Exam Preparatory Manuals for Undergraduates

www.jaypeebrothers.com
Inderbir Singh’s Human Embryology
by Devi

Salient Features
• Complete coverage of Medical Council of India (MCI) competencies.
• Multiple choice questions (MCQs) at the end of each chapter.
• Quick review and self-assessment at the end of each chapter.
• Organized flowcharts and tables for easy review.
• Additional relevant clinical images for real-time understanding.
• Additional clinical case scenarios.
• Illustrated poster included.

Inderbir Singh’s Textbook of Human Histology
With Color Atlas and Practical Guide
by Pushpalatha K, et al.

Salient Features
• As per revised MCI curriculum.
• The text has been presented in a concise, bulleted format that makes for easy readability.
• Optic nerve and umbilical cord added as per Medical Council of India (MCI) requirements.
• Core highlight of this edition is addition of easily reproducible hand drawn diagrams of 93 Histology Slides (in an Atlas provided in the beginning) that an undergraduate student witnesses in the practical class for practical record writing and during examination.
• Identification Points and Learning Objectives are added in the beginning of every chapter that aids in slide identification, last minute revision and during spotters.

Inderbir Singh’s Textbook of Clinical Neuroanatomy
by Kapoor

Salient Features
• As per the Competency Based Medical Education Curriculum (NMC).
• Competency tables added at starting of each chapter.
• Increased number of new figures, flowcharts and diagrams.
• Detailed clinical case scenario present in each chapter.
• Increased MCQs, Short notes and Long notes in each chapter.
• Separate chapter on neuroimaging.
• Neuroimaging modalities covered.
• Clinical case scenarios for practical approach.

Textbook of General Anatomy
by Devi

Salient Features
• As per the Competency Based Medical Education curriculum (NMC).
• First of its kind with broad outline of introductory remarks for each topic that they learn subsequent regions of anatomy.
• Complex anatomical stuff in the form of simplified tabular/flowchart forms.
• Each chapter contains learning objectives with clinical relevance; clinical implications and case scenarios that will aid the reader to cope with competitive examinations; along with self-assessment questions, and take home message (key concept).
• Interesting topics covered, such as surface anatomy; advanced radiological anatomy; basics of dissection and introduction of dissection apparatus/instruments with self-explanatory images.
Inderbir Singh’s Textbook of Anatomy (3 Vols.)
by Devi

Vol. 1: Upper Limb and Thorax
Vol. 2: Lower Limb, Abdomen and Pelvis
Vol. 3: Head & Neck and Neuroanatomy

Salient Features

• **Learning Objectives** added in the beginning of every chapter to specify what student should learn from that chapter.
• **Surface Anatomy and Dissection steps of the region** wherever required are explained in brief in separate boxes.
• To simplify the understanding of anatomical basis of clinical practice, all chapters are provided with **real life case scenarios, questions and explanation.**
• **Review or Practice Questions** given at the end of every chapter that include long answer and short answer questions and a few practice diagrams.
• **Multiple Choice Questions** are given at the end of every section.
• **Take Home Message** provided at the end of each chapter for quick recap.

Anatomical charts with all three volumes for better understanding of Human Anatomy

Full Colour | Paperback | 7/e, 2019 | 8.25” × 10.5” | 1750 pp | 9789389188431
(Vol. 1: 548 pp | 9789389034998) (Vol. 2: 578 pp | 9789389129007)
(Vol. 3: 624 pp | 9789389129014) | Price: ₹ 995 (each)

Histology
Practical Manual
by Shetty & Poonja

Salient Features

• **New slides added as per the Medical Council of India (MCI) curriculum.**
• Contains hand-drawn H & E diagrams of all the slides which are included in the syllabus for undergraduate students.
• Short specific identification points for each slide have also been given.
• Identification points which are must know for an undergraduate medical student about the structure and function of the tissue have also been added.
• This book will help to make histology record drawings easy for most of the students.

