ABOUT THE BOOK

Pediatric Nursing Procedure Manual promotes nursing as an evolving art and science, directed to child health and well being. The primary objective of this book is to prepare nurses who combine the highest level of scientific knowledge and technological skills with responsible-caring practice.

KEY FEATURES

- Book is prepared according to the revised INC BSc Nursing syllabus.
- Comprehensive procedures prepared for both undergraduate and postgraduate nursing students.
- Contains 37 procedures and each procedure is designed as a chapter.
- Current information is given on newly introduced procedures, such as pediatric drug calculation, family assessment, assisting with common diagnostic procedures and so on.
- All the chapters are illustrated with figures.
- Serves as a reference manual for the practicing nurses.
- Nursing educators will find it easy to teach their students and prepare them for the examinations.
- This book will also bring a uniform standard of the nursing education in India.
