## Contents

1. Cancer – Reflections from the Past  1  
   *Praful Desai*
   - Radiotherapy  3
   - Chemotherapy  4
   - Biological (targeted) therapy  5
   - The Indian scenario  5
   - The future  6

2. Surgical Oncology: An Overview  7  
   *Praful Desai*

3. Geographic Variations in Frequency and Incidence: A Global Perspective  9  
   *Ganesh Balasubramaniam*
   - Geographic variations in incidence  10
   - Incidence rates based on economic development  10

4. Primary and Secondary Prevention of Common Cancers  15  
   *Surendra Shastri, Aditi Shastri*
   - Cervical cancer screening and prevention  15
   - Breast cancer screening  18
   - Oral cancer prevention and screening  20

5. The Changing Face of Surgical Pathology  24  
   *Anita Borges*

   *Bhavin Jankharia*
   - Plain radiographs  35
   - Mammography  35
   - Ultrasound  36
   - Computed tomography scan  36
   - Magnetic resonance imaging  37
   - Positron emission tomography/computed tomography  37
   - Positron emission tomography/magnetic resonance imaging  39
   - Interventional radiology  40

7. Role of Nuclear Medicine in Oncology  42  
   *BA Krishna*
   - Principle of nuclear imaging  43
   - Diagnostic role  43
   - Types of nuclear scans in oncology  43
   - Clinical applications  44
   - Breast cancer  46
   - Lung cancer  48
   - Gastrointestinal cancers  50
   - Genitourinary cancers  52
   - Head and neck cancer  53
   - Bone and soft tissue tumors  53
   - Positron emission tomography-computed tomography in radiotherapy  53
   - Infections in oncology  54
Evolving applications of positron emission tomography scan with new tracers
Therapeutic nuclear oncology

8. Tumor Markers in Cancer: Therapeutic Impact
Pratul Desai
Therapeutic impact of tumor markers in cancer

9. Cancer Chemotherapy: Future Perspectives
SH Advani
Supportive care
Introduction of hormone therapy
Biological therapeutics
Growth signal inhibitors

10. Radiotherapy: Prospects and Retrospects
Nagraj G Huilgol, Mukul Roy
Biological basics of radiation therapy
Rationale for combination chemoradiotherapy
Brachytherapy
Development of new radionuclides and radiation physics
Brachytherapy types based on dose rate
Types of brachytherapy based on sources placed
Intensity-modulated radiotherapy
Future of radiation oncology

11. Hormonal Dependence of Malignant Cells
Rajendra Badwe, Sudeep Gupta, Gautam Goyal
History
Pathophysiology
Molecular effects of hormonal therapies
Breast cancer
Hormones in prostate cancer
Hormonal use in other tumors
Newer perspectives

12. Genetics and Cancer
Rajiv Sarin
Genetics of sporadic and hereditary cancers
Burden of hereditary cancers
Genetic mechanism of cancer development: multistep carcinogenesis and genomic instability
Tumor suppressor genes and oncogenes
The two-hit model of Knudson and hereditary retinoblastoma
Epigenetics and cancer
Clinical presentation and evaluation of hereditary cancers
Ascertaining family history
Genetic testing, its indications and interpretation
Cancer screening and prevention in high-risk individuals/mutation carriers
Molecular taxonomy of cancers and its clinical relevance
Molecular diagnostic techniques in cancer

13. Nanotechnology in Cancer Diagnosis and Treatment: A New Frontier
Neil Desai
Nanotechnology application in cancer diagnosis
Nanotechnology application in cancer therapy

14. Translational Research in Oncology
CS Pramesh, Rajendra Badwe
Research in cancer
A brief history of cancer research
Translational research
15. The Impact of Minimally Invasive Surgery in Oncology  
Shailesh Puntambekar, Geetanjali Agarwal-Joshi, Saurabh Joshi, Akhil Lawande

Laparoscopy in oncology 121
Esophagus 122
Colon and rectal cancer 125
Hysterectomy 130

16. Toward the Future of Minimal Access Surgery: A Personal Perspective  
Tehmenton E Udwadia

Training 135
Simulator training 136
Technology 137
Pragmatic evaluation 138
The future 138
Socioeconomic reality 139

17. Oral Premalignant Lesions  
Vijay Haribhakti

Definitions and terms 142
Leukoplakia 142
Erythroplakia 143
Submucous fibrosis (SMF) 143
Oral lichen planus (OLP) 144
Approach to a patient 144
Biopsy interpretation 145
Management 146

