Video Atlas

Key Features

- Brings global perspectives under one roof.
- The text is covered in five volumes, such as Otology and Lateral Skullbase Surgery; Rhinology and Anterior Skullbase Surgery including Endoscopic Sinus Surgery; Facial Plastics, Cosmetics and Reconstructive Surgery; Voice and Laryngotracheal Surgery; and Head and Neck Surgery.
- Each chapter describes a different surgical procedure for the relevant region of head and neck.
- Highly illustrated with more than 2700 colour images.
- Valuable resource for otorhinolaryngologists/head and neck surgeons, trainee doctors, trainee and established surgeons.
Free Radial Artery Forearm Flap for Head and Neck Reconstruction: A Color Atlas
Girish N Amlani & Dipen D Patel

**Key Features**
- Provides information for those who work in the field of head and neck reconstruction.
- Describes the general principles and technique in clear language.
- Contains most of the basic principles and facts about Free Radial Artery Forearm Flap.
- Depicts numerous color photographs explaining various designs of free radial artery forearm flap for head and neck reconstruction.

Diseases of Ear, Nose & Throat
Mohan Bansal

**Key Features**
- As per the new competency Based Medical Education (NBME) National Board Examination curriculum.
- Each chapter begins with the details of the subject competencies.
- Case studies incorporated liberally in the chapters.
- Instructive boxes, tables, Flowcharts, line diagrams and photographs to enhance learning.
- Clinical applications highlighted and integrated in the text.
- For the quick revision of students, chapters and with the clinical highlights and additional important points.
- Self-evaluation exercises included at the end of each chapter.

Comprehensive Management of Head and Neck Cancer
Narayana Subramaniam, et al.

**Key Features**
- This volume comprises 46 detailed chapters.
- Newer concepts like personalized medicine and robotic surgery have been covered in detail.
- Covers management and treatment principles from a basic level to state-of-the-art, while offering available evidence with consensus guidelines wherever possible.
- Written as a systematic review of landmark and contemporary literature with multiple figures. & images to improve comprehension.
- Reconstructive surgery following ablation of head and neck cancer is covered in extensive detail.

Symptom Oriented Otolaryngology Head & Neck Surgery
Zahoor Ahmad, et al.

**Key Features**
- The first volume is divided into two sections, covering head and neck, and laryngology.
- Second volume is divided into two sections, covering rhinology and facial plastics.
- Third volume is divided into two sections covering otology and paediatrics.
- Every section begins with the anatomy of the structures concerned, followed by chapters on associated symptoms and their diagnoses.
- Enhanced by full color images.

Video Atlas of Thyroid Cancer Management
Diagnosis, Workup, Surgical Management, Adjuvant Therapies, Follow-up and Outcomes
Jatin Shah, et al.

**Key Features**
- Didactic lectures by World Leaders in Thyroid Cancer Management.
- Updated information on American Thyroid Association (ATA) Guidelines.
- Updated information on American Joint Committee on Cancer (AJCC) Staging, 8th edition.
- Systematic approach to Risk Stratified Strategies.
- Superb technical details on operative procedures.
- Current outcomes data from Memorial Sloan Kettering Cancer Center.

Vertigo and Dizziness
A Case-based Study
Ambar Chakravarty

**Key Features**
- First Case Study book on Vertigo and Dizziness essentially meant for and written by Neurologists from India.
- A total of 46 cases discussed in an interactive manner.
- All in all a comprehensive textbook on Vestibular Disorders (both central and peripheral) suitable for General Neurologists, Physicians, Pediatricians and Trainees.
Otorhinolaryngology/Head & Neck Surgery

Textbook of Laryngology
Official Publication of the Association of Phonosurgeons of India
Nupur Kapoor Nerurkar

52 Contributors

Key Features
- This handbook will serve as an excellent reference guide in the field of Laryngology in the global arena.
- Special emphasis on clinical correlation, clinical assessment of voice and swallowing disorders and office-based procedures.
- Detailed steps of surgery along with photographs on phasography followed by sections on Airway and Swallowing.
- Includes final section on Recent Advances.
- Clinical pearls at the end of the chapters.

