## Section 3  Patterned Hair Loss

### Chapter 8  Classifications of Male Pattern Hair Loss

**Mrinal Gupta, Venkataram Mysore**

1. Classifications of Female Pattern Hair Loss  52
2. Classification for Pattern Hair Loss: Irrespective of Sex  54
3. Basic and Specific (BASP) Classification  54

### Chapter 9  Female Pattern Hair Loss: Clinical Features

**Aman Dua**

1. Epidemiology  57
2. Pathogenesis  57
3. Classification  58
4. Clinical Manifestations  60
5. Diagnosis  60
6. Differential Diagnosis  62
7. Laboratory Investigations  63

### Chapter 10  Genetics of Androgenetic Alopecia

**Manjot Marwah, Venkataram Mysore**

1. Genes Affecting Androgenetic Alopecia  66
2. Application in Diagnostics and Treatment  67

## Section 4  Medical Management of Hair Loss

### Chapter 11  Minoxidil

**Kumaresan M**

1. History  71
2. Structure  71
3. Mechanism of Action  71
4. Pharmacokinetics  72
5. Adverse Effects  72
6. Interactions  72

### Chapter 12  Finasteride

**Venkataram Mysore, Madhulika Mhatre**

1. Mechanism of Action or Pharmacology  74
2. Indications  75
3. Contraindications  75
4. Adverse Effects  75
5. Drug Interactions  76
6. Monitoring Guidelines  76
7. Topical Finasteride  76

### Chapter 13  Overview and Approach to Medical Management of Male Pattern Hair Loss

**Chandrashekar BS, Samipa S Mukherjee, Madura C**

1. Medical Management  79
2. Emerging Therapies in the Management of Androgenetic Alopecia  81
3. Dilemmas and Concerns in the Management of Androgenetic Alopecia  82
Chapter 14  Medical Management of Female Pattern Hair Loss  
Manjot Marwah  
Counseling  85  
Medical Management  85  
Miscellaneous Nutritional and Adjuvant Drugs  87  
Noninvasive and Semi-invasive Modalities  88  
Surgical Management  88  
Cosmetic Camouflage  89  

Chapter 15  Psychological Aspects of Hair Loss  
Manjot Marwah, Venkataram Mysore  
Current Scenario  93  
Assessment of Psychology of a Hair Loss Patient  93  
Types of Emotions in Alopecia  94  
Understanding the Psychology Behind the Emotion  94  
Body Dysmorphic Disorder  95  

Section 5  Surgical Management, Case Selection and Planning  

Chapter 16  History of Hair Transplantation  
Aniketh Venkataram, Venkataram Mysore  
Era of Punch Grafts  101  
Era of Minimicrografts  102  
Era of Follicular Unit Transplantation  102  
Era of Follicular Unit Extraction  103  

Chapter 17  The Logic of Hair Transplantation  
Aniketh Venkataram, Venkataram Mysore  
The Logic of Hair Distribution and the Follicular Unit—Donor Area  105  
Planning the Hair Transplantation  108  
Logic of Body Hair Transplantation  109  
Twelve Commandments of Hair Transplantation  109  

Chapter 18  Surgical Anatomy of the Scalp  
Sandeep Sattur  
Scalp  111  
Vasculature of the Scalp  112  
Applied Anatomy of Scalp in Hair Transplantation  114  
Properties of Mechanical Creep and Stress Relaxation  117  
Tips and Pearls  117  

Chapter 19  Case Selection, Counseling and Planning for Surgery  
Narendra Patwardhan, Vaishalee Kirane  
Case Selection  119  
Examination of Scalp  120  
Contraindications for Hair Restoration Surgery  120  
Vertex or Crown Baldness  121  
Hair Restoration Surgery in Females  121  
Follicular Unit Extraction  121
# Hair Transplantation

Body Hair Transplant 121  
Preoperative Counseling 122  
Informed Consent 122  

## Chapter 20 Preoperative Assessment for Hair Restoration Surgery 124

*Vaishalee Kirane*

- Preoperative Instructions 124  
- Preoperative Assessment to Achieve Good Hemostasis 126  
- Drug Interactions 127  
- Preoperative Medications Used for Hair Restoration Surgery 127  
- Photographic Documentation 129  
- Laboratory Tests 129  
- Informed Consent 129  

## Chapter 21 Antithrombotic Therapy and Hair Transplantation 132

*Aniketh Venkataram, Vaishalee Kirane*

- Brief Overview of Antithrombotics 133  
- Recommendations for Perioperative Management 133  