18. Oral Cancers  
Vijay Haribhakti

Anatomical boundaries and subsites 147
General features 147
Approach to treatment 149
Surgical approaches 149
The lips 153
Cheek and gum 153
The mandible 154
Retromolar trigone 157
Floor of mouth/tongue 157
Radiotherapy 159
Chemotherapy 159

19. Cancer of the Larynx  
Vijay Haribhakti

Diagnosis 161
Staging of cancer of the larynx 162
Management of laryngeal cancer 162

20. Cancer of the Pharynx  
Vijay Haribhakti

Surgical anatomy 168
General features 168
The nasopharynx 169
The oropharynx 171
The hypopharynx and cervical esophagus 174

21. Salivary Gland Tumors  
Vijay Haribhakti

Surgical anatomy 180
Clinical features and diagnosis 181
Classification of salivary tumors 183
Mucoepidermoid carcinoma 183
Adenoid cystic carcinoma 183
Adenocarcinoma 183
Others 183
Treatment goals and alternatives 184
Superficial parotidectomy—technique 184
Management of the neck 184
Issues in salivary gland surgery 185

22. Carcinoma of the Thyroid
Praful Desai, Sarabjeet Kaur Arneja

Etiology 186
Pathology 186
Staging 188
Clinical features and investigations 188
Fine needle aspiration cytology 188
Treatment 188
Management of neck nodes 190
Adjuvant radioactive iodine 191
Lobectomy versus total thyroidectomy in thyroid cancers 191
Solitary thyroid nodule—management algorithm 191

23. Parathyroid Tumors
Praful Desai

24. The Metastatic Neck
Vijay Haribhakti

Anatomy of the fascia and spaces of the neck 197
Triangles of the neck 197
Neck levels 198
Determinants of nodal metastasis 199
Clinical features 199
Staging 199
Management of the metastatic neck 200
Nomenclature of neck dissections 200
The surgical pathology report 201

25. The Role of Diagnostic and Therapeutic Endoscopy in Digestive Tract Malignancies
Samir Parikh

Premalignant/dysplastic lesions of digestive tract 203
Diagnosis and staging of digestive cancers 206
Endoscopic treatment 210
Endoscopic resection 211
Laparoscopic surgery 213
Natural orifice transluminal endoscopic surgery 213
Endoscopic palliative treatment 214
Endoscopic treatment of postoperative/postradiotherapy complications 216

26. Cancer of the Esophagus
Praful Desai, Ganesh Balasubramaniam

Associated factors 223
Pretherapy work-up and investigation 223
Surgical approach 224
Localized (locoregional) esophageal cancer 224
Nodal dissection (two-field/three-field) 226
Type of anastomotic disruptions 228
Chemoradiotherapy as definitive treatment 229
Palliation 229
Chemotherapy 229
Tracheoesophageal fistula 231

27. Carcinoma Stomach 233
   Praful Desai, Bhavna Parikh, Nagraj G Huilgol, Ganesh Balasubramaniam
   Epidemiology 233
   Diet 234
   Tobacco 234
   Alcohol 234
   Obesity 234
   Ethnicity 235
   Genetics 235
   Pathology 235

28. Tumors of the Small Bowel 245
   Ratna Parikh, Praful Desai
   Etiology 245
   Clinical presentation 245
   Diagnostic work-up 245
   Carcinoid tumors 245
   Treatment 246

29. Cancer of Colon, Rectum and Anal Canal 250
   Praful Desai, Sarabjeet Kaur Arneja, Bhavna Parikh
   Carcinoma of the Colon 250
      Pathology 250
      Diagnosis/investigations 252
      Staging 253
      Treatment planning 254
      Complications of colonic surgery 255
      Neoadjuvant chemotherapy in colonic cancers 255
   Carcinoma of the Rectum 255
      Etiology 255
      Clinical presentation and investigations 256
      Fundamental principles of therapy 256
   Cancers of the Anal Canal 264
      Introduction and etiology 264
      Diagnosis and pretherapy workup 264
      Pathology 265
      Treatment 265

30. Pseudomyxoma Peritonei 269
   Ratna Parikh, Praful Desai, Sarabjeet Kaur Arneja
   Pathology 269
   Diagnosis 269
   Treatment 269
   Chemotherapy 271

31. Gastrointestinal Stromal Tumors 273
    Praful Desai, Keyuri Patel
    Pathology 273
    Clinical 274
    Investigations 275
    Management 275

32. Hepatic Malignancies 277
    Deepak Chhabra, Palepu Jagannath
    Hepatocellular carcinoma 277
33. Biliary Malignancies 291