Full Colour | Hardbound | 1/e, 2017
8.5" x 11" | 404 pp | 9789386322449
₹ 4595

Atlas of Ossiculoplasty
Madhuri Mehta

Key Features
- This book is an illustrative monogram dealing with different techniques of ossicular reconstruction, addressing a variety of ossicular pathology.
- Intro operative photographs are accompanied by diagram to clearly illustrate details of the technique used.
- Review of different material and techniques of ossicular reconstruction.
- Clear definition of problems encountered and their solutions as well.
- More than 120 images and 30 videos to complement the text.

Full Colour | Hardbound | 1/e, 2017
8.5" x 11" | 288 pp | 9789386150585
₹ 5295

Thyroectomy
Anatomical Basis of Surgical Technique
Ernesto P Molmenti, et al.

Key Features
- A practical book destined for surgeons at the initial stages of their experiences.
- Highlights the fundamental relevance of surgical anatomy.
- The text addresses the images and illustrations derived from the experience of the authors, as registered by means of surgeries, anatomical dissections, and schematic representations.

Full Colour | Hardbound | 1/e, 2017
8.5" x 11" | 104 pp | 9789352700035
₹ 3995

Basic Concepts in Head & Neck Surgery and Oncology
Krishnakumar Thankappan & Subramaniam Iyer

2nd Edition
26 Contributors

Key Features
- Provides fundamental knowledge necessary to practice evidence-based management of head and neck cancers.
- Covers the recent changes in the staging system as reflected in the American Joint Committee (AJCC) 8th edition.
- Newer modalities of treatment like robotic surgery and immunotherapy are also updated.
- Six new chapters added on Parathyroid Tumors, Infratemporal Fossa, Temporal Bone Tumors, Facial Nerve, Tracheotomy, and Melanoma and Nonmelanoma Skin Cancers.

Full Colour | Soft Cover | 2/e, 2019
6.75" x 9.5" | 372 pp | 9789352708963
₹ 2350

ENT Essentials
Elina M Toskala & David W Kennedy

49 Contributors

Key Features
- The most important information for medical students, residents and primary care physicians.
- Symptom-based for easy access, important diagnostic steps and differential diagnosis.
- Available in electronic tablet/smart phone format for easy bedside and clinical access.
- Multi-author format from leading academic otolaryngologists in each field, cooperating with residents and fellows to ensure that the most important information is included.

Full Colour | Soft Cover | 1/e, 2020

₹ 2695

Facial Plastic & Reconstructive Surgery: Concepts, Questions, Answers
Sami P Moubayed, et al.

Key Features
- Comprehensive guide to facial plastic and reconstructive surgery.
- Over 1000 questions, broken down by sections and subsections to facilitate self-learning.
- Recognised author team from Canada and USA.

Full Colour | Soft Cover | 1/e, 2019
8.5" x 11" | 310 pp | 9789352702923
₹ 3195
Otorhinolaryngology/Head & Neck Surgery
CATALOGUE 2021-22

Otorhinolaryngology
Head & Neck Surgery
Chris De Souza

2 Volume Set

Full Colour | Hardbound | 2/e, 2019
8.5” x 11” | 2200 pp | 9789351246181

Key Features
- New edition of comprehensive two volume set covering all sub-specialties in otorhinolaryngology.
- Includes brand new chapters and the most recent developments in the field.
- New sections on endoscopic sinonasal surgery and otology.
- New topics include larynx/paraglottic reflux, trauma and stenosis of the larynx, and laryngeal cancer.

Neck Dissections
Colour Atlas of Surgical Technique
Jesus E. Medina & Nilesh R. Vasan

Full Colour | Hardbound | 1/e, 2018
8.5” x 11” | 194 pp | 9789386322289

Key Features
- This atlas provides a unique resource for clinicians to learn or review the technique to perform various types of neck dissections.
- Description of the different surgical maneuvers and anatomic structures pertinent to each step of the operations is presented side by side with unique colour.

Otology & Middle Ear Surgery
Ashok Kumar Saha

Full Colour | Soft Cover | 1/e, 2017
5.5” x 8.5” | 500 pp | 9789352501229

Key Features
- Comprehensive, illustrated guide to ear surgery.
- Covers a range of otological conditions from otitis media to Meniere’s disease.
- Includes up-to-date information on the latest technology in audiology medicine.
- 1.63 full colour images, illustrations and tables.

