ABOUT THE BOOK

SAQ in Gynecologic Cancers (Part I) with Model Answers is a short question and answer book dealing with different aspects of common gynecologic cancers. It is intended to be a companion to postgraduate medical students who are preparing to appear in Fellowship and Master of Science Examinations in Gynecologic Oncology and Obstetrics and Gynecology. It is a guide to written examination. The language is simple. Information is concise with adequate facts. Figures in the book are mostly collected from operations and procedures, including histopathological image analysis.

KEY FEATURES

- A short question and answer book on practical issues of common gynecological cancers.
- Recent, evidence-based diagnostic and therapeutic approaches are presented with explanation.
- Contemporary format with high-quality color illustrations, flowcharts, tables and photographs.
- Incorporates information according to the guidelines of NCCN, FIGO, ACS, ASCCP, WHO. It can be used by students in many countries around the world.
- A stepwise approach for managing patients with common gynecological oncology problems.
- Helpful guide for students in preparation for written, OSCE and practical clinical examination.

READERSHIP

- It will be a good guide for postgraduate students, trainee residents and practicing gynecologists.