Deepak Chhabra, Palepu Jagannath

**Gallbladder Carcinoma** 291
Epidemiology and risk factors for gallbladder carcinoma 291
Clinical presentation 292
Pathology and patterns of spread 292
Staging 293
Investigations 293
Management 295
Extent of liver resection for gallbladder cancers 296
Extent of lymphadenectomy 299
Bile duct resection 299
Neoadjuvant and adjuvant treatments for GBC 299
Palliative care 299

**Hilar** 299

**Cholangiocarcinoma** 299
Epidemiology and risk factors for cholangiocarcinoma 300
Pathology and patterns of spread 300
Staging 301
Preoperative evaluation 303
Management 304
Principles of surgical resection in hilar cholangiocarcinoma 304
Palliation 306
Systemic and other treatments 306

34. Pancreatic Malignancies 310

Shailesh V Shrikhande, Palepu Jagannath

Risk factors and molecular biology 310
Clinical features 310
Pretherapy investigations 311
Confirmation of diagnosis 312
Obstructive jaundice in resectable pancreatic head and peripancreatic cancer: management approach 312
Treatment 312
Adjuvant therapy in pancreatic cancer 319
Neoadjuvant approaches in pancreatic cancer 319
Palliation in pancreatic cancer 319
Uncommon pancreatic tumors 319

35. Breast Cancer 325

Ratna Parikh, Praful Desai, Anita Borges, Sarabjeet Kaur Armeja, Nagraj G Huilgol, Bhavin Jankharia, Bhavna Parikh, Ganesh Balasubramaniam

Epidemiology 325
Pathology 326
Grading of breast carcinoma 328
Hormone receptor 329
HER2 neu 329
Molecular classification 329
Screening 330
Prevention 330
Contents

Diagnosis 330
Noninvasive breast cancer 336
Invasive breast cancer 339
Sentinel lymph node retrieval in breast cancer 343
Locally advanced breast cancer 344
Inflammatory breast cancer 345
Bilateral breast cancer 346
Mucinous breast cancer (colloid or granulomatous carcinoma) 346
Tubular carcinoma 346
Papillary carcinoma 346
Medullary carcinoma 346
Male breast cancer 347
Phyllodes tumor (cystosarcoma phyllodes) 347
Paget’s disease 347
Breast cancer and pregnancy 349
Recurrent disease 350
Metastatic breast cancer 350
Systemic therapy of breast cancer 352
Radiation therapy 355

36. Ovarian Cancer 363
Ratna Parikh, Praful Desai, Ganesh Balasubramaniam, Bhavna Parikh, Sarabjeet Kaur Arneja
Epidemiology 363
Associated factors 363
Surveillance 365
Chemoprevention 365
Prophylactic surgery 365
Pathology 365
Clinical features 368
Investigations 368
Mode of spread 369
Surgery 370
Systemic therapy of epithelial ovarian cancer 371
Management of recurrent disease 372
Common protocols 373

37. Carcinoma of the Cervix 379
Praful Desai, Keyuri Patel, Bhavna Parikh, Nagraj G Huilgol, Ganesh Balasubramaniam
Epidemiology 379
Human papilloma virus infection 379
Pathology 381
Screening for cervical cancer 383
Papanicolaou smears 383
Problems and challenges 384
Clinical features and pre-therapy work-up 385
Invasive carcinoma of the cervix: surgical management 385
Chemotherapy 389
Neoadjuvant chemotherapy 389
Adjuvant chemotherapy 390
Salvage chemotherapy for metastatic and recurrent disease 390
Standard protocols 390
Radiotherapy 391
Stage IA–C FIGO 391
Stage IA 2 391
FIGO–stage IBI, and IIA A 391
Adjuvant postoperative radiation therapy 391
Acute side-effects 392
Late side-effects 392
38. Endometrial Cancer 394
   Praful Desai, Keyuri Patel, Bhavna Parikh, Nagraj G Huilgol, Ganesh Balasubramaniam
   Epidemiology 394
   Pathology 396
   Clinical features 397
   Treatment 398
   Radiotherapy (RT) 399

39. Management of Lung Cancer 403
   Ramakant Deshpande, Tanveer Abdul Majeed
   Epidemiology 403
   Etiology 404
   Pathology 405
   Modes of dissemination 405
   Clinical features 407
   Diagnosis of lung cancer 407
   Treatment of lung cancer 409

