acid rebound
   - Drugs causing acidosis
   - Drugs causing acneiform
   - Drugs causing activation of peptic ulcer
   - Drugs causing acute dystonia
   - Drugs causing acute interstitial nephritis
   - Drugs causing Addison’s disease
   - Drugs causing aggression
   - Drugs causing agitation
   - Drugs causing agranulocytosis
   - Drugs causing akathisia (inability to sit still with motor restlessness)
   - Drugs causing alcohol intolerance
   - Drugs causing alkalosis
   - Drugs causing alopecia
   - Drugs causing altered behavior
   - Drugs causing altered taste
   - Drugs causing alveolitis
   - Drugs causing amblyopia
Drugs causing amenorrhea  22
Drugs causing amnesia  23
Drugs causing anal ulcers  23
Drugs causing anaphylaxis  23
Drugs causing anemia  24
Drugs causing angina  25
Drugs causing angioneurotic edema/urticaria erysipelas like  25
Drugs causing anorexia/loss of appetite  27
Drugs causing antimuscarine effects  28
Drugs causing anxiety  28
Drugs causing anuria  29
Drugs causing apathy  29
Drugs causing aplastic anemia  29
Drugs causing apnea  30
Drugs causing arachnoiditis  30
Drugs causing arrhythmias/dysrhythmias  30
Drugs causing arthralgia  31
Drugs causing ascites  32
Drugs causing asthenia  32
Drugs causing ataxia  33
Drugs causing atrial fibrillation  33
Drugs causing atrioventricular block  33
Drugs causing azoospermia/oligospermia  34
Drugs causing back pain  34
Drugs causing blackening of stools/melena  34
Drugs causing blackening of tongue  34
Drugs causing blindness  35
Drugs causing blood dyscrasias  35
Drugs causing blue-green sclera 36
Drugs causing blue-gray skin 36
Drugs causing blurred vision 36
Drugs causing body fat redistribution 37
Drugs causing bone pain 37
Drugs causing bone marrow depression 37
Drugs causing bradycardia 38
Drugs causing break through menstrual bleeding/spotting 39
Drugs causing breast enlargement 39
Drugs causing breast tenderness 39
Drugs causing breathlessness 39
Drugs causing bronchospasm 39
Drugs causing brownish discoloration of urine 40
Drugs causing bruising 40
Drugs causing burning in lips, mouth, and throat 40
Drugs causing burning sensation in urethra and vagina 40
Drugs causing candidiasis 40
Drugs causing cancer 41
Drugs causing cardiac arrest 41
Drugs causing cardiac failure 41
Drugs causing cardiotoxicity 41
Drugs causing cardiovascular accidents 41
Drugs causing cataract 42
Drugs causing cerebellar dysfunction 42
Drugs causing cheilitis 42
Drugs causing chest pain (noncardiac) 42
Drugs causing chest tightness 43
Drugs causing chills 43
Drugs causing chocking sensation  43
Drugs causing choledolithiasis  43
Drugs causing cholestatic jaundice/jaundice  43
Drugs causing choreiform movements  44
Drugs causing Churg strauss syndrome  44
Drugs causing cinconism  45
Drugs causing clitoral hypertrophy  45
Drugs causing clonic and tonic movements  45
Drugs causing CNS depression  45
Drugs causing CNS stimulation  45
Drugs causing coarsening of facial features  45
Drugs causing cognitive problems  45
Drugs causing cold extremities  46
Drugs causing cold sensation  46
Drugs causing colitis  46
Drugs causing collapse  46
Drugs causing color blindness  46
Drugs causing coma  46
Drugs causing confusion  46
Drugs causing conjuctivitis  48
Drugs causing constipation  48
Drugs causing Coombs’ test positive  49
Drugs causing constriction of coronary arteries  50
Drugs causing convulsions/seizures  50
Drugs causing corneal edema  51
Drugs causing corneal opacity  51
Drugs causing cough  51
Drugs causing cracking and bleeding lips  51
Drugs causing cramps  52
Drugs causing crystalluria  52
Drugs causing Cushing’s syndrome  52
Drugs causing cutaneous manifestations/skin lesions  52
Drugs causing acneiform and pustular  52
Drugs causing eczematous lesions  53
Drugs causing erythema  53
Drugs causing erythema multiforme  53
Drugs causing erythema nodosum  54
Drugs causing exanthematic (scarlatiniform, morbilliform)  54
