ABOUT THE BOOK

This textbook is written in lucid and comprehensive language with many case studies, diagrams, and tables to make it interesting and easy to grasp. Many newer topics are included, relevant to modern needs.

KEY FEATURES

- Designed and prepared by the group of current teachers of community medicine.
- Based on competency-based curriculum for PSM, as prescribed by National Medical Commission.
- Divided into 5 sections: Basics of Health and Diseases, Core and Allied Sciences, Community Health Problems and Vulnerable Groups, Community Health Management, and Managing Community Health.
- Use of most recent and up to date data, including use of ICMR-NIN 2020 Expert Recommendations for Nutrition, SRS Bulletin Reports 2020, Annual Reports 2020 for Communicable and Non-communicable diseases, WHO Global Reports 2020, Global Health Observatory Data 2020, etc.
- The key references and sources for all data is now cited alongside the text only.
- Inclusion of newer topics pertaining to communicable and non-communicable diseases like Epidemiology of emerging diseases (including COVID-19) and its prevention and control, Epidemiology of COPD and its prevention and control, Screening and Surveillance of NCDs, Food safety, etc.
- Supported by case studies, illustrations, figures, flowcharts, key messages, etc.

READERSHIP

- Medical Graduates and allied health sciences students