40. Mediastinal Tumors 424
   Ramakant Deshpande, Tanveer Abdul Majeed
   Surgical anatomy of mediastinum 424
   Incidence and pathology 424
   Diagnosis 424
   Symptoms and signs 425
   Paraneoplastic syndrome 425
   Thymus 426
   Thymoma 426
   Germ cell tumors 428

41. Tumors of the Chest Wall 436
   Ramakant Deshpande, Tanveer Abdul Majeed
   Histological types 436
   Clinical features 439
   Diagnosis 440
   Chest wall resections and reconstructions 440

42. Tumors of the Adrenal Gland 444
   Varun Gunavanthe, Jagdeesh Kulkarni
   Clinical presentation 444
   Etiopathology of adrenal mass 445
   Surgical indications for adrenalectomy 446
   Differential diagnosis of adrenal tumors 446
   Illustrative case reports 451

43. Renal Cell Carcinoma 454
   Hemant B Tongaonkar, Ganesh K Bakshi, Santosh Menon, Kumar Prabhash, Amit Joshi
   Epidemiology 454
   Etiology 454
   Pathology 455
   Pathogenesis 456
   Diagnosis and staging 456
   Treatment of localized renal cell carcinoma 462
   Management of tumor extension to renal vein or inferior vena cava 464
   Metastatic renal cell carcinoma 466

44. Prostate Cancer 474
   Jagdeesh Kulkarni, Varun Gunavanthe, Nasreen Gite, Abhijit Dhale, Devendra Choudhary
   Epidemiology 475
   Primary chemoprevention 476
45. Bladder Cancer 488
   Jagdeesh Kulkarni, Varun Gunavanthe, Nasreen Gite, Abhijit Dhale, Devendra Choudhary
   Etiology and risk factors 488
   Clinical features 488
   Pathology 488
   Staging 489
   Investigations and staging techniques 490
   Contemporary management of bladder cancer 492
   Metastatic and recurrent tumors 498
   Minimally invasive surgery for bladder cancer 498

46. Testicular Tumors 500
   Jagdeesh Kulkarni, Abhijit Dhale, Devendra Choudhary, Nasreen Gite, Varun Gunavanthe
   Epidemiology and risk factors 500
   Classification 500
   Germ cell tumors 500
   Classification of germ cell tumors of testis 501
   Clinical features 502
   Investigations 502
   Treatment of primary tumor—orchietomy 503
   Testes sparing surgery 504
   Staging, stage grouping and risk stratification 504
   Management of germ cell tumors of the testis 504
   Growing teratoma syndrome 508
   Salvage therapy 509
   Fertility in testicular tumors 509
   Tumors in undescended testis 509

47. Stoma Care 512
   Harikesh Buch, Carlo Pezcoller, Louise Forest Lalande
   Development of stoma appliance and stoma care 512
   Incidence of stomas 512
   Marking the stoma site and creation of ideal stoma 512
   Indication for intestinal stoma surgery 515
   Preoperative preparations 515
   Technique of creation of stoma 516
   Preoperative and postoperative counseling 520
   Common stoma complications and its management 520
   Complications related to urostomy 522
   Psychosocial issues of ostomates 524
   Other common problems that patient will have 525
   Management of different types of stoma 526
   Stoma support groups 527

48. Neuroendocrine Tumors (Carcinoids) 529
   Praful Desai, Keyuri Patel
   Pathology 529
   Investigations 532
   Gastrointestinal carcinoids (NETs) 533
   Molecular based therapy 535

49. Bone Tumors and Soft Tissue Sarcomas 536
   Ajay Puri, Nirmala Jambhekar
   Primary bone tumors 536
Osteosarcoma 538
Ewing sarcoma 541
Chondrosarcoma 542
Principles of surgical treatment and reconstruction after wide excision in bone tumors 543
Soft tissue sarcomas 545
Management of metastatic disease from bone and soft tissue sarcomas 547

50. Retroperitoneal Sarcomas
Praful Desai
Etiology 550
Pathology 550
Clinical features 550
Investigations 550
Treatment 550

51. Management of Skeletal Metastases
Jai Prakash Agarwal, Nikhil Kalyani
Clinical presentation and diagnosis 553
Treatment 555

52. Management of Primary Brain Tumors
Rakesh Jalali, Uday Krishna
Epidemiology 560
Imaging of primary brain tumors 561
Histology of CNS tumors 561
Management of common symptoms and complications of CNS tumors 564
Management of individual tumors 565
Management of pediatric CNS tumors 568
Management of benign tumors and intracranial extra-axial tumors 570
Palliative and supportive care 572
Hospice/end of life care 572
Quality of life 573