Drugs causing exfoliative erythroderma  54
Drugs causing fixed drug reaction  55
Drugs causing itching/pruritus lichenoid and lichen planus-like  55
Drugs causing erythematous like lesions  55
Drugs causing pemphigus-like lesions  56
Drugs causing photosensitivity  56
Drugs causing pityriasis rosea-like  56
Drugs causing pigmentary changes  56
Drugs causing purpura/purpuric spots  56
Drugs causing Steven Johnson syndrome  57
Drugs causing toxic epidermal necrolysis (TEN)/vesicobullous  57
Drugs causing dark urine  58
Drugs causing day dreaming  58
Drugs causing deafness  58
Drugs causing decreased appetite  58
Drugs causing decreased intraocular pressure  58
Drugs causing decreased libido  58
Drugs causing deepening of voice in women  59
Drugs causing dehydration  59
Drugs causing delayed ejaculation  59
Drugs causing delayed wound healing  59
Drugs causing delirium  59
Drugs causing delusion  59
Drugs causing dementia  60
Drugs causing demyelination  60
Drugs causing dental pain  60
Drugs causing depigmentation/hypopigmentation  60
Drugs causing depression  60
Drugs causing dermatitis  61
Drugs causing diarrhea  62
Drugs causing diabetes insipidus  65
Drugs causing difficulty in micturition  65
Drugs causing diplopia  66
Drugs causing discoloration of nails  66
Drugs causing disorientation  66
Drugs causing disturbance in eye accommodation  66
Drugs causing dizziness/giddiness  66
Drugs causing drowsiness  70
Drugs causing drug dependence  72
Drugs causing drug fever  72
Drugs causing drunken feeling  72
Drugs causing dry eyes  72
Drugs causing dryness of mouth  72
Drugs causing dry skin  74
Drugs causing dryness of vagina  74
Drugs causing dysarthria  74

Drugs causing electrolyte disturbance  81
Drugs causing emotional lability/mood swings  81
Drugs causing enamel dysplasia  81
Drugs causing encephalopathy  81
Drugs causing enuresis  82
Drugs causing eosinophilia  82
Drugs causing eosinophilia myalgia syndrome  82
Drugs causing epigastric distress  82
Drugs causing epilepsy  84
Drugs causing epistaxis  84
Drugs causing erectile disorder  84
Drugs causing esophageal ulceration  84
Drugs causing esophagitis  84
Drugs causing euphoria  85
Drugs causing exacerbation of Parkinson’s disease  85
Drugs causing excitement  85
Drugs causing exfoliation  85
Drugs causing exophthalmos  85
Drugs causing extrapyramidal reactions  85
Drugs causing extrasystole  86
Drugs causing eye pain  86
Drugs causing facial spasm  86
Drugs causing fainting  86
Drugs causing Fanconi’s syndrome  86
Drugs causing fatigue/tiredness  86
Drugs causing fatty stools  88
Drugs causing fecal urgency  88
Drugs causing feeling of detachment  88
Contents

Drugs causing feminization in males 88
Drugs causing fetal distress 88
Drugs causing fetal tachycardia 89
Drugs causing fever 89
Drugs causing fibrosing alveolitis 90
Drugs causing first degree heart block 90
Drugs causing flatulence 91
Drugs causing flu-like syndrome 91
Drugs causing flushes 92
Drugs causing fractures 93
Drugs causing fragile skin 93
Drugs causing frontal headache 93
Drugs causing furred tongue 93
Drugs causing galactorrhea 93
Drugs causing gangrene 93
Drugs causing gastric bleeding 94
Drugs causing gastric ulceration 94
Drugs causing gastrointestinal bleeding 94
Drugs causing gastrointestinal disturbances 94
Drugs causing genital moniliasis 96
Drugs causing genital pruritus 96
Drugs causing giddiness/dizziness 96
Drugs causing gingival hyperplasia/hyperemia of gums 96
Drugs causing glaucoma 96
Drugs causing glossitis 97
Drugs causing glycosuria 97
Drugs causing goiter 97
Drugs causing good Pasteur’s syndrome 97
Drugs causing graying of hair  97
Drugs causing granulocytopenia  97
Drugs causing growth retardation  97
Drugs causing gynecomastia  98
Drugs causing hallucinations  98
Drugs causing hand foot syndrome  99
Drugs causing harm to breastfeed  99
Drugs causing harm to fetus  102
