SECTION I: Emergency Medical Services in Various Countries

1. Emergency Medical Services in Germany
   Alex Lechleuthner
   • EMS Evolution in Germany 4

2. Emergency Medical Services in Singapore
   Marcus Ong
   • The Beginning 7
   • Current Situation 7
   • Ambulance Personnel and Equipment 9
   • Prehospital Emergency Care—Five Year Plan (2009–2014) 10

3. Emergency Medical Services System in Japan
   Tetsuya Sakamoto
   • EMS in Numbers 13
   • EMS and Medical Care Cost 14
   • Etiology of Patients 14
   • Cardiac Arrest 15

4. Emergency Medical Services in Ireland
   Jason van der Velde
   • EMS in Ireland 17
   • Standards of Care 19

5. Emergency Medical Services in Italy
   Antonio Ciardella
   • Present Scenario 20
   • EMS Staffing 20
   • Ambulance 20
   • Equipment 21

6. Emergency Medical Care System in Romania
   Raed Arafat
   • Present System 24
   • Challenges 25

7. Korean Model of Financing Emergency Care
   Kyungwon Lee
   • Emergency Medical Services System (EMSS) in Korea—Hospital Phase 28
   • EMSS in Korea—Prehospital Phase 28
Emergency Medical Service Systems

- EMSS in Korea—Interhospital Transfer  29
- Communication and Information  29
- Management and Evaluation  29
- Financing  29

8. **Disaster Management, Emergency Response and Medical Preparedness: Indian Scenario**  31
   
   **Muzaffar Ahmad**
   - India’s Vulnerability to Disasters  31
   - Disaster Management Act  31
   - Power and Functions of the NDMA  32
   - Role of Central Ministries and Departments  32
   - Mass Casualty Event  33
   - National Guidelines on Medical Preparedness and Mass Casualty Management  33
   - Incident Response System  33
   - National Disaster Response Force (NDRF)  33
   - Specialized Medical Facilities  36
   - Capacity Development  36
   - Emergency Management Exercise (EMEx)  36

9. **Evolution of Prehospital Emergency Services in India—What Took a Century in Europe can be Achieved in India in Ten Years**  37
   
   **Kenneth Kronohage**
   - Ambulance  39
   - History  39
   - Chain of Emergency Medical Care—Call and Dispatch  39
   - Prehospital Pyramid Model for India  40

10. **Medical Preparedness for Chemical, Biological, Radiological and Nuclear Emergencies in India**  41
    
    **Maj Gen J K Bansal**
    - Scenario  41
    - Bioterrorism  41
    - Chemical Agents  42
    - CBRN Management  43
    - Medical Preparedness for CBRN  43

**SECTION II: Planning and Design**

11. **Essential Components of an Emergency Medical Services System**  47
    
    **Peter P Tailloc**
    - Components of EMS Call  47
    - EMS System in the United States  48

12. **Invention and Innovation in Emergency Medical and Trauma Services**  51
    
    **Hafiz Syarbaini Mansor**
    - Creativity Culture  51
    - Invention  51
• Innovation 51
• Extrinsic Motivation 51
• Intrinsic Motivation 51
• Invention and Innovation in Emergency Medical and Trauma Services (EMTS) Malaysia 52
• The Structure and Design 53
• Hardware and Equipment 54

13. Community-Based Emergency Care 56
V Anantharaman
• Community Health Clinics 57
• District Hospitals 57
• Tertiary Hospitals 57
• Emergency Department Overcrowding 58
• Integrated Approach 58

14. Successful Systems of Trauma Care: Key Ingredients and Lessons Learned from Around the World 60
Russell L Gruen
• Trauma 60
• Key Features of a Trauma System 60
• Victorian Road Trauma Committee 61

15. Structure and Management of Trauma Patients at the Military Hospital, Ulm 63
Major Florent Josse
• Improvement 63
• Management Algorithm of Trauma 64

16. Accelerating Care: Moving Care to the Emergency Department Front Door 67
Manuel Hernandez
• Importance of the Emergency Department’s Front Door 67
• Understanding the Current State 68

17. Emergency Medical Services Preparedness for Mass Gatherings 71
Michael Thralls
• Mass Gatherings 72
• Planning 73
• Factors to Consider 74

18. ‘Roadside to Critical Care’—A Continuum of Care 76
Mark Forrest
• Principles in Management 76
• Continuum of Care 76
• The ‘ATACC’ Course 77
• BTACC—Basic Trauma and Casualty Care 77
19. **Telemedicine System in Emergency Care in Romania**  
*Raed Arafat*
- Emergency Medical Services Performance Indicators  79
- Legislation  79
- Hospitals  79
- ST Elevation Myocardial Infarction (STEMI) Program  81