53. Management of Brain Metastasis
Rakesh Jalali, Uday Krishna
Epidemiology 577
Clinical presentation 577
Diagnosis and evaluation 577
Pathogenesis and spread of metastases to the brain 578
Prognostic factors and staging 578
Medical management of brain metastasis 579
Radiotherapy 580

54. Cancers from an Unknown Primary Site
Praful Desai
Clinical presentation 585
Clinical approach and investigations including histologic studies of the metastatic lesion 585
Treatment 586

55. Paraneoplastic Syndromes in Cancer
Praful Desai

56. Reconstructive Surgery in Oncology
Dhairyasheel Savant, Mridula Kuchekar
Reconstruction techniques in head and neck cancers 591
Reconstructive options for various sites in the head and neck region 593
Mandibular reconstructions 595
Chest wall reconstruction 598
Abdominal wall reconstruction 601
Breast reconstruction 603
57. Emergencies in Oncology  
Vijaya Patil, Kailash Sharma
- Neutropenic sepsis 609
- Tumor lysis syndrome 609
- Hypercalcemia 610
- Anaphylactic reactions due to chemotherapeutic agents 610
- Pheochromocytoma 611
- Tumor-induced hypoglycemia 611
- Superior vena cava syndrome 611
- Airway obstruction 611
- Cardiac tamponade 612
- Cardiac failure 612
- Spinal cord compression 612
- Hyperviscosity syndrome 612
- Hyponatremia 613

58. Pediatric Oncology: A Journey from Nihilism to Cautious Optimism  
Purna Kurkure
- Burden of childhood cancers 614
- Neuroblastoma 617
- Wilm's tumor 619
- Retinoblastoma 620
- Barriers to optimal treatment of childhood cancers in India 621

59. Lymphomas in Children  
Brijesh Arora, Vishal Sodhi
- Lymphomas in children 624

60. Adult Lymphomas  
Manju Sengar
- Non-Hodgkin lymphoma 644

61. Evidence-based Medicine in Oncology: Problems, Challenges and Opportunities  
Praful Desai
- Problems and challenges 653

62. General Principles in Oncologic Anesthesia  
Sateesh Gupte
- Gastrointestinal 657
- Fever 658
- Hematological abnormalities 658
- Hypoglycemia 658
- Hypercalcemia 658
- Renal dysfunction 659
- Endocrinologic 659
- Neurologic 659
- Lactic acidosis 659
- Anesthetic problems in specific operations 660
- Tumors of endocrine gland 661
- Adrenal 661
- Cancer chemotherapy 662

63. Cancer Pain Management  
KS Sharma, PN Jain
- Epidemiology 666
- Definition and types of pain 667
- Practical approach to a patient with cancer pain 668
- Pharmacological management of cancer pain 668
- Interventions in pain management 672
64. Palliative Care and Quality of Life in Advanced Cancer 674
   Mary Ann Muckaden, Jayita Deodhar, Shrikant Atreya

   Incidence of advanced cancers 674
   Definition of palliative care 675
   Goals of care 675
   Physical symptoms and their control 675
   Gastrointestinal symptoms 675
   Psychological care 679
   Place of care 680
   Spiritual care 680
   Ethics and palliative care 681
   End-of-life care 681
   Ethics in end-of-life care 681
   Bereavement support 682
   Research and palliative care 682
   Pediatric palliative care 682
   Community-based palliative care 682
   Epilogue 683

65. Microbial Pathogens and Infection Control in Immunocompromised Cancer Patients 685
   Rohini Kelkar

   Etiology 685
   Epidemiology 687
   Laboratory diagnosis 687
   Viral infections 688
   Fungal infections 689
   Mycobacterial infections 693
   Cytomegalovirus infections 693
   Infections in surgical oncology: surgical site infections 694
   Multidrug-resistant organisms: current scenario 694
   Principles of antimicrobial prophylaxis in surgical oncology 696
   Infections in hematopoietic cell transplant recipients 697
   Management principles 698
   Guidelines for antimicrobial therapy 698
   Prevention and control of infectious complications 699
   Prevention of surgical site infections 700

66. Cancer Control in Developing Countries 706
   Praful Desai, Bhagwan Nene, Manoj Chauhan

   Methodology—low cost/low technology effort—a replicable module 706
   Comprehensive cancer centers 707
   Community cancer centers 707

67. The Future: Cure, Control or Peaceful Coexistence? 711
   Praful Desai

68. The Conquest of Mortality: Science, Medicine and Technology’s Final Destination? 714
   Praful Desai

Index 719