### Section 6 Donor Area: Strip Harvesting

## Chapter 22 Anesthesia in Hair Transplantation 137

*Indu Sattur*

- Pharmacology 138  
- Mechanism of Action 139  
- Delivering Anesthesia Preoperative Preparation/Sedation 140  
- Blocks for Hair Transplant Procedure 142  
- Greater Occipital Nerve Block and Donor Area Anesthesia 143  
- Tumescent Anesthesia 144  
- Tips for Painless and Safe Anesthesia 148  

## Chapter 23 Emergencies and Resuscitation in Hair Transplantation 149

*Murali Chakravarthy*

- Various Emergency Issues 150  
- General Resuscitation Plan at the Hair Transplant Theater 154  
- Documentation of the Events 155  

## Chapter 24 Donor Strip Harvesting: Planning, Preoperative Assessment and Preparation 157

*Anil Kumar Garg, Seema Garg*

- Strip Harvesting 157  
- Donor Area Assessment 158  
- Donor Hair Density 160  
- Donor Strip Size Calculation 161  
- Safe Donor Area 161  
- Demand and Supply Gap 162  
- Calculation of Hair Density 162
Chapter 25 Donor Strip Harvesting: Surgical Methods  
Anil Kumar Garg, Seema Garg
Preparation 164  
Isolation of Strip Area 166

Chapter 26 Donor Strip: Suturing Techniques  
Manoj Khanna, Vishal Purohit
Patient Positioning 172  
Suture Materials 173

Chapter 27 Trichophytic Closure  
Sandeep Sattur
Trichophytic Closure 178  
Rationale of Trichophytic Closure 178  
Anatomical Considerations for De-epithelializing of Wound Edges 179

Section 7 Donor Area: Follicular Unit Extraction

Chapter 28 Follicular Unit Extraction: Logic, Case Selection and Indications  
Kuldeep Saxena
Anatomy of Terminal Hair Follicles 186  
Principle of Follicular Unit Extraction 186  
Indications for Follicular Unit Extraction 187  
Selection of Patients for FUE 187  
Indications Other Than Androgenetic Alopecia 188  
Contraindications 189

Chapter 29 Follicular Unit Extraction: Technique and Instrumentation  
Kuldeep Saxena
Instruments and Devices 191  
Methods of Follicular Unit Extraction 192

Chapter 30 Comparison of Follicular Unit Transplantation and Follicular Unit Extraction: A Critique  
Bishan Mahadevia

Chapter 31 Dos and Don’ts of Follicular Unit Extraction  
Kapil Dua, Aman Dua, Monica Chahar
Selection of the Candidate for Follicular Unit Extraction Hair Transplant 205  
Preparation of the Donor Area 207  
Selection of Instruments 207  
Local Anesthesia 209  
Infiltration of the Donor Area 209  
Traction and Countertraction 209  
Alignment 209  
Engagement 210
# Hair Transplantation

## Chapter 32 Follicular Unit Extraction: Mega and Giga Sessions

*Aman Dua, Kapil Dua, Renu Kothottil*

<table>
<thead>
<tr>
<th>Definition</th>
<th>What are the Indications for Large Sessions?</th>
<th>Selecting the Right Candidate</th>
<th>Planning of Mega and Giga Sessions</th>
<th>Advantages of Larger Sessions</th>
<th>Disadvantages of Larger Sessions</th>
<th>Pearls for Conducting Mega and Giga Sessions</th>
<th>Complications</th>
</tr>
</thead>
<tbody>
<tr>

</table>

**Chapter 34 Magnification in Hair Transplantation**

*Sanjiv Vasa*

## Chapter 35 Graft Preservation

*Nirmal B*

<table>
<thead>
<tr>
<th>Possible Stresses Encountered by Grafts</th>
<th>Graft-holding Solutions</th>
</tr>
</thead>
<tbody>
<tr>
<td>233</td>
<td>234</td>
</tr>
</tbody>
</table>

## Section 9 Recipient Area

**Chapter 36 Design of Hairline**

*Anil Kumar Garg, Seema Garg*

<table>
<thead>
<tr>
<th>Construction of Hairline</th>
<th>Landmarks for Hairline</th>
<th>Factors to Be Considered While Designing AHL Design</th>
<th>Placement of Anterior Border of Hairline</th>
<th>Tips for Placing Mid-frontal Point</th>
<th>Frontotemporal Angle</th>
<th>Other Modifications</th>
<th>Recreating Temporal Fringe and Temporal Points</th>
<th>Parietal Hairline: Lateral Hump or Fringe</th>
<th>Anterior Hairline Zone</th>
</tr>