Full Colour | Paperback | 4/e, 2019 | 11” × 8.5” |
170 pp | 9789389188035

Principles of Clinical Genetics
by Sontakke

Salient Features

• **As per the Competency Based Medical Education Curriculum (NMC).**
• Competency tables added at starting of relevant chapters.
• Karyotype images added to illustrate utility of karyotyping.
• Topics like gene therapy, stem cell therapy, genetic counselling, recent techniques in genetic diagnostics present.
• A chart on high yielding facts provided with book.
• Numerous illustrations and flowcharts
• NExT and Viva markings present
• Appendices present
• Assignments to practice important topics present

Full Colour | Paperback | 2/e, 2022 | 6.75” × 9.5” |
164 pp | 9789354652509

**Inderbir Singh’s Textbook of Human Osteology**  
With Atlas of Muscle Attachments  
by Kumar

**Surface and Radiological Anatomy with a Clinical Perspective**  
by Appaji & Kulkarni

**Dissection Manual With Regions & Applied Anatomy (3 Vols.)**  
by Navis

**Practice Manual of Human Microanatomy**  
by Kohli & Mahajan

---

**Surface and Radiological Anatomy with a Clinical Perspective**

- **Salient Features**
  - As per the Competency Based Medical Education Curriculum (NMC).
  - Many images of various pathologies that can be identified by radiological investigations are added.
  - New chapter on Ossification centers.
  - New chapter on Dermatomes.
  - Clinical correlation with every surface anatomy.
  - Newer imaging techniques such as PET, MRI, contrast MRI, PET CT and OCT.
  - Detailed coverage of Latest imaging modalities.
  - Numerous radiological images for better student understanding.
  - Well-presented chapters with clinical orientation.

---

**Dissection Manual With Regions & Applied Anatomy (3 Vols.)**

- **Salient Features**
  - Volume I explains well about the cadaver dissections of the upper extremity and thorax in a simple format with different regions, the osteology, cutaneous nerves, muscles, nerves, blood vessels, joints, thoracic viscera and their relations with the clinical importance.
  - Volume II explains well about the cadaver dissections of the lower extremity, abdomen, pelvis and perineum in a simple format with the osteology, cutaneous nerves, muscles, nerves, blood vessels, joints, abdominal and pelvic viscera, glands, male and female reproductive organs with their relations, the urogenital and anal triangles in male as well as female with the clinical importance.
  - Volume III explains well about the cadaver dissections of the head, neck and brain in a simple format, explains the different regions, with osteology, cutaneous nerves, muscles, nerves, blood vessels and joints, the neuroglia, different parts of the brain, their relations and functions with the clinical importance.

---

**Practice Manual of Human Microanatomy**

- **Salient Features**
  - Thoroughly revised, edited and updated text and figures.
  - Presented text in a structured and lucid manner for easy-to-handle approach.
  - Amply supported with relevant diagrams and numerous tables for better understanding and easy recall.
  - Included color plates at the end of each section for revision of muscle attachments and functional anatomy.
  - Brief account of important clinical considerations with images at the end of each chapter to generate interest of the students in studying osteology.
  - Provided questionnaire to prepare students for viva-voce examinations.

---

**Inderbir Singh’s Textbook of Human Osteology**

- Full Colour | Paperback | 4/e, 2019 | 6.75” × 9.5”  
  - 380 pp | 9789352705368  
  - ₹ 695

**Surface and Radiological Anatomy with a Clinical Perspective**

- Two Colour | Paperback | 2/e, 2022 | 6.75” × 9.5”  
  - 232 pp | 9789354655180  
  - ₹ 495

**Dissection Manual With Regions & Applied Anatomy (3 Vols.)**

- Full Colour | Paperback | 1/e, 2018 | 8.5” × 11”  
  - (Vol. 1: 216 pp | 9789386150363)  
  - (Vol. 2: 244 pp | 9789386150370)  
  - (Vol. 3: 294 pp | 9789386150387)  
  - ₹ 1595 (set)

**Practice Manual of Human Microanatomy**

- Full Colour | Paperback | 4/e, 2019 | 6.75” × 9.5”
  - 380 pp | 9789352705368
  - ₹ 695

Textbook of Biochemistry for Medical Students
by Vasudevan, et al.

Salient Features
- As per revised MCI curriculum.
- Rapid advances in the area of molecular biology have been incorporated.
- Specific Learning Objectives provided at the beginning of each chapter to specify what student should learn from that chapter.
- Color coding used to represent enzyme names instead of numbers for better readability, i.e. Enzymes represented with Green color; By Products with Red Color, and Compound Names with Black Color.
- Major pathways have been collated at a single place to make it more reader friendly.
- 1200 figures, 200 tables and 200 boxes altogether making the book more student-friendly.

