Ready Reckoner for Gynecologic Surgeons, Practicing Gynecologists and Postgraduate Students

**Operations in Obstetrics & Gynecology**

**Text and Atlas**

B Ramesh

**Key Features**

- Elaborated Atlas and textbook intended to include all operations in the specialty of Obstetrics & Gynecology
- Focuses mainly on surgical technique, not on other aspects
- A step wise approach of most of the surgeries makes the text more understanding
- It can be useful guide to undergraduate students to understand simple procedures like cesarean section, hysterectomy, etc.
- This book also can help the other specialties like general surgeons, urologists and gastroenterologists who will be dealing with abdominal surgeries in day-to-day practice.
