Textbook of PATHOLOGY
Harsh Mohan

Free! Pathology Quick Review
Includes Competency Based Medical Curriculum

8th Edition

₹ 2395

Key Features

+ The revised edition contains 30 chapters distributed in three sections: General Pathology (Ch. 1 to 10), Haematopoietic and Lymphoreticular System (Ch. 11 to 14), and Systemic Pathology (Ch. 15 to 30), along with three appendices.
+ Addition of new chapters, such as Molecular Cell Biology in Health and Ageing; White Blood Cells-Proliferations and Myeloid Neoplasms; and Diseases of Lymphoid Cells and Lymphoreticular Tissues.
+ Schematic, gross images and photomicrographs have been added of high quality and better resolution, contributed generously by Prof Ivan Damjanov.
+ ‘Must-know’ boxes have been added summarising bulleted key points for a rapid revision.
+ Chapter Orientation provided at the beginning of every chapter.
+ Clinical cases and important review questions have been added at the end of every chapter.
+ Free Pathology Quick Review book, now with new MCOs, and commonly asked short-answer questions for viva exams.

Foreword by Ivan Damjanov
Exam Preparatory Manual for Undergraduates
Pathology
Ramadas Nayak & Rakshatha Nayak

Key Features

- Based as per competency-based undergraduate curriculum for the Indian medical graduate (MCI).
- Core competencies (CC) and non-core competencies (NC) are highlighted.
- The book is divided into three sections namely General Pathology (Chapters 1 to 10), Hematology and Clinical Pathology (Chapters 11 to 15), and Systemic Pathology (Chapters 16 to 27). Two new chapters on Basic Diagnostic Cytology, and Blood Banking and Transfusion are added in this addition.
- Provided with usual questions asked in the theory examination. Clinical-oriented cases, clinical scenario and interpretation of common urinary abnormalities, cerebrospinal fluid changes and liver function tests are added in this edition. FAQs are given in red colored font.
- Appendices provide various important bodies and its associated conditions, important cells in various lesions.

Full Colour | Paperback | 4/e, 2020
8.5" x 11" | 942 pp | 9789389776409
₹ 1495

Practical Pathology
Harsh Mohan

Key Features

- Having 61 exercises, divided into 8 sections, and patterned on the format of practical class.
- Exercises are enhanced by the addition of newer images at several places.
- At the end of each exercise, a few key questions have been added for viva voce.
- Complimentary Online Students Resource including 100 CPQs and Quick Review of 108 Museum Specimens.

Full Colour | Paperback | 4/e, 2017
8.5" x 11" | 298 pp | 9789386107978
₹ 750

Essentials of Clinical Pathology
Shirish M Kawthalkar

Key Features

- Provides basic information about laboratory techniques in clinical chemistry, hematology, and blood transfusion for diagnosis and management of diseases.
- Discusses the most common, complex and advanced clinical laboratory tests.
- Theoretical principles of tests and conditions for MLT students and technicians.
- Some new chapters have been added.
- Includes numerous new illustrations, tables and flowcharts.
- Important points provided in boxes for last minute revision.

Full Colour | Paperback | 2/e, 2018
8.5" x 11" | 448 pp | 9789386150691
₹ 850

Review of Pathology and Genetics
Gobind Rai Garg & Sparsh Gupta

Key Features

- New NBE based pattern (Wide coverage, concept development, one-liner approach).
- Special points like NEET buster have been added to facilitate last minute revision.
- Picture MCQs with Answers (According to Recent Examinations).
- Golden points at the beginning of each chapter.
- Most authentic question banks.
- Solved MCQs (PGMEEs 2020-1985) including all recent questions of 2020.
- References from 7th, 8th and 9th editions of Robbins have been given separately.

Full Colour | Paperback | 12/e, 2020
8.5" x 11" | 652 pp | 9789389776829
₹ 1095
**Pathology & Hematology**

---

**Immunocytochemistry in Diagnostic Cytology**

*Pranab Dey*

- **New**
- Full Colour | Hardbound | 1/6, 2021
- 8.5" x 11" | 196 pp | 9789390020577
- **₹ 3995**

**Key Features**

- A concise and informative book in this subject
- Divided into two sections:
  - Section 1 - Deals with basic theory of immunocytochemistry, cell block preparation, staining procedure, automation in immunostaining and quality control.
  - Sections 2 - Highlights the diagnostic applications of immunocytochemistry. This section of text is supported by numerous tables, boxes, and illustrations.