Drugs causing headache  105
Drugs causing heart burns  110
Drugs causing heat intolerance  110
Drugs causing hematuria  110
Drugs causing hemolysis/hemolytic anemia  110
Drugs causing hemolytic uremic syndrome  111
Drugs causing hemoptysis  111
Drugs causing hemorrhagic cystitis  111
Drugs causing hepatocellular carcinoma  111
Drugs causing hepatomegaly  112
Drugs causing hepatotoxicity  112
Drugs causing herpes simplex  113
Drugs causing hiccups  113
Drugs causing hirsutism  113
Drugs causing hoarseness of voice  114
Drugs causing vincristine hostility  114
Drugs causing hot flashes  114
Drugs causing hyperammonemic encephalopathy  114
Drugs causing hypercalcemia  114
Drugs causing hyperglycemia  114
Drugs causing impaired hearing 122
Drugs causing impaired higher intellectual functions 122
Drugs causing impaired memory 122
Drugs causing impaired speech 123
Drugs causing impotence 123
Drugs causing incontinence 123
Drugs causing incoordination 124
Drugs causing increased alanine aminotransferase 124
Drugs causing increased alkaline phosphatase 124
Drugs causing increased appetite 124
Drugs causing increased bilirubin/hyperbilirubinemia 124
Drugs causing increased blood urea/azotemia 125
Drugs causing increased body weight/weight gain 125
Drugs causing increased bronchial secretions 125
Drugs causing increased cholestatic contractility 125
Drugs causing increased cholesterol 125
Drugs causing increased defecation 125
Increased hepatic enzymes 125
Drugs causing increased libido 126
Drugs causing increased intraocular tension 126
Drugs causing increased prothrombin time 127
Drugs causing increased transaminase 127
Drugs causing increased serum creatinine 127
Drugs causing increased susceptibility to infections 127
Drugs causing increased uterine contractility 127
Drugs causing increased transaminase 127
Drugs causing increased triglycerides 127
Drugs causing insomnia 127
Drugs causing interstitial nephritis 129
Drugs causing interstitial pneumonia 129
Drugs causing intestinal obstruction 129
Drugs causing intolerance 129
Drugs causing intraperitoneal hemorrhage 130
Drugs causing involuntary movements 130
Drugs causing irregular menstrual cycles 130
Drugs causing irritability 130
Drugs causing ischemic cardiac changes 130
Drugs causing itching/pruritus 131
Drugs causing Jarisch-Herxheimer reaction 132
Drugs causing jaundice/cholestatic jaundice 132
Drugs causing jaw pain 132
Drugs causing kernicterus 132
Drugs causing ketoacidosis 133
Drugs causing lacrimation 133
Drugs causing laryngospasm 133
Drugs causing lens opacity 133
Drugs causing lethargy 133
Drugs causing leucocytosis 134
Drugs causing leukoencephalopathy 134
Drugs causing leukopenia 134
Drugs causing leukemia 135
Drugs causing light headedness 135
Drugs causing lipoatrophy 136
Drugs causing lipodystrophy 136
Drugs causing loss of concentration 136
Drugs causing loss of coordination 136
Drugs causing loss of consciousness 136
Drugs causing loss of deep tendon reflexes 136
Drugs causing loss of memory 136
Drugs causing lowered threshold for seizures 136
Drugs causing Lyell's syndrome 136
Drugs causing lymphadenopathy 137
Drugs causing lymphocytopenia 137
Drugs causing malaise 137
Drugs causing malignant hyperthermia 137
Drugs causing malignant liver disease 137
Drugs causing mania 138
Drugs causing megaloblastic anemia 138
Drugs causing menorrhagia 138
Drugs causing menstrual disorders 138
Drugs causing metallic taste 139
Drugs causing metastasis 139
Drugs causing methemoglobinemia 139
Drugs causing migraine 139
Drugs causing milk-alkali syndrome 139
Drugs causing miosis 140
Drugs causing motion sickness 140
Drugs causing mouth ulcers/oral ulcers 140
Drugs causing mucositis 140
Drugs causing multiple pregnancies 140
Drugs causing muscle atrophy (after prolonged use) 140
Drugs causing muscle cramps 140
Drugs causing muscle rigidity 141
Drugs causing muscle weakness/myasthenia 141
Drugs causing myalgia 141
