ABOUT THE BOOK

NNF Clinical Protocols in Perinatology is a practical and composite book for the diverse health professionals taking care of mothers' fetuses and neonates. This is a unique book with all its chapters contributed by both neonatologists and obstetricians. The contents of the book are very useful for the pediatricians, neonatologists, fellows, and postgraduates in their day-to-day practice.

KEY FEATURES

- A comprehensive compilation disseminating information with regards to management of mother and infant during the perinatal period.
- Each chapter is an amalgamation from the expertise of an obstetrician and neonatologist.
- Recent available information from various resources are presented in easy-to-know format
- Provides structured presentation of chapters including objectives and summary
- Important references are listed at the end of every chapter for further reading.
- Book is being brought out by National Neonatology Forum (NNF) of India.

READERSHIP
