Single Color | Paper Back | 3/e, 2022 | 462 Pages | 8.5" x 11"

9789354650659 | Rs. 1295 | Discount Cat: B

### ABOUT THE BOOK

This edition has many new features added to it including the addition of multiple chapters on hemato-pathology, recent advances and image-based questions. The chapters on pathology, novel therapies, stem cell transplantation and self-assessment have been expanded. The questions have been collected and provided by the contributors who are experts in their respective fields. The explanations and references have been collected from the standard textbooks and various recent guidelines in hematology and oncology.

This book will help not only those preparing for specialization in clinical hematology and hemato-oncology but also those who want to study and prepare for various competitive examinations in hemato-pathology, medical oncology, laboratory medicine, clinical pathology, consultative hematology, transplant biology and immunohematology.

### KEY FEATURES

- Covers all aspects of Hematology including benign, malignant and consultative hematology.
- Helpful for those preparing for USMLE, PLAB, NEET, MD entrance examination/Fellowship in internal medicine, and MD in transfusion medicine.
- Helpful for those preparing for specialization in Hematology, including those preparing for DM, DNB, FNB, Fellowship in clinical-hematology, hemato-oncology and hemato-pathology.
- The book has been divided into various sections and the questions have been answered and explained in detail, followed by self-assessment section, and the tables at the end of the book for quick revision.
- Image-based questions are new feature of this edition.

### READERSHIP

- Useful for DM/DNB/FNB/MD/Fellowship entrance exams (including USMLE, PLAB, NEET, AIIMS, PGIMER)
