Chapter 3: Indications for Trabeculectomy and Tubes: Which to Choose, When and How?
  • Pigs Eye Trabeculectomy

Chapter 5: New Surgical Techniques
  • Hydrus
  • Cy-Pass
  • Xen

Chapter 7: Selective Laser Trabeculoplasty
  • Selective Laser Trabeculoplasty

Chapter 8: Lasers in Angle Closure Glaucoma
  • Laser Peripheral Iridotomy
  • Pascal Laser Iridoplasty

Chapter 9: Transscleral Diode Cyclophotocoagulation
  • Diode Laser Cyclophotocoagulation

Chapter 10: Endoscopic Cyclophotocoagulation
  • Endoscopic Cyclophotocoagulation

Chapter 12: EX-PRESS Mini Glaucoma Shunt: Surgical Technique
  • Express Shunt
  • EX-PRESS Glaucoma Drainage Device Surgical Technique
  • EX-PRESS Glaucoma Drainage Implant Removal

Chapter 13: Bleb Management
  • Management of Late Bleb Complications of Trabeculectomy

Chapter 15: Releasable Suture Techniques
  • Techniques for Releasable Sutures
  • Releasable Suture

Chapter 16: Repeat Trabeculectomy
  • Subconjunctival Injection of BSS to Facilitate its Dissection
  • Dissection of Conjunctiva Adjacent to a Previous Trabeculectomy Site for Intended Repeat Trabeculectomy with Subsequent Opening of Previous Scleral Flap and Uveal Tissue Prolapse

Chapter 17: Combined Cataract and Glaucoma Surgery
  • Ahmed Valve and Phaco Cataract Extraction
  • Phaco and Canaloplasty with Glaucomight
  • Combined Small Incision Cataract Surgery and Express

Chapter 18: Modulation of Wound Healing
  • Modulation of Wound Healing

Chapter 19: Late Hypotony Post-Trabeculectomy
  • Bleb Repair using Conjunctival Pedicle Flap
  • Management of Postoperative Choroidal Detachment

Chapter 20: Nonpenetrating Deep Sclerectomy, Viscocanaloplasty and Ancillary Gonioscopicpuncture
  • Deep Sclerectomy with Collagen Implant
  • Discocanaloplasty

Chapter 21: Implants in Deep Sclerectomy
  • Non Perforating Deep Sclerectomy

Chapter 22: Carbon Dioxide Laser-Assisted Deep Sclerectomy
  • Co2 Laser Beam Assisted Sclerectomy

Chapter 25: Ahmed Glaucoma Valve
  • Ahmed Value in Children

Chapter 26: Complications with the Ahmed Valve
  • Ahmed Valve Bleb Fibrosis Removal Fornix Incision
  • Anterior Bimanual Vitrectomy and Peripheral Iridectomy
  • Anterior Vitrectomy for An Occluded Tube
  • Chroidal Drainage for Chronic Suprachoroidal Haemorraghe
  • Expulsive Hemorrhage Drainage in PK
  • Forced Tube Irrigation
  • AGV Tube Repositioning

Chapter 27: Baerveldt Glaucoma Implant
  • Baerveldt Glaucoma Implant

Chapter 29: Surgical Management for Childhood Glaucoma–Part 1
  • Blocked Tube
  • Transcameral Trimming of Tube
  • Repair of Tube Related Conjunctival Exposure

Chapter 30: Surgical Management for Childhood Glaucoma–Part 2
  • Intracameral Tying of Tube
  • Transcameral Insertion of A 3/0 Supra Mid Suture

Chapter 31: Illuminated Microcatheter- Assisted Circumferential Trabeculotomy for Primary Congenital Glaucoma
  • Illuminated Microcatheter Trabeculotomy
  • Manual Trabeculotomy

Chapter 33: Goniosynechialysis
  • Phacogoniosynechialysis

Chapter 35: Glaucomatous Complications of Refractive Surgery
  • DS with Suprachoroidal Tflux

Chapter 36: Management of Glaucoma Post Vitreoretinal Surgery
  • Ahmed Glaucoma Valve - Innovations in Wound Closure with Fibrin Glue
  • Retracted Tube
  • Tube Exposure

Chapter 37: Management of Neovascular Glaucoma
  • Trabeculectomy Fornix Based

Chapter 39: Suprachoroidal Shunts
  • Gold Shunt
  • CyPass

Chapter 40: Biodegradable Collagen Implants In Trabeculectomy
  • Ologen

Chapter 41: New Glaucoma Surgical Alternatives: Classification and Future Horizons
  • Hydrus
Section 1: Preoperative Evaluation and Overview of Glaucoma Surgical Techniques