Drugs causing myasthenia like syndrome 142
Drugs causing myocardial infarction 142
Drugs causing mydriasis/pupillary dilatation 142
Drugs causing myocarditis 143
Drugs causing myoclonus 143
Drugs causing myoglobinemia 143
Drugs causing myoglobinuria 143
Drugs causing myopathy 143
Drugs causing myositis 143
Drugs causing myositis ossificans 144
Drugs causing nasal congestion 144
Drugs causing nasal dryness 144
Drugs causing nausea 144
Drugs causing necrosis of soft tissues and bones 150
Drugs causing neonatal/fetal jaundice 150
Drugs causing nephrotic syndrome 150
Drugs causing nephrotoxicity 150
Drugs causing nervousness 151
Drugs causing neuroleptic malignant syndrome 151
Drugs causing neuromuscular blockade 152
Drugs causing neuropathy 152
Drugs causing neutropenia 152
Drugs causing nightmares 153
Drugs causing night sweats 153
Drugs causing nocturia 153
Drugs causing nonurticarial rashes 153
Drugs causing numbness 154
Drugs causing nystagmus 154
Drugs causing obesity 154
Drugs causing ocular hemorrhage/ischemia 154
Drugs causing oculomotor syndrome 154
Drugs causing esophagitis 154
Drugs causing oily skin 154
Drugs causing oligospermia/azoospermia 155
Drugs causing oliguria 155
Drugs causing onycholysis 155
Drugs causing optic neuritis/atrophy 155
Drugs causing oral candidiasis 155
Drugs causing osteomalacia 155
Drugs causing osteoporosis 156
Drugs causing ototoxicity 156
Drugs causing ovarian enlargement 156
Drugs causing pallor 156
Drugs causing palpitation 156
Drugs causing pancreatitis 157
Drugs causing papilledema 158
Drugs causing paresthesia 158
Drugs causing paralysis 159
Drugs causing paralysis of respiratory muscles 159
Drugs causing paralytic ileus 159
Drugs causing paronychia 159
Drugs causing penile erection (frequent or persistent) 159
Drugs causing peptic ulcer (including perforation) 159
Drugs causing periodontitis 159
Drugs causing peripheral neuritis 160
Drugs causing Peyronie’s disease 160
Drugs causing pharyngitis 160
Drugs causing phlebitis 160
Drugs causing photophobia 161
Drugs causing photosensitivity 161
Drugs causing pigmentary changes 161
Drugs causing pleural effusion 161
Drugs causing pneumonitis 162
Drugs causing pneumothorax 162
Drugs causing polydipsia 162
Drugs causing polyuria 162
Drugs causing porphyria 162
Drugs causing postmenopausal bleeding 162
Drugs causing precipitation of diabetes 162
Drugs causing precocious puberty 162
Drugs causing premature epiphyseal closure 162
Drugs causing premature menopause 163
Drugs causing priapism 163
Drugs causing proctitis 163
Drugs causing prolonged bleeding time 163
Drugs causing prostatic enlargement 163
Drugs causing proteinuria 163
Drugs causing pruritus 163
Drugs causing pseudomembranous colitis 164
Drugs causing pseudotumor cerebri/raised intracranial tension 164
Drugs causing psychosis 164
Drugs causing ptosis 165
Drugs causing pulmonary edema 165
Drugs causing pulmonary embolism 165
Drugs causing pulmonary fibrosis 165
Drugs causing pupillary dilatation/mydriasis 165
Drugs causing purpura 165
Drugs causing pyridoxine deficiency 166
Drugs causing rash 166
Drugs causing Raynaud’s phenomenon 170
Drugs causing Rectal hemorrhage 170
Drugs causing rectal pain 170
Drugs causing red colored tears 170
Drugs causing Redman syndrome 170
Drugs causing red urine (not hematuria) 170
Drugs causing reduced lacrimation 170
Drugs causing reduced sweating 171
Drugs causing reduction in breast size 171
Drugs causing renal calculi 171
Drugs causing renal toxicity/damage 171
Drugs causing respiratory depression 171
Drugs causing restlessness 172
Drugs causing retention of urine/urinary retention 172
Drugs causing reticulocytosis 172
Drugs causing retinal damage 173
Drugs causing retinal depigmentation 173
Drugs causing retrobulbar neuritis 173
Drugs causing Reye’s syndrome 173
Drugs causing rhabdomyolysis 173
Drugs causing rhinitis 173
Drugs causing rigors/shivering 174
