# Contents

1. An Overview  
   - Values and Role of Infectious Disease Specialty  1

2. Febrile Illnesses  
   - Acute Onset Fever with no Focus of Infections  5  
   - Fever Illnesses with Skin Rashes (Infectious Exanthematous Febrile Illnesses) 6  
   - 2014–2015: KIMS-Reported ID Illnesses to Health Department (DMO) 10

3. Fever Beyond Malaria in Indian Hospital Settings  
   - Enteric Fever (Typhoid and Paratyphoid)  11  
   - Scrub Typhus (Mite Borne)  12  
   - Leptospirosis  14  
   - Brucellosis  15

4. Mosquito-borne Diseases  
   - Malaria  17  
   - Dengue  20  
   - Chikungunya Virus  23  
   - ZIKA Virus  26  
   - Yellow Fever Virus  27  
   - Japanese Encephalitis Virus, West Nile Virus and St Louis Encephalitis Virus  28

5. Tick-borne Diseases  
   - Spotted Fever Rickettsioses  30  
   - Rocky Mountain Spotted Fever  30  
   - Lyme Disease  31  
   - Relapsing Fever (Tick and Louse-borne)  32  
   - Babesiosis  33  
   - Ehrlichiosis and Anaplasmosis  34  
   - *Borrelia miyamotoi* Disease  34
6. **Hemorrhagic Febrile Viral Illnesses** 35  
   - Viral Hemorrhagic Fevers 35  
   - Crimean-Congo Hemorrhagic Fever 36  
   - Hantavirus 36  
   - Marburg and Ebola (Filoviruses) 37

7. **Bacterial Sepsis/Meningitis: Targeted, Empiric and Specific Antibiotics** 39  
   - Clinical Presentation 39  
   - Treatment of Sepsis and Septic Shock 40  
   - Focal Central Nervous System Infections (Brain Abscess) 46

8. **Skin and Soft Tissue Infections in Adults/Children** 48  
   - Erysipelas and Cellulitis: *Staph. aureus* Overview and MRSA 48  
   - *Staphylococcus aureus* Infections 50  
   - Community-associated MRSA [CA-MRSA] 50  
   - Necrotizing Fasciitis 51  
   - Toxic Shock Syndrome 52

9. **Animal and Human Bites and Scratches** 55  
   - Animal Bites 55  
   - Human Bites 56

10. **Acute Pharyngitis, Otitis Media and Mastoiditis** 57  
    - Strep Throat 57  
    - Acute Otitis Media and Mastoiditis 59  
    - Antimicrobial Prophylaxis for Recurrent Otitis Media 64

11. **Infections of the Respiratory System** 65  
    - Pertussis 65  
    - Community-acquired Pneumonia 66  
    - Legionellosis (Legionnaire’s Disease) 73  
    - Pediatric Pneumonia 74

12. **Mycobacterium tuberculosis Infection** 78  
    - Clinical Manifestations: Key Points 78  
    - Diagnostic Testing 79  
    - Culture and other Microbiologic Tests 80
13. Childhood Tuberculosis 83

14. Nontuberculous Mycobacterial Infections 84
   • Mycobacterium kansasii 87
   • Rapidly Growing Mycobacteria 87

15. Infective Endocarditis Prevention 88
   • Management of Patient with Bloodstream Infection Documented Infective Endocarditis 88
   • Recommended Prophylactic Regimens 89