1. Preoperative Assessment of a Glaucoma Patient
   Sarwat Salim
   - Patient Age and Life Expectancy 3
   - General Health 4
   - Anticoagulation Therapy 4
   - Visual Acuity and Refractive Error 4
   - Diagnosis 7

2. Intraocular Pressure Reduction Conundrum: Surgery or Drugs?
   Shibal Bhartiya, Monica Gandhi, Colin Clement, Parul Ichhpujani, Tarek M Shaarawy
   - Ocular Adverse Effects and Complications 13

3. Indications for Trabeculectomy and Tubes: Which to Choose, When and How?
   Graham A Lee, Ivan Goldberg
   - Trabeculectomy 20
   - Ex-Press 27
   - Tubes 27

4. Newer Glaucoma Surgical Procedures: How and When to Choose?
   Shibal Bhartiya, Parul Ichhpujani
   - Introduction and Rationale 34
   - Anatomical Basis 34
   - Indications and Contraindications 37
   - Complications 37
   - Scientific Evidence So Far 38
   - Ongoing Clinical Trials 40
   - Current Positioning of These Procedures versus Gold Standard 40

5. New Surgical Techniques
   Marco Nardi, Francesco Nasini, Paolo Martinelli
   - The Surgical Approach 42

6. Criteria for Surgical Success
   Shibal Bhartiya, Ivan Goldberg
   - Types of Success 48
   - Nonintraocular Pressure Criteria of Surgical Success 49
Section 2: Lasers in Glaucoma Surgery

7. Selective Laser Trabeculoplasty  
   Laura Beltran-Agullo, Jason Cheng, K Sheng Lim  
   • Mechanism of Action  
   • Indications and Laser Efficacy  
   • Long-term Success  
   • Laser Protocol  
   • Repeated Selective Laser Trabeculoplasty  
   • Predictive Factors for Laser Success  
   • Complications  
   • Technique  

8. Lasers in Angle Closure Glaucoma  
   Chelvin CA Sng, Joel Aduan, Maria Cecilia Aquino, Paul TK Chew  
   • Introduction and Anatomical Basis  
   • Laser Peripheral Iridotomy  
   • Argon Laser Peripheral Iridoplasty  

9. Transscleral Diode Cyclophotocoagulation  
   Shibal Bhartiya, Parul Ichhpujani, Dewang Angmo  
   • Mechanism of Action  
   • Pearls and Pitfalls  
   • Complications  

10. Endoscopic Cyclophotocoagulation  
    Colin I Clement, Philip A Bloom  
    • Patient Selection  
    • Surgical Technique  
    • Operative Technique  
    • Postoperative Care  
    • Treatment Outcomes  
    • Combined with Cataract Surgery as A Primary Surgical Treatment  
    • Comparison to Transscleral Cyclophotocoagulation  
    • Comparison to Trabeculectomy  
    • Comparison to Tube-Shunt Surgery  
    • Complications  

Section 3: Trabeculectomy: Technique and Rescue Operations

11. Trabeculectomy  
    Peng T Khaw, Peter Shah, Freda Sii, Joseph Abbott  
    • Anesthesia  
    • Informed Consent  
    • Preoperative and Intraoperative Therapeutics  
    • Surgical Technique  
    • Postoperative Management  
    • Complications  
    • Postoperative Complications  

12. Ex-PRESS\textsuperscript{TM} Mini Glaucoma Shunt: Surgical Technique

Jeffrey R SooHoo, Leonard K Seibold, Malik Y Kahook

- Anatomy 105
- Indications and Contraindications 105
- Surgical Steps 105
- Results 106
- Complications and Management 107
- Pearls and Pitfalls 107

13. Bleb Management

Tom Edwards, Jonathan Goodfellow, Jonathan Crowston, Michael Coote

- Topical Steroid 110
- Bleb Massage/Releasable Suture Removal 111
- Bleb Needling and 5-Fluorouracil Injection 111
- Complications 112

14. Resurrecting the Failing Filtering Bleb

Sung Chul Park, Robert Ritch

- Filtering Bleb Appearance and Function 114
- Risk Factors for Filtration Failure 116
- Signs of Filtration Failure 116
- Management of Filtration Failure 119
- Trephination 122