Full Colour | Paperback | 9/e, 2019 | 8.25" × 10.75"
844 pp | 9789389034981

Competency-based Comprehensive Manual of Practical and Clinical Biochemistry
by Sharma & Sharma

Salient Features
- As per revised MCI curriculum.
- Contains nine sections, inclusive of all core components of practical and clinical biochemistry.
- Each chapter further explains specific competencies, learning objectives, level of learning and learning domain involved in clinical and practical biochemistry.
- Basic laboratory principles: It would enable students to know about apparatus and equipment used in the laboratory, good and safe laboratory practice and waste disposal system in laboratory, quality assurance and quality control in clinical biochemistry.
- Qualitative and quantitative experiments and their clinical interpretation with early clinical exposure including case studies and viva voce questions.

Single Colour | Paperback | 2/e, 2021 | 8.5" × 11"
270 pp | 9789352700554

Practical Textbook of Biochemistry for Medical Students
by Vasudevan & Das

Salient Features
- Comprises concise contents aimed at undergraduate students.
- As per syllabus recommended by the Medical Council of India.
- Relevant clinical correlations are given in respective chapters.
- Diagrams are presented with precise and lucid manner.
- A total of 45 clinical case studies are offered.
- Normal laboratory values are accessible in the appendix.
- Relevant advanced content included to stimulate active learning for above-average students.
- Large font size for easy reading.
- High quality paper for less eye strain.

Single Colour | Paperback | 3/e, 2020 | 8.25" × 10.5"
294 pp | 9789352705146

Biochemistry
by Naik

Salient Features
- As per revised MCI curriculum.
- All chapters from the fourth edition have been updated as per the new MBBS curriculum.
- Each chapter starts with ‘Objectives’ to guide students to study and summarize the content of the chapter easily.
- All the relevant mechanisms, theories and concepts are described with the help of schematic diagrams.
- The important clinical and applied aspects of the topic are highlighted in the colored boxes.
- ‘Strike a Note’ depicts additional significant information.

Full Colour | Paperback | 5/e, 2019 | 8.5" × 11"
726 pp | 9789389188318

Practical Clinical Biochemistry
Methods and Interpretations
by Chawla

Salient Features
• As per revised MCI curriculum.
• Thoroughly revised in view of the latest developments in the field of biochemistry.
• More than 400 Case Reports and Viva Questions with detailed explanations.
• Topics added as per revised Medical Council of India (MCI) guidelines for undergraduate curriculum.
• New chapters on Lean Six Sigma Approach for Clinical Laboratories, Anemia Profile, Bone Markers, Components Associated with Research Work and its Publication, etc. have been added.

Clinical Biochemistry
by Maheshwari

Salient Features
• A student-friendly book on the subject.
• Covers length and breadth of clinical biochemistry.
• Presents the text in the descriptive style with simple language.
• Explains latest techniques and instrumentation in synchronization with the practical testing methods.
• Introduces highly useful chapters on biostatistics, vitamins, body fluids and thyroid tests, etc.
• Simplified the text with diagrams and color plates.

Essentials of Biochemistry
by Naik

Salient Features
• As per the revised NMC curriculum.
• Thoroughly updated and presented in a two-color format.
• Furnish the readers a logical sequence of events that aids learning and memorize.
• Exam-oriented biochemistry text for medical students.
• Written in a simplified and easily understandable format and divided into 34 chapters which cover the syllabus recommended by the Medical Council of India.
• Diagram-based explanations, flow-charts and tables will help the students to understand and remember easily.
• Provides list of laboratory tests, normal ranges and their clinical use.

Comprehensive Textbook of Medical Physiology (2 Vols.)
by Pal, et al.

Salient Features
• The present edition is thoroughly revised in the light of new MCI 2019 guidelines for undergraduate medical curriculum.
• Learning Objectives of each chapter have been totally revised to make them more specific, divided into ‘Must Know’ and ‘Desirable to Know’ categories.
• Applied aspects are highlighted in ‘Application Boxes’, and Clinical Applications (patient and disease related concepts) are highlighted in ‘Clinical Boxes’.
• Addition of new chapters, mainly to integrate more applied and clinical topics, based on the new curriculum of MCI, 2019 and to facilitate early clinical exposure. New chapters added are on lymphatic system and lymphatic circulation, aviation and space physiology, blood pressure variability and baroreflex sensitivity, cyanosis, blood glucose homeostasis and patho-physiology of diabetes mellitus, electroretinography and visual-evoked potential, early clinical exposure and principles of energy metabolism.
• Early Clinical Exposure in Physiology has been described at the end as a separate chapter.
• Over 1400 schematic diagrams and graphs.