</tbody>
</table>
Chapter 37  Recipient Area Planning, Preformed Slit and Placement Technique of Implantation  248
   Manoj Khanna, Vishal Purohit
   Recipient Area Planning  248
   Basic Principles of Density  249
   Graft Placement  251
   Instruments to Make Slits  252
   Problems Encountered in Preslits Method  255
   Postimplantation Care  256

Chapter 38  Methods of Implantation: Stick and Place  258
   Sandeep Sattur

Chapter 39  Implanters  262
   Sanjiv Vasa
   Implanters  262
   Criteria for an Ideal Transplanter  262

Chapter 40  Overview of Different Recipient Methods of Implantation  266
   Venkataram Mysore
   Method 1: Preformed Slits and Place  266
   Method 2: Implantation by Stick and Place  267
   Method 3: Implanters  268

Section 10  Postoperative Care and Complications

Chapter 41  Immediate Postoperative Care  271
   Venkataram Mysore, Jayashree Venkataram
   Natural Course of Events  271
   Postoperative Wound Care  272
   Postoperative Edema  273

Chapter 42  Complications of Hair Restoration Surgery: An Overview  276
   Narendra Patwardhan, Vaishalee Kirane, Venkataram Mysore
   General Complications  276
   Donor Site Complications  277
   Recipient Area Complications  278
   Tips and Pearls  280

Chapter 43  Donor Area Complications of Strip Harvesting  282
   Anil Kumar Garg, Seema Garg
   Keys to Favorable Outcome  282
   Surgical Complaints  282
   Medical Complications  283
### Chapter 44 Complications of Follicular Unit Extraction
*Kapil Dua, Aman Dua, Monica Chahar*

- Indications 293
- Sequelae of Primary Surgery 294
- Donor Area Issues 295
- Dealing with the Recipient Area 302

### Chapter 45 Repeat Hair Transplant
*Kapil Dua, Aman Dua, Monica Chahar*

### Section 11 Nonscalp Areas

#### Chapter 46 Donors Other Than Scalp: Beard and Chest
*Bishan Mahadevia*

- History 307
- Body Hair Characteristics 307
- Indications for Body Hair Transplantation 309
- Preoperative Preparation in Body Hair Transplantation 310
- Surgical Pearls 311
- Postoperative Phase 311
- Limitations 312

#### Chapter 47 Facial Hair Transplantation
*Kapil Dua, Aman Dua, Monica Chahar*

- Beard and Moustache Transplantation 313
- Eyebrow Transplantation 317

#### Chapter 48 Eyebrow Restoration
*Rajesh Rajput Rajendrasingh*

- Indications for Eyebrow Transplantation 321
- Characteristics of a Natural Eyebrow 321
- Technique of Eyebrow Restoration 322
- Results 323

#### Chapter 49 Eyelash Transplantation
*Col Manas Chatterjee, Shekhar Neema*

- Anatomy 325
- Indications 325
- Contraindications 325
- Procedure 325
- Postprocedure Care 327
- Complications 328
Section 12  Special Situations

Chapter 50  Vertex Hair Transplantation  331
  *Suneet Soni*
  Anatomy  331
  Counseling Challenges in Vertex Baldness  331
  Treatment Plan for Vertex Baldness  333
  Surgical Tips in Vertex Area  333
  Postoperative Instructions  335
  Complications  335

Chapter 51  Designing the Vertex  338
  *Anil Kumar Garg, Seema Garg*
  Hair Arrangement in Vertex  339
  Angle of Implantation in Vertex  340

Chapter 52  Approach to a Patient with Early Male Pattern Hair Loss  341
  *Sandeep Sattur*
  Management of Male Pattern Hair Loss  341
  Indication for Surgery in Early Baldness  343
  Planning in Early Baldness  345
  Donor Harvest Technique  346

Chapter 53  Hair Transplantation in Female Pattern Hair Loss  349
  *Venkataram Mysore, Jayashree Venkataram*
  Special Characters of Female Pattern Hair Loss  349
  Case Selection  350
  Reconstructing Hairline  352
  Postoperative Care  352

Chapter 54  Hair Transplantation for Scarring Alopecia  353
  *Ravi Kant Bhushan, Venkataram Mysore*
  Treatment Options  354
  Case Selection  354
  Special Features of Hair Transplantation in Scarring Alopecia  354