15. Releasable Sutures in Trabeculectomy

Parul Ichhpujani, Shibal Bhartiya

- Mechanism of Action 128
- Techniques 128
- How to Use One or Two Releasable Sutures? 132
- When to Remove the Releasable Suture? 132
- How to Remove the Releasable Suture? 132
- What to Look for after Suture Release? 133
- Complications 133

16. Repeat Trabeculectomy

Ahmed M Abdelrahman, Yasmine El Sayed

- Subsequent Management Options after Failure of the Initial Trabeculectomy 135
- Risks and Technical Considerations during Repeat Trabeculectomy 136
- Postoperative Treatment 138
- Outcomes of Repeat Trabeculectomy 139

17. Combined Cataract and Glaucoma Surgery

Oscar Albis-Donado, Giovanna Casale-Vargas

- Preoperative Evaluation 143
- Indications 143
- Cataract Surgery 144
- Combined Trabeculectomy and Cataract Surgery 144
18. **Modulation of Wound Healing**  
Colin I Clement, Dilani Siriwardena, M Francesca Cordeiro
- Modulation of Wound Healing 153

19. **Late Hypotony Post--Trabeculectomy**  
Tanuj Dada, Dewang Angmo
- Risk Factors 167
- Etiology and Pathophysiology 169
- Pathophysiology 171
- Preventive Measures 171

**Section 4: Nonpenetrating Glaucoma Surgery**

20. **Nonpenetrating Deep Sclerectomy, Viscocanaloplasty and Ancillary Goniopuncture**  
Sangtam Tiakumzuk, Mermoud André
- Anatomical Basis 181
- Indications and Contraindications 182
- Surgical Steps 183
- Results 187
- Complications and Management 187
- Ancillary Goniopuncture 188

21. **Implants in Deep Sclerectomy**  
Oana Stirbu, Susana Duch Tuesta
- Introduction and Anatomical Basis 190
- Indications 192
- Contraindications 192
- Surgical Steps 192
- Postoperative Care 196
- Complications and Management 196
- Pearls and Pitfalls 197

22. **Carbon Dioxide Laser-Assisted Deep Sclerectomy**  
Amr Aref, Tarek M Shaarawy
- Anatomical Basis 199
- Surgical Steps 200
- Results 201
- Complications and Management 201
- Pearls and Pitfalls 201

23. **Canaloplasty with Suture Stenting**  
Matthias C Grieshaber
- Technique 203
- Patient Selection 205
- Intraoperative Testing of the Outflow System 206
- Clinical Results 207
- Conclusions and Outlook 207
24. **Complications in Canaloplasty**

*Gabor B Scharioth*

- Typical Intraoperative Complications of Deep Sclerectomy 209
- Typical Intraoperative Complications of Canaloplasty 210
- Typical Postoperative Complications of Canaloplasty 213

---

**Section 5: Glaucoma Drainage Devices**

25. **Ahmed Glaucoma Valve**

*Kleyton Barella, Vital Paulino Costa*

- Introduction and Anatomical Basis 217
- Indications 217
- Contraindications 219
- Surgical Steps 219
- Results 219
- Complications and Management 221

26. **Complications with the Ahmed Valve**

*Oscar Albis-Donado, Sonia Corredor-Casas, Rafael Castaneda-Diez*

- Complications and Their Management 223
- Intraoperative Complications 223
- Early Postoperative Complications 228
- Perivalvular Fibrosis and the Hypertensive Phase 230
- Histopathology 231
- Other Late Postoperative Complications 232
- Strabismus and the Ahmed Valve 233

27. **Baerveldt Glaucoma Implant**

*Leonard K Seibold, Jeffrey R SooHoo, Malik Y Kahook*

- Introduction and Anatomical Basis 237
- Indications 238
- Contraindications 238
- Surgical Steps 238
- Results 242
- Complications and Management 243
- Pearls and Pitfalls 244

28. **Molteno Glaucoma Drainage Device**

*Jonathan Goodfellow, Thomas Edwards, Jonathan Crowston, Michael Coote*

- Indications 246
- Surgical Technique 246
- Complications: Prevention and Management 248
Section 6: Pediatric Glaucoma

29. Surgical Management for Childhood Glaucoma–Part 1
   Velota CT Sung
   • Angle Surgeries 253
   • Filtering Surgeries 255
   • Cyclodestructive Procedures 258

30. Surgical Management for Childhood Glaucoma–Part 2
   Velota CT Sung
   • Surgical Outcomes 261
   • The Baerveldt Tube Implant with Mitomycin C and Donor Sclera Graft Procedure 262
   • Management of Complications 264