Ghai’s Textbook of Practical Physiology
by Varshney & Bedi

Salient Features
• Text has been revised and updated as per recent Medical Council of India (MCI) guidelines.
• Includes well-labeled diagrams, flowcharts and actual graphs of amphibian practicals.
• Objective Structured Practical Examination (OSPE) has been added at the end of each practical.
• Important points are highlighted in colored Boxes throughout the text as Notes/Comments.
• New section on Sample Problem Solving has been added.

Essentials of Medical Physiology
by Sembulingam & Sembulingam

Salient Features
• Thoroughly revised with recent findings in the field of Physiology.
• Fully updated with pathophysiological facts in accordance with the modern curriculum of medical education.
• Enriched with many new boxes containing important facts, particularly in Applied Physiology.
• Includes more tables and flowcharts formatted in new attractive style.
• Well-illustrated chapters with beautiful descriptive color diagrams.
• A real state-of-the-art book with approximately 600 color diagrams.

**Physiology**

---

**Human Physiology for Medical Students**  
by Geetha

**Salient Features**

- Thoroughly revised as per NMC curriculum implemented in 2019.
- Hand-drawn diagrams by the author with apt colors.
- Simple language used so that all categories of students can follow.
- Applied aspects included in all the chapters.
- Multiple choice questions given at the end of each chapter.
- Clinical photographs included in relevant topics.
- More flowcharts included for easy remembrance.
- Exam-oriented name the following, fill in the blanks and give the normal value questions included at the end of each section.

**Principles of Physiology**  
with Free Practical Manual of Physiology  
by Pramanik

**Salient Features**

- An updated account of the diverse topics of physiology.
- Written in a lucid and student-friendly way.
- Applied aspects and important concepts have been displayed in colored boxes for quick glance.
- Many relevant new diagrams, flowcharts and tables have been added.
- A special section on ‘Advanced Topics’ has been provided for the undergraduate students and postgraduate trainees.
- Self-assessment exercises including long questions, short notes, and multiple choice questions with answers have been incorporated at the end of each section.

---

**Practical Physiology**  
by Geetha

**Salient Features**

- This book is clinically oriented laying emphasis on the physiological basis of observation.
- Clinical conditions have been explained along with full color photographs and illustrations.
- Demonstrates practical on animal experiments along with graphs and records of the same.
- Viva-voce questions with answers are included at the end of each experiment.
- Includes original graphs and charts.
- Scheme of practical examination (based on university model) with sample questions are provided in the last chapter.

**Practical Physiology**  
A Student’s Workbook  
by Varshney & Bedi

**Salient Features**

- As per revised MCI curriculum.
- Important terms are highlighted in bold.
- Key concepts are given in the form of text boxes as a separate Note.
- Physioclinical Significance is integrated throughout the text.
- Graphs, charts, colored dia-grams and flowcharts have been incorporated to illustrate the essential concepts.
- Actual photographs of instruments and clinical examination have been added.
- Study questions and answers are provided at the end of each chapter.
- Objective Structured Practical Examination (OSPE) and Objective Structured Clinical Examination (OSCE) have been added wherever applicable.

IAPSM’s Textbook of Community Medicine by Kadri

Salient Features

• Crisp and precise, consolidating the essential topics and removing dead woods and less relevant topics.
• Designed and prepared by the group of current teachers of community medicine; who are better aware about needs and issue pertaining to community medicine teaching.
• This is the only textbook based on competency-based curriculum for community medicine, as prescribed by National Medical Commission.
• Inclusion of newer topics pertaining to communicable and non-communicable diseases like Epidemiology of emerging diseases (including COVID-19) and its prevention and control, Epidemiology of COPD and its prevention and control, Screening and Surveillance of NCDs, Food safety, etc.

Essentials of Community Medicine Practicals by Mahabalaraju

Salient Features

• Thoroughly revised well organized to accomplish the competency-based undergraduate (UG) and postgraduate (PG) training preamble of Medical Council of India (MCI) and Indian Universities.
• Chapter on research writing is extremely useful gateway for undergraduates in project assignment and postgraduates in dissertation writing.
• Concepts are explained accurately, clearly and completely.
• Simple language, attractive style, palatable presentation in depth and understandable explanation, attract the attention of looker and turns them into a reader.
• Many new chapters have been added with up-to-date information to enhance the usefulness of the book

Community Medicine with Recent Advances by Suryakantha

Salient Features

• Cover page reminds the reader about some of the stalwarts, who have contributed to the public health, in terms of lives that can be saved.
• As per the title, the book encompasses the recent advances in the field of community medicine.
• The exquisite flowcharts, diagrams, pictures and tables with lucid language makes the reading very easy.
• Reading clarifies the doubts and confusions thereby makes the subject matter interesting, giving a pleasurable experience.
• Comprehensive covers the syllabus as recommended by Universities and National Medical Commission.
• It is not only student friendly but also teacher friendly.

