### ABOUT THE BOOK

The primary objective of this book is to meet the requirements of Diploma in Medical Laboratory Technology (DMLT) and undergraduate students. This book is successfully serving as a reference book for Laboratory Technicians and Paramedical professionals.

### KEY FEATURES

- An asset for DMLT, UG medical students and laboratory technicians for practical understanding.
- Covers length and breadth of Clinical Pathology, Hematology and Blood Banking.
- Explains latest techniques and instrumentation in synchronization with the practical testing methods.
- Includes useful chapters on sputum examination, bone marrow, hemoparasites, hemoglobinopathies, etc.
- All concepts are supported with relevant line diagrams and figures for easy understanding.
- Numerous flowcharts and tables make the content easy to remember and recall during exams.
- Latest techniques on automation in Pathology, Hematology and Blood Banking are added.
- Learning objectives and keywords for each chapter makes the goal clear for the students.
- Donor form and bone marrow sample report is provided.
- Four star plus ratings by actual users on online platforms (reference Amazon, Flipkart and Snapdeal).
- Included in the recommended books for many universities, paramedical courses and online Platforms.

### READERSHIP

- DMLT, MLT and BSc students