---

**Principles & Interpretation of Laboratory Practices in Surgical Pathology**

*Shameem Shariff*

- 2nd Edition
- Single Colour | Paperback | 2/6, 2021
- 6.25" x 9.5" | 9789389587951
- **₹ TBA**

**Key Features**

- Most chapters scrutinized and redone with emphasis on recent advances in field, in particular special stains, cytopreparatory techniques and molecular techniques.
- New added chapters on Automation in Pathology, Museum Techniques, and Autopsy Techniques.
- Several color photomicrographs have been added in chapters to bring out the clarity and results of special stains and other techniques.
- Reference for all technicians, postgraduates and surgical pathologists.

---

**Manual of Transfusion Medicine**

*Ramadas Nayak & Rakshatha Nayak*

- Single Colour | Paperback | 3/6, 2020
- 6.75" x 9.5" | 634 pp | 9789388958608
- **₹ 895**

**Key Features**

- Provides basic concepts of transfusion medicine required to be known by postgraduate students and students of medical laboratory technology
- Provides text in a simple, lucid and reproducible format
- Text enhanced by illustrations, photographs, tables and boxes to understand the content Concise text in bulleted form for easy review and recollection
- Key points are provided in bold text so that it will help the students to brush through the entire book within few hours before the examination or viva voce
- Added selfassessment as usual questions that are asked in the examination.

---

**Essentials of Hematology**

*Shirish M Kawthalkar*

- 3rd Edition
- Full Colour | Paperback | 3/6, 2020
- 6.75" x 9.5" | 616 pp | 9789389188028
- **₹ 895**

**Key Features**

- The third edition presents concise text of blood disorders.
- Incorporates most recent advances in the field.
- Described the classification, nomenclature, and diagnostic approach to malignant hematologic diseases as per the recent updated and revised World Health Organization Classification of Tumors of Hematopoietic and Lymphoid Tissues published in 2017.
- Numerous illustrations, tables, and algorithms for rapid and ease of understanding.

---

**Postgraduate Review Series: MCQs in Hematology**

*Sanjeev Kumar Sharma & Pawan Kumar Singh*

- 2nd Edition
- Single Colour | Paperback | 2/6, 2020
- 8.5" x 11" | 400 pp | 9789389776706
- **₹ 895**

**Key Features**

- Covers all aspects of hematology including benign, malignant and consultative hematology.
- Helpful for those preparing for USMLE, PLAB, NEET, AID entrance exams/Fellowship in Internal medicine, and AID in transfusion medicine.
- Helpful for those preparing for specialization in hematology, including BM, DNB, FNB, Fellowship in clinical hematology and hematopathology.

---

**Manual of Histological Techniques**

*Santosh Kumar Mondal*

- 2nd Edition
- Single Colour | Paperback | 2/6, 2020
- 8.5" x 11" | 296 pp | 9789389188479
- **₹ 1450**

**Key Features**

- The latest edition of Manual of Histological Techniques is a compilation of the basics and latest advances in this rapidly evolving field of histopathology.
- All chapters are thoroughly revised with addition of 6 new chapters on bone marrow trephine biopsy, tre-cut biopsy, immunohistochemistry in surgical pathology, microarrays and DNA sequencing, microdissection and different types of PCR and quality control in histopathology.
**Diagnostic Cytology**  
Pranab Dey  

Full Colour | Hardbound | 2/e, 2017  
8.5" x 11" | 670 pp | 9789332701209  

**Key Features**  
- Describes general cytology, clinical cytology (aspirative and fine needle aspiration cytology), and laboratory techniques in cytology.  
- Contains all the recent information in the field of cytology including most recent classifications, molecular genetics, laboratory techniques.  
- Large number of tables, boxes, line arts and microphotographs in every chapter along with small boxes covering important information.

---

**Handbook of Cervical Cytology**  
Special Emphasis on Liquid-based Cytology  
Pranab Dey  

Full Colour | Paperback | 3/e, 2018  
6.25" x 9.5" | 188 pp | 9789352702657  

**Key Features**  
- A concise practical handbook on cervical cytology.  
- Presents recent diagnostic features of differential cervical lesions on cytology smears.  
- Provides detailed discussion on differential diagnosis and management of the lesions.  
- Emphasizes on cytology in liquid-based cytology.  
- Includes a large number of microphotographs to facilitate the recognition of the lesions.  
- Useful for practicing cytologists, students and cytoscreeners.

