Contents

Chapter 1
Primary and Postprimary Tuberculosis
  ◦ Primary Tuberculosis 1
  ◦ Postprimary Tuberculosis 5

Chapter 2
Case Definitions in Tuberculosis
  ◦ Case Definitions 11
  ◦ Disease Classification 12
  ◦ Types of Tuberculosis Patients 14
  ◦ HIV Setting Case Definitions 18

Chapter 3
Epidemiology of Tuberculosis
  ◦ Epidemiological Indices 21
  ◦ Epidemiological Survey Methods 23
  ◦ Survey Method in TB 23
  ◦ Global Burden of TB 24
  ◦ TB Burden in India 25
  ◦ WHO Estimate of TB Burden 27

Chapter 4
Diagnostic Tools for Tuberculosis
  ◦ Diagnosis of Latent TB Infection 31
  ◦ Interferon-γ Assays 35
  ◦ Diagnosis of Tuberculosis 37
  ◦ Other Investigations in the Diagnosis of Tuberculosis 49

Chapter 5
Basic Concepts in Treatment of Tuberculosis
  ◦ Role of Special Diet and Rest 51
  ◦ Role of Hospitalization 51
  ◦ Single Drug Therapy vs Multiple Drugs 52
  ◦ Single vs Divided Doses 52
  ◦ Optimum Duration of Treatment 52
Chapter 6
How does Tuberculosis Treatment Work? 56
- Bacteriological Factors 56
- Environmental Factors 57
- Pharmacological Factors 58

Chapter 7
Duration of Treatment 60

Chapter 8
Antitubercular Drug Doses and Regimens for Adults and Children 63

Chapter 9
Pharmacology of Antitubercular Drugs Used in new Patients of Tuberculosis 69
- Isoniazid 69
- Rifampicin 71
- Ethambutol 72
- Pyrazinamide 73
- Streptomycin 74

Chapter 10
Pharmacology of Antitubercular Drugs Used in Previously Treated Patients of Tuberculosis 77
- Kanamycin 77
- Amikacin 80
- Capreomycin 83
- Cycloserine 85
- Ethionamide and Prothionamide 87
- Para-aminosalicylic Acid (PAS) 90
- Levofloxacin 92
- Moxifloxacin 95
- Ofloxacin 98
- Clofazimine 100
- Thiacetazone 102
- Linezolid 103
- Clarithromycin 104
- Imipenem/Cilastatin 105

Chapter 11
Adverse Effects of Antitubercular Drugs Used in new Patients of Tuberculosis 109
Chapter 12
Adverse Effects of Antitubercular Drugs Used in Previously Treated Patients of TB
112

Chapter 13
Treatment of Tuberculosis in Special Conditions: Pregnancy, Liver Disease and Renal Disease
121
◊ Treatment of Tb in Pregnancy and Lactation 121
◊ Treatment of TB in Renal Insufficiency 122
◊ Treatment of Tb in Liver Diseases 125

Chapter 14
Case-based Approach for Treatment of Tuberculosis in Special Conditions
128
◊ Treatment of TB in pregnancy and lactation 128
◊ Treatment of TB in renal insufficiency 129
◊ Treatment of TB in liver disease 130

Chapter 15
Current Concepts in the Treatment of Extrapulmonary Tuberculosis
132
◊ Tuberculous Lymphadenitis 133
◊ Pleural Effusion 133
◊ Tuberculous Meningitis (TBM) 134
◊ Bone and Joint Tuberculosis 134
◊ Miliary Tuberculosis 135
◊ Tuberculous Pericarditis 135
◊ Abdominal Tuberculosis 135
◊ Genitourinary Tuberculosis 136
◊ Ocular Tuberculosis 136
◊ Upper Respiratory Tract Tuberculosis 136
◊ Cutaneous Tuberculosis 136

Chapter 16
Use of Corticosteroids in Tuberculosis
138
◊ Indications of Corticosteroids in Tuberculosis 138
◊ Dose and Duration of Corticosteroids 141

Chapter 17
Management Strategies of Retreatment Cases in Tuberculosis
142
◊ Relapse 142
◊ Defaulters or Treatment After Default 142
◊ Failure 143
◊ Poor Adherence to Treatment 143
◊ Drug Resistance in Tuberculosis 143
◊ Approach to Retreatment Cases 143
◊ Non-MDR 144
Chapter 18
Multidrug Resistant Tuberculosis (MDR-TB): Current Scenario