16. Gastrointestinal Infections 90
   • Bacterial Viral Parasitic 90
   • Bacterial 92
   • Viral Gastroenteritis 99

17. Urinary Tract Infections 101
   • Urinary Tract Infection in Adults 101
   • Urinary Tract Infection in Children 104

18. Bone and Joint Infections 105
   • Arthritis/Osteomyelitis/Vertebral/Prosthetic and Diabetic Joint Infections 105

19. Viral Infections (Systemic) 109
   • Measles and Rubella 109
   • Influenza Viruses (Flu) 110
   • Coronaviruses (CoVs), Including SARS, MERS and RSV 119
   • Respiratory Syncytial Virus 121
   • Hepatotrophic Viruses Type A, B, C, D and E 122
   • Type B (HBV) 123
   • Type Hepatitis D Virus 133
   • Cytomegalovirus Epidemiology and Transmission 134
   • Herpes Simplex Viruses 136
   • Varicella-Zoster Virus 137
   • Ebola 141
   • Epstein-Barr Virus 141
   • Human Immunodeficiency Virus and Acquired Immunodeficiency Syndrome 142
20. **Fungal Infections (Systemic)** 146
   - Systemic Candidiasis 146
   - Aspergillosis and Aspergilloma 147
   - Mucormycosis 148
   - Cryptococcosis 149
   - Blastomycosis 149
   - Histoplasmosis 150
   - Coccidioidomycosis 151
   - Sporotrichosis 151

21. **Parasitic Infections** 152
   - Amebiasis 152
   - Giardiasis 154
   - Cryptosporidiosis 154
   - Leishmaniasis 155
   - Toxoplasmosis 156

22. **Hospital-acquired Infections and Healthcare-associated Infections** 158
   - Important Hospital-acquired Infections 159
   - Specific Hospital-acquired Infections Prevention aspects 162
   - Surgical Site Infections 165
   - Ventilator-associated Pneumonia and Hospital-acquired Pneumonia 166
   - Multidrug-resistant Organisms 166
   - Gram-negative MDROs 168

23. **Doctrine in Anti-infective Therapy and Newer Drugs** 170
   - Clinical Pearls 170
   - Newer Drugs and New Uses for Older Drugs 172
   - Antibiotic Dosing 177
   - Antimicrobial Stewardship 178

24. **Infections in Transplant Recipients** 180
   - Preamble 180
   - Infections in Transplant Recipient 181
   - Pathogens in Transplant Infections 181
   - Antirejection Drugs in Transplant Recipients 182
   - Parasitic Infections (Protozoa and Helminthes) 194
   - Prevention of Infection in Transplant Recipients 196
25. Repeated Infections (Due to Immunodeficiencies) 197
   • Primary Immunodeficiency 197
   • Selective IgA Deficiency 198
   • Common Variable Immunodeficiency 198
   • In Patients with Suspected Chronic CVID 198
   • Defects in T-cell and B-cell Development and Proliferation 199
   • Severe Combined Immunodeficiency 199
   • Complement Deficiencies 199

26. Reproductive and Obstetrical Infectious Diseases 200
   • Bacterial-viral-congenital Infections 200
   • Bacterial Maternal Group B Streptococcus (GBS) and Others 200
   • Neonatal Group B Streptococcus 203
   • Laboratory GBS Testing and Diagnosis Aspects 203
   • Group B Streptococcus Prevention Guidelines 204
   • Listeriosis (Listeria monocytogenes) 204
   • Lessons for the Clinician 205
   • Syphilis 206
   • Gonococcal Infections 207
   • Trichomonas vaginalis 207
   • Chlamydia 208
   • Bacterial Vaginosis 209
   • Vulvovaginal Candidiasis 210
   • Urinary Tract Infections 210
   • Pelvic Inflammatory Diseases 211
   • Tuberculosis Care during Pregnancy and Breastfeeding 212
   • Congenital Infections 215
   • Shell Vial Assay 218
   • Maternal Cytomegalovirus Infection: Management Decision 220
   • Hepatitis B Virus and Hepatitis C Virus 222
   • Parvo B19 Congenital Infections 229
   • Parasitic Infections 235

27. Prion Diseases of the Central Nervous System (Creutzfeldt-Jacob Disease) 241
   • Prion or Transmissible Spongiform Encephalopathies 241
28. **Microbiome (Bacterial Community Interactions: Human Microbiota, Human Microbiome, Biofilms)** 244
   - Microbiota Versus Microbiome 244

29. **Vaccinology: Principles and Practice** 246
   - Childhood Immunization Overview 246
   - Adult Vaccinations 255
   - Vaccine Highlights and Remarks [Updated Immunization Schedules for 2016] 256
   - Travel Vaccination 267
   - Vaccines for High-risk 268
   - Vaccine Safety in Transplant Patients 272