---

**Fine Needle Aspiration Cytology**  
Interpretation and Diagnostic Difficulties  
Pranab Dey  

Full Colour | Hardbound | 2/e, 2015  
8.5" x 11" | 500 pp | 9789351526087  

**Key Features**  
- All chapters have been completely reoriented.  
- Various diagnostic entities have been discussed in detail with the etiology, histology, cytology, immunocytochemistry and molecular genetics.  
- The history of fine needle aspiration cytology (FNAC), deep seated guided FNAC, ancillary techniques, cytology of central nervous system, and a case review section have been added.  
- A few classical cases have been emphasized.

---

**Autopsy Practices**  
Dhaneshwar Lanjewar & Pradeep Vaideswar

**New**  

Full Colour | Hardbound | 2/e, 2021  
6.75" x 9.5" | 244 pp | 9789389587043  

**Key Features**  
- Second edition represents the revision of the chapters in first edition.  
- Chapter 12 (Autopsy Guidelines in COVID-19) has been added as a new chapter.  
- Six additional cases of Clinicopathological conference are added.  
- Useful to residents and faculty members in pathology and forensic medicine and toxicology.

---

**Essentials of Gynecologic Pathology**  
Pranab Dey  

Full Colour | Paperback | 1/e, 2017  
8.5" x 11" | 322 pp | 9789386261205  

**Key Features**  
- Simple and concise book with all recent and relevant information.  
- Discusses in depth etiology, clinical features, macroscopy, histopathology, immunohistochemistry, molecular pathology and treatment.  
- Includes large number of tables, boxes and microscopical figures to illustrate the lesions.  
- Immensely useful to both the students and practicing pathologists, interested in gynecologic pathology.  
- Useful book to practitioners of Gynecology.

---

**Review of Gynecologic and Breast Pathology**  
Ivan Damjanov, et al.

Full Colour | Paperback | 3/e, 2017  
8.5" x 11" | 210 pp | 9789352700479  

**Key Features**  
- What is it?  
- A book of questions and answers.  
- Questions pertain to gross and microscopic pathology of the female genital organs and breasts.  
- Some questions pertain to microphotographs of typical pathologic lesions.  
- Some questions pertain to immunohistochemical or molecular biology findings in gynecologic and breast tumors.  
- To help novice students concentrated on most important aspects of gynecologic and breast pathology.

</tbody>
</table>

**Key Features**
- Provides 215 real cases of exfoliative cytology supplemented with clinical details and multiple microphotographs.
- Each case discusses diagnostic points and differential diagnosis along with relevant immunocytochemistry.
- Presented in the form of multiple choice questions (MCQs).
- Specific emphasis on cervical cytology and abundant microphotographs of liquid-based cytology (LBC).
- Includes recent clarification of lung tumors and urinary cytology.
- Useful for students and cytology practitioners to learn and self-evaluate.

- Aims to enhance skill and diagnostic expertise of renal biopsy interpretation.
- Describes current perspectives, recent classifications and elucidation of renal biopsies.
- Microscopic features, differential diagnosis, and course and prognosis are described point-wise.
- Well-illustrated with excellent photomicrographs.
- Excellent referral book for postgraduate residents, fellows and consultants in the department of pathology, nephrology and pediatric nephrology, and consultants who wish to specialize in renal pathology.

- Provides basic concepts of histopathology techniques required to be known by postgraduate students and students of medical laboratory technology.
- Provides knowledge in a simple, lucid and easily understandable and reproducible format.
- Concise test in bullet form for easy review and recollection.
- Key points are provided in bold type, so that it will help the student to just brush through the entire book within few hours before the examination or viva voce.

- This book contains updated and revised chapters to keep pace with the advances in hemato-pathology.
- Covers the content of Maintenance of Certification (MOC) examination.
- Review test is providing high-yield information in preparation for a hemato-pathology rotation, residents, and hemato pathology fellows in service examination, board examination and hemato pathology board re-certifications.
- A collection of approximately 320 full-color microphotographs printed in large format, with detailed descriptions, markings, and annotations.

- Comprehensive coverage of laboratory techniques of a wide range of immunohematology disorders.
- Genetic diagnosis of monogenic and polygenic disorders with special emphasis on cancer diagnosis and antenatal diagnosis.
- Step-by-step procedures and readily reproducible techniques.
- Diagnostic algorithms for complex disorders with multiple etiologies like primary immunodeficiencies, hemoglobinopathies, and disorders of hemostasis.

