ABOUT THE BOOK

The 3rd edition of this textbook has been entirely re-written from scratch. The book harnesses the collective expertise of a number of pediatric cardiac experts in the country, many of whom are experienced teachers in leading academic institutions. The content has been completely re-organized and greatly expanded. There are 55 chapters in total. Several new chapters have been added to this edition. These include chapters on screening, counseling of parents, pediatric cardiac intensive care and common problems in office practice.

KEY FEATURES

- Completely redesigned and rewritten: This third edition is entirely redone from scratch.
- Conveniently organized and accessible content that is easy to comprehend.
- Contextual: Written especially for postgraduates in Pediatrics seeking to understand pediatric cardiology.
- Comprehensive: Covers all facets of pediatric cardiac care that include cardiac surgery, intensive care and catheter interventions.
- Contemporary: Several new chapters such as screening, parental counseling, and office practice.

READERSHIP

- Pediatricians and postgraduate students