- Types of Drug Resistance 147
- Prevalence of MDR-TB: Global 147
- Prevalence of MDR-TB in India 151
- HIV Infection and Multidrug-resistant TB 154
- Risk Factors of MDR-TB 155
- Control of MDR-TB 156

Chapter 19
Drug Resistant and Multidrug Resistant Tuberculosis: Management

- Definition 159
- Impact of Drug Resistance on the Outcome of Chemotherapy 159
- Diagnosis of Drug Resistant and Multidrug Resistant Tuberculosis 160
- Treatment of Drug Resistant and Multidrug Resistant Tuberculosis 163
- DOTS-PLUS 167
- Outcome of Treatment 170

Chapter 20
Multidrug Resistant Tuberculosis Management: Case-based Approach

- Case I 172
- CASE II 172
- CASE III 174
- CASE IV 177
- CASE V 177
- CASE VI 180

Chapter 21
Monitoring During Treatment of MDR & XDR-TB

Chapter 22
Extensively Drug Resistant Tuberculosis (XDR-TB)

- Epidemiology 184
- Factors Responsible for XDR-TB 186
- Diagnosis 186
- Treatment 187
- Monitoring of Treatment 189
- Role of Surgery 190
- HIV and XDR-TB 190
- Xdr-TB in Pediatric Patients 190
- XDR-TB in Pregnancy 191
- Control of XDR-TB 192
## Manual of Tuberculosis

### Chapter 27

**Tuberculosis and HIV** 241
- Epidemiology 241
- Impact of HIV on TB 242
- Impact of Tuberculosis on HIV 242
- Diagnostic Difficulties in Persons with HIV/Tuberculosis Coinfection 242
- Revised WHO Clinical Staging Of HIV/AIDS for Adults 243
- And Adolescents with Confirmed HIV Infection 243
- Diagnosis of Pulmonary Tuberculosis 244
- Diagnosis of Extrapulmonary Tuberculosis 245
- Investigations 247
- Treatment of Tuberculosis in HIV Positive Patients 248

### Chapter 28

**Interaction Between Antitubercular and Antiretroviral Drugs** 256
- Antiretroviral Therapy for the Treatment of HIV Infection 256

### Chapter 29

**Overlying and Additive Toxicities of Antiretroviral Therapy (ART) and Antituberculosis Therapy** 263

### Chapter 30

**Tuberculosis in Children** 268
- Epidemiology 268
- Clinical Presentation of Tuberculosis 269
- Diagnosis of Childhood Tuberculosis 269
- Treatment of Tuberculosis in Children 273

### Chapter 31

**Non-tubercular Mycobacteria** 277
- Epidemiology 277
- Mode of Infections 278
- Classifications of NTM 278
- Distribution 279
- Clinical Presentations 280
- Diagnosis 280
- Treatment 284

### Chapter 32

**Hemoptysis** 288
- Pseudo or Spurious Hemoptysis 288
- Grades of Hemoptysis 289
- Recurrent Hemoptysis 289
Contents

◊ Etiology of Hemoptysis 289
◊ Hemoptysis with Normal Chest X-Ray 291
◊ Mechanism of Bleeding 291
◊ Pathogenesis of Hemoptysis in Tuberculosis 291
◊ Diagnosis of Hemoptysis 292
◊ Treatment of Hemoptysis 294

Chapter 33
Miliary Tuberculosis 297
◊ Pathogenesis 297
◊ Pathology 298
◊ Diagnosis 299
◊ Treatment 299
◊ Complications 300

Chapter 34
Tuberculosis and Diabetes 302
◊ Epidemiology 302
◊ Effect of Diabetes on Pulmonary Tuberculosis 303
◊ Effect of Pulmonary Tuberculosis on Diabetes 304
◊ Clinical Features and Course of Tuberculosis in Diabetics 304
◊ Roentgenographic Aspects of Tuberculosis in Diabetics 305
◊ MDR-TB and Diabetes 306
◊ Effect of Antituberculosis Drugs on Blood Glucose Level and OHA in Tubercular Diabetics 306
◊ Principles of Management 306

Chapter 35
Tubercular Lymphadenitis 309
◊ Epidemiology 309
◊ Pathogenesis 310
◊ Clinical Features 310
◊ Diagnosis 312
◊ Treatment 313

Chapter 36
Tubercular Empyema 316
◊ Etiopathogenesis 316
◊ Clinical Features 317
◊ Diagnosis 317
◊ Treatment 318

Index 323