- Comprehensive compilation of 101 Medical Autopsy Cases (48 Adults and 53 Pediatrics—children, infants, neonates, stillbirths and terminated fetuses) in a case-based manner.
- Introduction to Medical autopsy, Systemic vasculitides, Tubercular meningitis and Pediatric renal-cyclical diseases.
- With a gallery of more than 3000 gross and microscopic photographs.
- This book will be a great teaching material for the pathologists, medical physicists, pathologists, neonatologists, obstetricians, radiologists along with undergraduates/postgraduate students.
Case-Based Approach in Fine Needle Aspiration Cytology
Pranab Dey

Key Features
- A unique collection of classical and interesting 250 real cases of FNAC.
- Essential clinical history and multiple microphotographs have been provided with every case.
- Diagnosis and differential diagnosis for each case are discussed at the end of each chapter.
- Further reading list is also provided after each case.
- Describes both classical and difficult cases.
- Based on question and answer approach.

Essential Pathology for Physiotherapy Students
Harsh Mohan

Key Features
- Designed and compiled exactly as per syllabus and format of learning Pathology in BPT course as prescribed by different universities.
- List of important questions given at the end of each lecture under three headings: Long Answer Questions, Medium Answer Questions, and Short Answer Questions.
- Fully supported by labelled illustrations, schematic drawings and tables.
- Get boxes given at the end of every topic as summary.

Essentials in Hematology & Clinical Pathology
Ramadas Nayak & Sharada Rai

Key Features
- Thoroughly revised and completely updated.
- A new chapter 67 on ‘Clinical Scenarios’ is added.
- A summary of the important points are provided.
- Key points are provided in bold words for the examination or viva voce.
- Essay questions, short note questions and over 300 multiple choice questions (MCQs) are provided for self-assessment.
- Text is enhanced by 135 illustrations, 27 photomicrographs, 18 photographs, radiographs, and over 146 tables.

Fundamentals of Surgical Pathology
Shameem Shariff

Key Features
- Gross and lucid descriptions of lesions in pathology.
- Diagnostic and solvent microscopic features essential in arriving at a diagnosis.
- Details on differential diagnosis in each lesion.
- Importance of immunohistochemistry as an aid in diagnosis.
- Synopsis reporting and the importance of a planned format in reporting emphasis on point-wise completion.
- Caters to common and complex routine reporting in the Indian subcontinent.

Manual of Blood Platelets: Morphology, Physiology and Pharmacology
Gundu HR Rao

Key Features
- This book is a comprehensive guide to blood platelets for hematologists.
- Covers the role of calcium in platelet activation and calcium modulation by cyclic nucleotides.
- Explains pharmacology of antplatelet drugs, antplatelet therapies, aspirin resistance, etc.
- Includes chapters on acute coronary problems, interaction between endothelial cells and platelets, and blood biocompatibility studies.
- Enhanced by clinical photographs, diagrams and tables.

Clinical Pathology, Hematology and Blood Banking (For DMLT Students)
Nanda Maheshwari

Key Features
- Covers length and breadth of clinical pathology, hematology and blood banking.
- Explains latest techniques and instrumentation in synchronization with the practical testing methods.
- Introduces highly useful chapters on cell pathology, tumor markers, body fluids, lupus erythematosus cells, etc.
- Simplifies the text with diagrams and color plates.
- A valuable asset for DMLT and undergraduate medical students.
Pathology & Hematology

Techniques in Histopathology & Cytopathology
Sadhana Vishwakarma

Key Features
- Deals with basic histological and cytological techniques used in medical laboratories and pathology departments.
- Provides a broad base in all aspects of histological techniques, i.e. from basic methods of section preparation and staining to advanced diagnostic techniques like cytology.
- Includes in each chapter the basic theory, procedure, problems encountered, and important subjective and objective questions.
- Highlights the recent developments in the field of immunohistochemistry, automation, microarray, etc.

Soft Tissue and Bone Pathology
A Question and Answer Based Review
Agedi Boto & Jose Costa

Key Features
- A concise guide to soft tissue and bone pathology.
- Presented in a multiple choice question format.
- The text is a study tool for trainees to test their knowledge on the pathology of tumours and tumor-like conditions in the musculoskeletal system and soft tissues.
- Images have been carefully selected to challenge trainees and help them prepare for exams.
- Enhanced by nearly 300 clinical photographs and illustrations.