An Ultimate Guide to Community Medicine by Maiti & Mondal

Salient Features

• A comprehensive guide to community medicine for undergraduates.
• Exhaustive coverage of questions commonly asked in theory examinations.
• Separate chapters assimilating different patterns of theory questions.
• In-depth discussion about all the topics asked in practical and viva voce.
• Written in an easily accessible manner and illustrative way.
• Includes annexures on Drug of choice for communicable diseases, and most commons in community medicine for quick glance.

CM Francis  
**Medical Ethics**  
by Gupta

**Salient Features**

- Complete handbook on “Ethics in Medical Profession”.
- Includes latest MCI Regulations on “Professional Conduct, Etiquettes and Ethics”.
- Follows the new “Graduate Medical Education Regulations, 2018”.
- All the chapters have been updated and expanded.
- Addresses the issues of health care in the modern world.
- Useful in the teaching and learning of Medical Ethics.
- Enables the healthcare professionals to serve their patients and the society in a better way.
- Recommended by various Universities of Health Sciences in India and abroad.

**CM Francis Medical Ethics**  
As per revised MCI curriculum

AC’s Introduction to Clinical Medicine  
(For MBBS I and II)  
by Chalise

**Salient Features**

- Presents a comprehensive contents to cover the syllabus.
- Includes boxes to highlight important points of the text.
- Explains various procedures with the help of high-quality line diagrams.
- Also includes chapters on Common Diagnostic Tests and Basics of the Electrocardiogram.
- Provides 275 Multiple Choice Questions with solutions, previous years’ papers with solutions and hints, and probable questions that cover entire syllabus.

**LOG Book for 1st MBBS**

**Student’s Manual MBBS**

*Foundation Course by Jindal*

**Salient Features**

- Enables the learner to maintain a record of daily activities, and also provides faculty member adequate feedback of how successful the teaching learning during foundation course.
- Ensures proper concept building in the mind of the student.
- Each module has objectives prescribed by the Board of Governors in super-session of MCI.
- Both students and faculty members will find this logbook useful.

**Price**

Single Colour | Paperback | 1/e, 2022 | 8.5” × 10.75”
652 pp | 9789354651854

**LOGBOOK Foundation Course**

*for First MBBS Students by Yogesh D*

**Salient Features**

- This logbook is intended for the use of first year medical students who join MBBS course from the year 2019 and is prepared as per the guidelines for implementation of foundation course as per Graduate Medical Education Regulations.
- This logbook will help students record their opinions on the topics covered, and the teaching methods used to achieve competencies and learning outcomes.

**Price**

Single Colour | Paperback | 1/e, 2020 | 8.5” × 11”
200 pp | 9789389188820

**Competency Based Logbook**

*for 1st Professional MBBS by Singh & Singh*

**Salient Features**

- Pre-defined competencies for recording the activities conducted in a simple tabulated format based on NMC Logbook module.
- Separate section provided for competencies needed for certification in each subject.
- Separate section provided for early clinical exposure (ECE) and self-directed learning (SDL), and with ample space for reflective writing of the respective subjects.
- Separate section of pandemic management module and infection control practices for 1st year MBBS with module and reflective writing space.
- Separate section of AETCOM for 1st year MBBS with modules and reflective writing space.

**Price**

Single Colour | Paperback | 1/e, 2022 | 8.5” × 11”
210 pp | 9789354654169

**LOG BOOK**

*for MBBS Students by Panwar & Gupta*

**Salient Features**

- In accordance with the new competency-based undergraduate curriculum as per MCI.
- Designed to introduce students with the structure of foundation course modules, the details of the learning outcomes to be achieved, design of the MBBS program, phase-wise distribution of subjects and marks, teaching hours allotted to each subject, the examination schedule, a record of the 2-month’s elective capsule, sheets for maintenance of attendance record, summative assessment of 8 terms from first year to final year MBBS course.
- Students are instructed to fill in their log book and get it signed by their mentor, Head of the Department and Dean of the Institute.

**Price**

Single Colour | Paperback | 2/e, 2021 | 8.5” × 11”
114 pp | 9789390281299