20. **Telemedicine and Field-Triage of Patients with STEMI for Primary PCI: Impact on Outcome**  
*Christian Juhl Terkelsen*
- Telemedicine  82
- Percutaneous Coronary Intervention (PCI)  82
- Impact on Outcome  84

21. **Information, Communication and Technologies in Emergency Care**  
*Vino Ramayah*
- Emergency Medical Services—Indian Scenario  88
- Advantages of Information, Communication and Technologies  88
- Problem with EMS  88
- Solutions for EMS  88
- Barriers and Challenges  89

22. **Computer Aided Dispatch Systems**  
*Jean-François Rousseau*
- Objectives of an Emergency Response System  90
- Integrated Computer Aided Dispatch System  90
- Components of CAD  91
- Montreal Ambulance Service  92

23. **Consolidated Dispatch: It’s All About Communications!**  
*Don Lundy*
- Consolidated Dispatch  95
- Basics  95
- History  96
- Benefits  96

24. **Ambulance Design and Fabrication: An Art or a Skill?**  
*Abani Tripathy*
- What is a “Good Ambulance”?  98
- How to Improve?  99

25. **Emergency Medical Services Concepts in Incident (Mass Casualty Incident, and Chemical, Biological, Radiological and Nuclear Disaster) Management**  
*Alex Lechleuthner*
- Emergency Medical Services—Plan in Cologne  101
SECTION III: Research Studies

26. The Circulation Improving Resuscitation Care Trial 107
   E Brooke Lerner
   • AutoPulse 107
   • Circulation Improving Resuscitation Care Trial 108
   • Phases 110
   • Inclusion Criteria 110
   • Randomization 110
   • Subject Exclusion 111
   • Data Analysis 111
   • Results 111
   • Subgroup Analysis 113

27. Is there a Role of Advanced Life Support in Asian EMS? 115
    Patrick Chow-In Ko
    • Canadian Study 115
    • Cardiac Arrest 115
    • ALS versus BLS-D in OHCA 117

28. Reducing Door-to-Balloon Time in Acute ST Elevation Myocardial Infarction with Prehospital ECG Transmission 119
    Doctor Nausheen
    • Trial Data 120
    • Results 121
    • Limitations 123
    • Optimization of STEMI Care 124

29. The Use of Self-disinfecting Touch Surface “Antimicrobial Copper” in Emergency Medical Services Areas to Reduce Healthcare Associated Infections 125
    Anu Kant Mital
    • Importance of Touch 126
    • Touch Surfaces 126
    • Measures to Protect 127
    • Antimicrobial Copper 127
    • Infection Control—A Multifaceted Challenge 128

30. Supporting a Culture of Continuous Improvement in Hospitals and Emergency Medical Services—An Automated External Defibrillator’s Approach 134
    Elaine Yeo
    • Turning Customer Insights into Meaningful Innovation 134
    • SMART CPR 135
    • HeartStart FR3 136
    • Data Management Goals 138
    • Two-tier Hospital Defibrillation 138
31. **Intraosseous—Because Every Second Counts**
   
   *Kobi Ludwin*
   
   - Prehospital—Case Study 140
   - What is Intraosseous? 140

32. **Ventilation in Emergency Medical Services**
   
   *Jason van der Velde*
   
   - Case 145
   - The Team 145
   - Equipment 145

33. **The Journey from “Door-to-Balloon in 90 Minutes” to “First Medical Contact-to-Balloon in 90 Minutes”**
   
   *Kim Lambert*
   
   - Introduction—American Heart Association 148
   - Acute Coronary Syndrome 148
   - Reperfusion Strategies for STEMI 148
   - Systems of Care for STEMI Patients 149
   - Barriers 150
   - Prehospital 12-Lead ECG 151
   - The Ideal STEMI System of Care 151

34. **PAROS (Pan-Asian Resuscitation Outcomes Study)**
   
   *Marcus Ong*
   
   - Governance of PAROS 152
   - Network Membership 153
   - Data Entry 155
   - Accomplishments and Future Plans of PAROS 155
   - Comparison of EMS Systems: PAROS Sites 156

35. **Research and Development in Ambulance Design in India: Past, Present and Future—A Case Study**
   
   *Angel Rajan Singh*
   
   - Ambulance Specifications in India 157
   - Suggestions from Guidelines 158

---

**SECTION IV: Views, Experiences and Perspectives**

36. **Emergency Medical Services Operation at Crowded Areas—Mass Gatherings**
   
   *Omar Al Sakaf*
   
   - Workload Characteristics 165
   - Workload Prediction 165
   - Event Planning 166
   - EMS Planning 167
   - Identification of Safety Risks 168