Chapter 55  Nontransplantation Methods of Surgical Hair Restoration  357
  *Sandeep Sattur*
  Historical Background  357
  Surgical Hair Restoration  358
  Scalp Flaps  359
  Alopecia Reduction or Scalp Reduction  362
  Present Status of Nontransplantation Surgical Restoration  365
Section 13 Setting Up Hair Transplantation Practice—Management Issues

Chapter 56 Setting Up a Hair Transplant Center
Venkataram Mysore, Jayashree Venkataram

Chapter 57 Tips for Beginners Starting a Practice
Sanjiv Vasa

Chapter 58 Setting Up a Hair Transplantation Theater Unit
Venkataram Mysore, HM Omprakash
Nomenclature 378
Hair Transplantation Theater Unit Types 379
Operation Theater Etiquettes 387
Waste Disposal 387
Ergonomics 387

Chapter 59 Role of Assistants in Hair Transplantation
Anil Kumar Garg, Seema Garg
Role of Assistants 391
Role of Counselor 391
Donor Harvesting Assistant 392
Trichoscan and Assistant 392
Follow-up Visits 393

Chapter 60 Training Module in Hair Restoration Surgery
Anil Kumar Garg, Seema Garg
Microsurgery Position 394
Paper Model 395
Foam Model 395
Leaf Model 396
Implantation 397
Goat Model 399

Chapter 61 Photographing Hair Transplant Patient
Sanjeev Aurangabadkar, Venkataram Mysore
Scalp Photography 401
Basics of Photography 402
Background 402
Preparation of Patient 403
Photographing Standard Views for Global Assessment 404
Camera Type 404
Smart Phones 405
Recommendations for Digital Camera 405
Informed Consent 405
Videography 405

Chapter 62 Role of Marketing
Lakshyajit Dhami, Madhulika Mhatre
Managing a Hair Transplant Practice 407
What is Marketing? 407
Contents

Why is Marketing Necessary? 407
Attributes of an Effective Marketing Program 407
External Marketing 409
Legal and Ethical Issues in Marketing 409

Chapter 63 E-Practice in Hair Practice: Meeting the Patient on the Internet 411
   Venkataram Mysore, Annapurna T
   Internet Marketing 412
   Health Tourism 414
   Limitations of E-Practice 414
   Medicolegal Aspects 414
   Technical Difficulties Associated with Web-based Practice 414

Section 14 Miscellaneous Topics

Chapter 64 Medicolegal Issues in Hair Transplantation 419
   KH Satyanarayana Rao
   How is Hair Transplant Surgery Different from Other Surgeries? 420
   Hair Transplant Surgeon's Legal Duties to Patients 420
   What is Consent? 421
   Importance of Documentation 422
   Negligence 422
   What is Standard Care in Aesthetic Surgery? 423
   Legal Liability of a Hair Transplant Surgeon 423
   Medical Malpractice Case Against Hair Transplant Surgeon 423
   Legal Defense for Hair Transplant Surgeon 424

Chapter 65 Ergonomics in Hair Transplant Surgery 427
   Vaishalee Kirane
   Anatomy of Spine 427
   Posture 428
   Management of Spinal Problems 428
   Different Positions: Steps of Hair Restoration Surgery 429
   Ergonomics During Hair Transplantation Surgery 430
   Exercise 430
   Scalp Laxity Exercises 430
   Nutrition 431

Chapter 66 Platelet-rich Plasma in Androgenetic Alopecia 432
   Vani Yepuri, Venkataram Mysore
   Background of Platelet-rich Plasma 433
   Mechanism of Action of Platelet-rich Plasma in Androgenetic Alopecia 433
   Method of Preparation 434
   Method of Administration 435
   Platelet-rich Plasma in Hair Transplantation 436
   Evidence for Use of Platelet-rich Plasma in Androgenetic Alopecia 436
   Limitations 436

Chapter 67 Synthetic Hairs: Their Role in Hair Restoration 438
   Venkataram Mysore, Vani Yepuri
   What are Implants? 438
   History 438
Chapter 68 Hair Camouflage

Vrushali Maisarkar

Hair Camouflage 441
Hair Additions 442
Hair Camouflaging Agents 444

Appendices

Appendix A: Consent Forms and Patient Counseling Brochures 447
Venkataram Mysore

Appendix B: List of Instrument Manufacturers 462
Ravi Kant Bhushan

Index 467
