Handbook of Clinical Trials in Ophthalmology

Author: Vinod Kumar

Two Color | Paper Back | 2/e, 2022 | 442 Pages | 6.25" x 9.5" |

9789390595075 | Price- Rs. 1795 | Discount Cat: D

ABOUT THE BOOK

This book offers every clinical ophthalmologist complete guidance as it compiles the results of the latest multicenter clinical trials in the practice of ophthalmology with relevant references. The trials have been organized into chapters, covering all ophthalmic sub-specialties. Each pertinent trial is described under similar subject headings/styles and has been formatted accordingly for easy reading and recall. A summary at the end of each chapter has been provided for easy reference. All the major and latest clinical trials have been recorded.

KEY FEATURES

- Inclusion of all major clinical trials in all subspecialties of ophthalmology compiled together for ready reference.
- Facts pertaining to these trials (including description, results, etc.) are presented without any modification.
- Each trial/study is described under common headings and arranged chronologically or in order of significance.
- Proper referencing has been provided for further reading.
- Tables providing the summaries of the trials "at glance" have been given at the end of each chapter.

READERSHIP

- Ready reckoner before examinations, viva, interviews for all ophthalmology residents, fellows, teachers, and clinicians.