Atlas of Phonosurgery
Nupur Kapoor Nerurkar

Full Colour | Soft Cover | 3/e, 2018
8.5” x 11” | 182 pp | 9789352702444

Key Features
- A concise introduction to the anatomy and principles of phonosurgery, routine and difficult microlaryngoscopy including anesthesia and laser considerations.
- High-resolution color photographs depicting the steps of surgery for various glottis lesions with special emphasis on the philosophy of phonosurgery in each specific condition.
- Includes case studies of all lesions.
- Demonstration of various imaging modalities such as Narrow Band Imaging (NBI) and Short Professional Imaging Enhancement System (SPES).

Rhinoplasty: An Expert Manual
Swapan Kumar Ghosh

Full Colour | Soft Cover | 1/e, 2017
6.25” x 9.5” | 168 pp | 9789386322982

Key Features
- Written in simple and straightforward language with concise and comprehensive coverage of the subject with up-to-date information and explanatory illustrations.
- Surgical Anatomy of the nose described in detail.
- Numerous preoperative and postoperative photographs of the patients enhancing understanding of the subject.
- Photographs of cadaver dissections describing anatomy of nasal and surgical procedures.
- Suits the requirements of medical students in their ear, nose and throat (ENT) and plastic surgery examinations.
- Quick reference for junior ENT surgeons, and plastic surgeons.

Atlas of Surgery of the Facial Nerve
An Otolaryngologist’s Perspective
DS Grewal

Full Colour | Hardbound | 2/e, 2012
8.5” x 11” | 232 pp | 9789352578902

Key Features
- A branch of Dr DS Grewal to integrate his 30 years’ experience of facial nerve surgery.
- Review various aspects of facial nerve pathology and surgery.
- Presents more than 300 intraoperative photographs.
- Useful to plastic surgeons, physicians, and neurosurgeons to understand and know various aspects of facial nerve pathology and surgery, thereby planning the patient’s treatment in conjunction with the otologist and vice versa.
Embryology & Anomalies of the Facial Nerve and their Surgical Implications
Robert Thayer Sataloff & Johnathan Brandon Sataloff

Key Features
- Revised and updated in a new format.
- A summary of the latest research on gross embryology of the facial nerve is provided.
- A new chapter on Pharyngography.
- Enriched with new figures in full colour.
- The content of this small volume will be extremely useful for Otolaryngologists who care for patients with congenital malformations of the ear, anatomically related structures and one need to be familiar with the embryology of the facial nerve.

Practical ENT
Vikas Sinha

Key Features
- This book is truly practical, unique and to the point.
- An excellent resource for the undergraduate medical students commencing his/her wards posting and practical instruction in otolaryngology.
- A good refresher prior to the examination.
- It will also serve as a useful resource for postgraduate students with regards to the sections on x-rays, operations, audiology, otoscopy, instruments, and FAQs.
- A very comprehensive synopsis of basic otolaryngology.
- The book elegantly captures the essence of ENT.

Textbook of Voice and Laryngology
KK Handa

Key Features
- Discusses different aspects of laryngology from basic information about applied anatomy, imaging, and voice evaluation to topics such as laryngopharyngeal reflux, spasmodic dysphonia, and care of singing voice, aging voice, and voice therapy, swallow therapy, etc.
- This book is based on the author’s vast clinical experience supported by the chapters provided by experts, including the international ones.

Pocket Tutor Otolaryngology
Abir Bhattacharyya, et al.

Key Features
- Anatomy and physiology review provides bedrock for understanding normal and abnormal function.
- Clinical essentials chapter summarises relevant examination techniques and investigative tools.
- Concise disease descriptions and clinical scenarios help you identify disorders commonly seen in practice.
- New to this edition: expanded rhinology sections and new chapter devoted to diagnostic algorithms.

Understanding Benign Paroxysmal Positional Vertigo
Alessandro De Stefano & Francesco Dispensa

Key Features
- Wide treatment of all features of benign paroxysmal positional vertigo (BPPV) by internationally renowned specialists.
- Analysis of pathogenesis and epidemiological data of BPPV.
- Clinical and diagnostic approach of complex forms of BPPV.
- Detailed argumentation on treatment options for BPPV.

Textbook of Ear, Nose and Throat
BS Tuli

Key Features
- Designed in a well-illustrated form to learn and practice the essentials of surgery.
- Description of various diseases is well-supported by photographs and line diagrams.
- Contains Key Points at the end of each chapter.
- Informative and student-friendly for the undergraduates and postgraduates besides ENT surgeons.
- Useful for the private practitioners in their day-to-day practice.
Textbook of Vertigo: Diagnosis & Management