31. Illuminated Microcatheter-Assisted Circumferential Trabeculotomy for Primary Congenital Glaucoma
   Tanuj Dada, Shikha Gupta
   • Principle of Congenital Glaucoma Surgery 269
   • Surgical Options for Congenital Glaucoma 269
   • Newer Surgical Options 271
   • Microcatheter-assisted Circumferential Trabeculotomy 271
   • Surgical Technique 271
   • Indications 273
   • Contraindications 274
   • Intraoperative Problems 274
   • Postoperative Treatment 274
   • Review of Literature 274
   • Our Results 274
   • Limitations and Advantages 276

Section 7: Special Situations

32. Lens in Angle-Closure Glaucoma
   Loon Seng Chee, Dawn Lim Ka-Ann, Anna Marie Tan Wee Tien, Joel Aduan, Paul Chew Tec Kuan
   • Treatment of Primary Angle-closure and Primary Angle-closure Glaucoma 281
   • Surgical Pearls 283
   • Postoperative Management 286
   • Complications 287

33. Goniosynechialysis
   Rahat Husain, Tin Aung
   • Indications 288
   • Contraindications 288
   • Surgical Steps 289
   • Results 289
   • Complications and Management 290
   • Pearls and Pitfalls 290
34. Postpenetrating Keratoplasty Glaucoma  
Murali Ariga, Praveena C, Malarkodi P, Nivean M, Srinivas K Rao  
- Definition 292  
- Incidence 292  
- Clinical Features 293  
- Mechanisms of Glaucoma Postpenetrating Keratoplasty 294  
- Management 294  
- Trabeculectomy 297

35. Glaucomatous Complications of Refractive Surgery  
Gonzalo Muñoz, Moza Dekhain, José I Belda Sanchís, Daniel Elíes  
- Glaucoma Associated with Phakic Intraocular Lens Implantation 302  
- Glaucoma after Laser-assisted in Situ Keratomileusis 306

36. Management of Glaucoma Post Vitreoretinal Surgery  
Rathini Lilian David, Lingam Vijaya, Janvi Shah  
- Glaucoma after Scleral Buckling Procedures 309  
- Glaucoma after Intravitreal Gas Injection 309  
- Glaucoma after Silicone Oil Injection 310  
- Indications for Trabeculectomy 311  
- Indications for Glaucoma Drainage Devices 311  
- Contraindications for Antiglaucoma Surgery 311  
- Surgical Technique 311  
- Results 312  
- Complications and Management 315  
- Pearls and Pitfalls 315

37. Management of Neovascular Glaucoma  
Syril Dorairaj, Michael W Stewart, Sribhargava Natesh, Christopher C Teng  
- Introduction and Anatomical Basis 316  
- Surgical Treatment to Reduce Intraocular Pressure 317  
- Tube Shunts/Drainage Devices 318  
- Laser Cyclophotocoagulation 320  
- Results 320  
- Complications 320  
- Pearls and Pitfalls 322

38. Phacoemulsification in Eyes with Previous Glaucoma Filtering Surgery  
Tanuj Dada, Dewang Angmo, Shikha Gupta  
- Preoperative Evaluation 325  
- Intraoperative Measures 326  
- Postoperative Considerations 328  
- Outcomes of Phacoemulsification in Eyes with a Filtering Bleb 329  
- Influence of Cataract Extraction on the Visual Fields 332  
- Influence of Cataract Extraction on the Outcome of Hypotony Following Trabeculectomy 332
Section 8: New Microsurgical Devices in Glaucoma Surgery

39. Suprachoroidal Shunts
   Wanda D Hu, Marlene R Moster
   • Anatomical Basis  337
   • Indications and Contraindications  339
   • Surgical Steps  339
   • Results  342
   • Complications and Management  343
   • Pearls and Pitfalls  344

40. Biodegradable Collagen Implants in Trabeculectomy
   Tanuj Dada, Parul Ichhpujani, Dewang Angmo
   • What is the Use of Collagen Implants in Filtering Surgery?  347
   • Types of Collagen Implants  347
   • Surgical Technique  347
   • Surgical Steps  347
   • Postoperative Care  349
   • Scientific Evidence on the Use of Collagen Implants  350
   • Complications  351

41. New Glaucoma Surgical Alternatives: Classification and Future Horizons
   Tarek M Shaarawy, MM Moschos, MB Sherwood
   • Terminology  353
   • Classification  353
   • Results  359
   • Miniaturized High-intensity Focused Ultrasound Device  363