Liver Biopsy Made Easy
Nalini Bansal Gupta

Key Features
- This book is meant as a ready reckoner and a desktop reference for postgraduate students of pathology.
- Focuses on basic understanding of normal liver biopsy and specific liver pathologies.
- At the end of each chapter, “Liver Biopsy Sign Out” and “Points to Remember” are given to guide the user to the key information provided in the chapter.
- Includes glossary of interesting and voiced cases of hepatopathology.

IADVL Color Atlas of Dermatopathology
(Under the aegis of IADVL Academy)
Pradeep Mahajan

Key Features
- Highly illustrated guide to the diagnosis and management of dermatologic disorders, with pathological results.
- Divided into 22 chapters, the book begins with an “Approach to Dermatology” and “Clues and Pitfalls in Diagnostic Dermatopathology”.
- Covers a range of common histopathological findings in dermatology.
- 592 full colour images and clinical photographs.

Atlas of Histopathology
Ivan Damjanov

Key Features
- Illustrates the salient aspects of systemic pathology.
- It has 500 full colour microphotographs printed in large format.
- Useful in preparation for examinations.
- It acts as a desktop manual to be used next to the microscope in standard laboratory sessions.
- This book is immensely helpful for medical students, veterinary medicine students, and dental medicine students, students in laboratory medicine, junior pathology residents and teachers of pathology.
Pathology & Hematology

6.25” x 9.5” | 262 pp | 9789350255551 | ₹ 1050

Atlas of Forensic Pathology
B Suresh Kumar Shetty, et al.

Full Colour | Paperback | 1/e, 2014
6.75” x 9.5” | 208 pp | 9789350904688 | ₹ 3795

Review of Laboratory Medicine
Najat Rashid & Ranmic Sood

Full Colour | Hardbound | 1/e, 2014
5.75” x 8.75” | 454 pp | 9789351523680 | ₹ 2150

Salivary Gland Pathologies
Nisheet Anant Agni & Rajiv Mukund Borle

Two Colour | Paperback | 1/e, 2013
5.5” x 8” | 242 pp | 9789380704722 | ₹ 1350
Pathology & Hematology

Jaypee Gold Standard Mini Atlas Series
Pathology
Harsh Mohan

Full Colour | Paperback | 1/e, 2007
4.5" x 9" | 254 pp | 9788184480788 | ₹ 895

A Concise Book on Pathology
Vasanth Kasinathan

Single Colour | Paperback | 1/e, 2011
5.5" x 8.5" | 262 pp | 9788184487565 | ₹ 395

Stem Cells
Eapen Cherian

Full Colour | Hardbound | 1/e, 2011
8.5" x 11" | 132 pp | 9789350250600 | ₹ 3795

Manual of Medical Laboratory Techniques
S Ramakrishnan & KN Sulochana

Full Colour | Paperback | 1/e, 2012
6.25" x 9.5" | 452 pp | 9789350256343 | ₹ 895

Textbook of Pathology
for BPT Students
Ramadas Nayak

Single Colour | Paperback | 1/e, 2016
6.75" x 9.5" | 500 pp | 9789385999086 | ₹ 650

The Textbook of Blood Bank and Transfusion Medicine
Satish Gupte

Single Colour | Paperback | 1/e, 2006 (RP)
5.5" x 8.5" | 212 pp | 9788171797196 | ₹ 550

MCQs in Objective Pathology
with Explanations
Sumant Sharma & Yogesh Chhabra

Single Colour | Paperback | 2/e, 2012
5.5" x 8.5" | 102 pp | 9789350259047 | ₹ 295

Essentials of Blood Banking
(A Handbook for Students of Blood Banking and Clinical Residents)
SR Mehdi

Single Colour | Paperback | 2/e, 2013
5.5" x 8.5" | 126 pp | 9789380704524 | ₹ 395

A Guide to Pathology
K Chaudhry

Single Colour | Paperback | 8/e, 2005
5.5" x 8.5" | 318 pp | 9788171791422 | ₹ 550

Textbook of Medical Laboratory Technology
Ramnik Sood

Two Colour | Paperback | 1/e, 2006
8.5" x 11" | 1292 pp | 9788180615917 | ₹ 1950

Manual of Laboratory Safety
(Chemical, Radioactive, and Biosafety with Biocides)
Najat Rashid & Ramnik Sood

Full Colour | Paperback | 1/e, 2013
6.25" x 9.5" | 174 pp | 9789350906224 | ₹ 2795

Mnemonics on Pathology and Microbiology
Krishna N Sharma

Single Colour | Paperback | 1/e, 2013
4.25" x 5.5" | 106 pp | 9789350902974 | ₹ 195
